 Pediatric Education For Prehospital Professionals (PEPP), Revised Third Edition Represents A Comprehensive Source Of Prehospital Medical Information For The Emergency Care Of Infants And Children. PEPP Is Designed To Give Prehospital Professionals The Education, Skills, And Confidence They Need To Effectively Treat Pediatric Patients. Developed By The American Academy Of Pediatrics, PEPP Specifically Teaches Prehospital Professionals How To Better Assess And Manage Ill Or Injured Children. PEPP Combines Comprehensive Medical Content With Dynamic

Features And An Interactive Course To Fully Prepare Prehospital Professionals To Care For Children In The Field. NEW TO THE REVISED THIRD EDITION: • Meets 2015 CPR And ECC Guidelines • The Textbook Content Addresses Every Pediatric-Specific Competency Statement In The National EMS Education Standards. • Shock And Resuscitation Content Is Covered In Two Separate Chapters, Placing More Emphasis On These Critical Topics. • A Top-Flight EMS Author Team Working In Conjunction With AAP Physician Reviewers Ensures Exceptional Medical Content With A "Street" Focus. FEATURES INCLUDE: • The Pediatric Assessment Triangle (PAT) Represents The Essence Of The PEPP Patient Assessment Method, Which Includes Assessing Appearance, Work Of Breathing, And Circulation To The Skin. • The Patient Assessment Flowchart Provides Students With An Easy-To-Understand Reference Of The Pediatric Patient Assessment Process. • Case Studies Provide An Opportunity For Critical Thinking And Encourage Students To Consider How They Would Treat A Similar Case In The Field. • Procedures Provide Written Step-By-Step Explanations And Visual Summaries Of Important BLS And ALS Pediatric Skills. INTERACTIVE COURSE AND FLEXIBLE COURSE OPTIONS: • PEPP Course Coordinators Now Have The Option Of Offering Onsite Or Hybrid Courses. • The Hybrid Course Includes Engaging, Interactive Online Modules That Students Complete Before Attending The Onsite Portion Of The Course For Scenarios And Hands-On Skill Stations. • The Onsite Course Includes Case-Based Lectures, Live-Action Video, Small Group Scenarios, And Hands-On Skill Stations. • A New Renewal Course For Providers To Keep Up-To-Date With Their Skills The BLS Course Is Geared Toward Emergency Medical Responders And Emts, While The ALS Course Is Ideal For Aemts And Paramedics. Learn More About The PEPP Course At www.peppsite.com

BLS for Prehospital Providers Instructor Supplement Has companion: BLS basic life support provider manual.
2020 Handbook of Emergency Cardiovascular Care for Healthcare Providers
 Basic Life Support Provider Manual (International English)
Advanced Cardiovascular Life Support (ACLS) Instructor Manual
 Basic Life Support (BLS) Provider Manual - The content in this handbook is in compliance with the 2020 guidelines for CPR and ECC (Emergency Cardiac Care), recently released by the

American Heart Association - therefore, all the protocols illustrated in this book are based on up-to-date evidence. These guidelines are updated every 5 years. The BLS Provider Manual is a complete guide and reference tool that covers all the information students need to know in order to successfully complete the BLS course. For easier learning, multiple-choice questions can be found at the end of each chapter. The answers to these exercises are found at the very end of the book. Basic Life Support (BLS) refers to a set of procedures that can be learned to prolong survival in life-threatening situations until more professional help is available. Any individual can become certified in basic life support protocols. These protocols are frequently updated, based on the latest evidence available, and every individual who undergoes BLS certification may need to refresh their knowledge every two years. Medical professionals usually have a sound understanding of basic life support protocols. Even then, it is essential for them to frequently undergo certifications to update their knowledge regarding the latest evidence-based protocols. This handbook is designed for both medical professionals and non-healthcare individuals. It aims to establish a sound understanding of the mechanisms underlying basic life support. The intended audience is healthcare students and personnel who need to learn how to perform CPR and other basic cardiovascular life support skills in a wide variety of both clinical and prehospital settings.
