In this novel based on the Assassin's Creed™ video game series, Niccolò Polo, father of Marco, will finally reveal the story he has kept secret all his life—the story of Altaïr, one of the Brotherhood's most extraordinary Assassins. Altaïr embarks on a formidable mission—one that takes him throughout the Holy Land and shows him the true meaning of the Assassin's Creed. To demonstrate his commitment, Altaïr must defeat nine deadly enemies, including Templar leader Robert de Sable. Altaïr's life story is told here for the first time: a journey that will change the course of history; his ongoing battle with the Templar conspiracy; a family life that is as tragic as it is shocking; and the ultimate betrayal of an old friend. An Original Novel Based on the Multiplatinum Video Game from Ubisoft

Introduction to Islamic Creed Insight Editions

In this book the Promised Messiah, on whom be peace, discusses the philosophy of divine revelation, the three categories of people who claim to receive revelation, and the distinction of the truthful from the false. He then establishes his truthfulness by documenting over 200 Signs, including the fulfillment of prophecies made by the Holy Prophet Muhammad, may peace and blessings of Allah be upon him, other men of God, earlier scriptures, and his own revelations spanning over twenty-five years. The author cites numerous examples of his enemies who publicly predicted his downfall and demise, only to become the very victims of their own prophecies. God, however, protected him against every assault, while continuously reassuring him of His promise to bless his Community—a promise which continues to bear the seal and testimony of history. The author also appeals to the followers of different faiths to read this book cover to cover to appreciate and accept this evidence as proof that God is One and the Holy Prophet Muhammad is the Messenger of God, and that he is the Promised Messiah raised to unite humanity under the banner of Islam.

The Ismaili Muslims, who belong to the Shia branch of Islam, live in over 25 different countries

around the world, mainly in Asia, Africa and the Middle East. Their history has typically been linked to the history of the various countries in which they live, but the worldwide community is united under Prince Karim Aga Khan, the spiritual leader and 49th Imam of the Ismaili Muslims. Few fields of Islamic studies have witnessed as drastic a change as Ismaili studies, due in part to the recent discovery of numerous historical texts, and author Farhad Daftary makes extensive use of these new sources in the Historical Dictionary of the Ismailis. This comprehensive new reference work is the first of its kind on the Ismailis and presents a summary of the findings of modern scholarship on the Ismaili Shia Muslims and different facets of their heritage. The dictionary covers all phases of Ismaili history as well as the main doctrines of the community. It includes an introductory chapter, which provides a broad historical survey of the Ismailis, followed by alphabetical entries on all major aspects of the community, such as key figures, institutions, traditions, and doctrines. It also contains a chronology, genealogical tables, a glossary, and a substantial bibliography. This book is an excellent access point for students, researchers, and anyone wanting to know more about the Ismailis.

This collection of essays analyzes film representations of the Crusades, other medieval East/West encounters, and the modern inheritance of encounters between orientalist fantasy and apocalyptic conspiracy. From studies of the filmic representations of popular figures such as El Cid, Roland, Richard I, and Saladin to examinations of such topics as Templar romance and the role of set design, location and landscape, the essays make significant contributions to our understanding of orientalist medievalism in film. Instructors considering this book for use in a course may request an examination copy here.

The Alchemy of Happiness was an attempt to show ways in which the lives of a Sufi could be based on what is demanded by Islamic law. This book allowed Al Ghazzali to considerably reduce the tensions between the scholars and mystics. The influence of Al-Ghazzali upon both the Christian and Islamic thinkers of the Middle Ages and beyond is being more and more widely documented.

The forgotten story of Central Asia's enlightenment—its rise, fall, and enduring legacy In this sweeping and richly illustrated history, S. Frederick Starr tells the fascinating but largely unknown story of Central Asia's medieval enlightenment through the eventful lives and astonishing accomplishments of its greatest minds—remarkable figures who built a bridge to the modern world. Because nearly all of these figures wrote in Arabic, they were long assumed to have been Arabs. In fact, they were from Central Asia—drawn from the Persianate and Turkic peoples of a region that today extends from Kazakhstan southward through Afghanistan, and from the easternmost province of Iran through Xinjiang, China. Lost Enlightenment recounts how, between the years 800 and 1200, Central Asia led the world in trade and economic development, the size and sophistication of its cities, the refinement of its arts, and, above all, in the advancement of knowledge in many fields. Central Asians achieved signal breakthroughs in astronomy, mathematics, geology, medicine,

chemistry, music, social science, philosophy, and theology, among other subjects. They gave algebra its name, calculated the earth's diameter with unprecedented precision, wrote the books that later defined European medicine, and penned some of the world's greatest poetry. One scholar, working in Afghanistan, even predicted the existence of North and South America—five centuries before Columbus. Rarely in history has a more impressive group of polymaths appeared at one place and time. No wonder that their writings influenced European culture from the time of St. Thomas Aquinas down to the scientific revolution, and had a similarly deep impact in India and much of Asia. *Lost Enlightenment* chronicles this forgotten age of achievement, seeks to explain its rise, and explores the competing theories about the cause of its eventual demise. Informed by the latest scholarship yet written in a lively and accessible style, this is a book that will surprise general readers and specialists alike.

Islamic Spirituality Islam International Publications Ltd

Originally published 1987. The first part of the volume is concerned with "The Roots of the Islamic Tradition and Spirituality". These are seen to include the Qu'ran as the central theophany of Islam, the Prophet who received the word of God and made it known to mankind and the rites of Islam. The second part examines the divisions of the Islamic community with their distinctive pieties and emphases: Sunnism and Shi'ism and female spirituality. Part III is devoted to Sufism – its nature and origin, its early development, its various spiritual practices and its science of the soul.

Understanding Karbala Penguin UK

The epic story of how primitive humans, without words or machines, set in motion civilization's long,

winding journey to the present. Thirty thousand years ago, in the heart of the African continent and in the shadow of Mount Kilimanjaro, lived the Ibandi, who for generations nurtured their ancient traditions, and met survival's daily struggle with quiet faith in their gods. T'Cori, an abandoned girl, and Frog Hopping, a boy possessing a gift that is also a curse, are two of the Ibandi's chosen ones. Though they live in different encampments, Frog and T'Cori are linked through the mysterious medicine woman known as Stillshadow, who has sensed in them a destiny apart from others'. Through the years, and on their separate paths, T'Cori's and Frog's fates entwine as an inevitable disaster approaches from the south—from the very god they worship. For as long as there have been mountain, sky, and savannah, there has been a home for the Ibandi. Now, in the face of an enemy beyond anything spoken of even in legend, they must ask their god face-to-face: Do we remain or do we depart?

The history of an extremist Islamic sect in the 11th-12th centuries whose terrorist methods gave the English language a new word: assassin. The word 'Assassin' was brought back from Syria by the Crusaders, and in time acquired the meaning of murderer. Originally it was applied to the members of a Muslim religious sect - a branch of the Ismailis, and the followers of a leader known as the Old Man of the Mountain. Their beliefs and their methods made them a by-word for both fanaticism and terrorism in Syria and Persia in the 11th and 12th centuries, and the subject of a luxuriant growth of myth and legend. In this book, Bernard Lewis begins by tracing the development of these legends in medieval and modern Europe and the gradual percolation of accurate knowledge concerning the Ismailis. He then examines the origins and activities of the sect, on the basis of contemporary Persian and Arabic sources, and against the background of Middle Eastern and Islamic history. In a final chapter he discusses some of the political, social and economic implications of the Ismailis, and examines the significance of the Assassins in the history of revolutionary and terrorist movements.

The novelization of the highly anticipated God of War game. His vengeance against the Gods of Olympus years behind him, Kratos now lives as a man in the realm of Norse gods and monsters. It is in this harsh, unforgiving world that he must fight to survive... and teach his son to do the same. This startling reimagining of God of War deconstructs the core elements that defined the series--satisfying combat; breathtaking scale; and a powerful narrative--and fuses them anew.
