Corporate Stewardship Routledge
Business and Society: Corporate Strategy, Public Policy and Ethics, by Post, Lawrence and Weber was the first book to be published in the field of business and society and is the market leader! For over thirty years, *Business and Society* has been updated and reinvented in response to society's relationship to business. Post, Lawrence and Weber discuss the social and ethical impacts of business. *Business and Society, 10e* highlights why government regulation is sometimes required as well as new models of business-community collaboration. *Business and Society, 10e* is a book with a point of view. Post, Lawrence and Weber believe that businesses have social (as well as economic) responsibilities to society; that business and government both have important roles to play in the modern economy; and that ethics and integrity are essential to personal fulfillment and to business success.

Strategic Corporate Social Responsibility Irwin/McGraw-Hill
Stewardship entails a profound understanding and acceptance of the challenges that result from the organization's interdependence with the societal and ecological contexts in which it operates—and of what it takes to embrace the challenges to be a force for building a viable future. This book dares to ask 'why' business leaders should embrace stewardship in the current market where profit reigns supreme. A shift in approach represents fundamental change for the corporate world, and even the most advanced corporations consider themselves to be in the starting block of this transition. The book sets out the practical ways in which corporate stewardship can be achieved through embedding new approaches across the different functions of a business. This book, written by the leading thinkers in sustainability research, provides practical guidance on how companies can resolve the paradoxical challenges they face. How

can they be at the same time profitable and responsible, effective and ethical, sustainable and adaptable? It explores what businesses are doing, what they can and should do to effectively respond to external challenges, and focuses on how leaders can create cultures, strategies, and designs far beyond "business as usual". Stewards must not only make proper current use of that which they hold in trust, they also must leave it in better condition for use by future generations. *Corporate Stewardship* challenges managers, executives, and directors of global corporations to think and act as stewards of both their organizations and the physical and social environments in which they operate.

Business and Society SAGE Publications, Incorporated
Here is the story of Corporate Social Responsibility---what it means, where it came from, where it is going, what it requires of business. Told in an eyewitness, I-was-there style by a pioneer of the study of CSR in the nation's business schools, it takes the reader through a half century of corporate scandals and fierce struggles over corporate ethics---from Ralph Nader's 1960s Campaign GM to today's white collar crimes at Enron, WorldCom, Tyco, and other Wall Street giants. It lays bare the values that drive corporate culture, explores the motivational depths of corporate strategy and policy, demonstrates how biological impulses can lead business decision makers astray, questions the relevance and ethical commitment of business school education, reveals the spiritual side of management life, and holds out hope that the New Millennium will see improvement in the ethical performance of business. William C. Frederick is one of the founders of the study of Corporate Social Responsibility in the United States and initiated some of the key concepts and analytic categories. His books include *Business and Society*, *Social Auditing*, and *Values, Nature, and Culture in the American Corporation*. He was president of The Society for Business Ethics and The Society for Advancement of Socio-Economics, and chaired the Social Issues in Management division of The Academy

of Management. He conducted studies of management education in Spain, Italy, Egypt, Yugoslavia, Ecuador, Nigeria, and Australia, and designed and taught programs for executives in U. S. corporations. He was dean of the business schools at the University of Kansas City and the University of Pittsburgh. He received a PhD in economics and anthropology from the University of Texas. *Corporation, Be Good!* draws on the author's half-century of thinking about the social and ethical responsibilities of the modern corporation.

Corporation, be Good! Greenleaf Publications

Recent advances in stakeholder theory have begun to understand the firm and its stakeholders as embedded in a network of relationships. With the increased prominence of stakeholders that this conceptual shift implies, attention has now turned to stakeholder responsibilities as well as rights .

Stakeholder Responsibility Dog Ear Publishing

This book aims to analyze how China's firms in the consumer electronics (CE) sector have developed their business strategy and corporate governance during the reform process. This book examines the CE sector in particular because it is one of the country's most important and dynamic manufacturing sectors and one of the earliest market-oriented sectors.

The Strategies of China's Firms Chandos Publishing

Blending theory with practical application, *Strategic Corporate Social Responsibility, Third Edition* is a comprehensive CSR and strategy text. As such, it supports courses taught either as standalone electives or as core components of the business school curriculum across all discipline areas. Integral to the book's unique format is its mix of theory and practical application divided into two parts. After five chapters that provide an overview of the field, core concepts, and practical challenges, the second half of the book illustrates the extensive and dynamic nature of CSR via 21 detailed issues and case-studies. The cases capture contentious debates across the spectrum of CSR topics that culminate with a series of questions designed to stimulate further investigation and debate.
