Sooner or later, most organizations will face some kind of disaster--flood, fire, hurricane, earthquake, workplace violence, bombings, even the arrest or sudden death of the CEO. Existing books on crisis management deal almost exclusively with physical breakdowns, logistics issues, data losses and environmental and economic impacts. But it is people who actually make a business

run, and Leading People Through Disasters is the first book to deal with the all-important human side of recovery. Kathryn McKee and Liz Guthridge show how to ensure that your business continuity plan addresses human as well as business issues and they offer detailed advice on what to do when disaster actually strikes--how to keep people safe, calm, and informed; help managers care for employees; and deal with employees' immediate and ongoing emotional and psychological needs while getting the organization back on its feet. This comprehensive guide features a wealth of examples, checklists, forms, and other practical tools that will help you take action when you need it most.

Students trying to navigate the strategy jungle may lose sight of the fact that strategic management is about creating value in an organization. Understanding strategic management is a core part of all business qualifications and this textbook brings a new and easy-to-follow understanding of this vital business function. In addition to walking the student through the basics of the subject, the authors provide an array of analytical tools to help facilitate a thorough understanding of strategic management. The book addresses thoroughly the impact of financial markets on a firm's strategic capabilities, as well as looking at other challenging environmental factors. Aided by an array of student-friendly features, such as: learning objectives, 'strategic management in practice' case studies and review questions in each chapter, Strategic Management will help students to excel in their strategic management classes and better prepare them for the real business world. A comprehensive companion website, containing a wealth of supplementary materials for students and lecturers alike, is available at:

New Occupational Employment and Wage Series Announced Stanford University Press

Provides a practical, 10-step process for managing the human aspect of an M&A. M&A activity is higher than ever with acquisitions becoming an important part of every company's growth strategy. The industries heavily engaging in this activity are high-tech, emerging technologies, and utilities. The M&A Transition Guide is written for executives, managers, and HR professionals involved with any transaction that moves employees from one company to another. Poor workforce integration is a main cause for M&A failures and this book helps managers make the M&A transition a more positive one by providing a plan of action for the integration that focuses on ten critical steps. These steps encompass the entire M&A process from due diligence to employee retention strategies.

Flood, fire, hurricane, earthquake, workplace violence, bombings, even the arrest or sudden death of the CEO—sooner or later, most organizations will face some sort of disaster. Leading People Through Disasters breaks new ground in disaster-recovery by focusing on supporting the people who keep the business running in times of crisis. Kathryn McKee and Liz Guthridge show how to ensure that your business continuity plan addresses human as well as business issues and they offer detailed advice on what to do when disaster actually strikes—how to keep people safe, calm, and informed; help managers care for employees; and deal with employees' immediate and ongoing emotional and psychological needs while getting the organization back on its feet. The Guide to Processing Personnel Actions ReadHowYouWant.com

In modern baseball history, only one team not named the New York Yankees has ever won three consecutive World Series. That team was the Oakland Athletics, who captured major league baseball's crown each year from 1972 through 1974. Led by such superstars as future Hall of Famers Reggie Jackson, Catfish Hunter and Rollie Fingers, in the final years before free agency and the movement of players from one team to another forever changed the game, the Athletics were a largely homegrown aggregate of players who joined the organization when the team called Kansas City its home, developed as teammates in the minor leagues, and came of age together in Oakland. But it was the way in which they did it that immortalized those teams. For if the story of the Oakland Athletics' championships is that of one of baseball's greatest teams, it's also the story of enigmatic owner Charles O. Finley and how those players succeeded in spite of Finley's larger-than-life persona and meddling ways. Indeed, before the Yankees' George Steinbrenner, there was Charles Oscar Finley, of the Athletics. Featuring the contributions of 46 members of the Society for American Baseball Research (SABR), *Mustaches and Mayhem: Charlie O's Three-Time Champions* shares the stories of each of the roster players on each of the A's championship teams, in addition to the managers, coaches, Finley himself, the team's radio announcer, and even Charlie O, the mule, Finley's legendary mascot. Summaries of each

spring training and World Series, too, will complete the tale of one of baseball's most colorful and successful teams. Biographies included: Charlie Finley, Charlie O (the Mule), Sal Bando, Vida Blue, Bert Campaneris, Rollie Fingers, Dick Green, Dave Hamilton, Catfish Hunter, Reggie Jackson, Ted Kubiak, Blue Moon Odom, Joe Rudi, Gene Tenace, Jerry Adair (coach), Matty Alou, Brant Aleya, Dwain Anderson, Curt Blefary, Bob Brooks, Larry Brown, Ollie Brown, Orlando Cepeda, Ron Clark, Tim Cullen, Dave Duncan, Mike Epstein, Adrian Garrett, Larry Haney, Mike Hegan, George Hendrick, Ken Holtzman, Joe Horlen, Vern Hoscheit (coach), Mike Kilkenny, Darold Knowles, Allan Lewis, Bob Locker, Angel Mangual, Gonzalo Marques, Marty Martinez, Dal Maxvill, Denny McLain, Bill McNulty, Don Mincher, Irv Noren (coach), Bill Posedel (coach), Jim Roland, Diego Segui, Art Shamsky, Don Shaw, Bill Voss, Gary Waslewski, Dick Williams, Glenn Abbott, Jesus Alou, Mike Andrews, Pat Bourque, Rico Carty, Billy Conigliaro, Vic Davalillo, Chuck Dobson, Ray Fosse, Rob Gardner, Phil Garner, Tim Hosley, Deron Johnson, Jay Johnstone, Paul Lindblad, Rich McKinney, Jose Morales, Bill North, Horacio Pina, Wes Stock (coach), Manny Trillo, Alvin Dark, John Donaldson, Bob Hofman, Jim Holt, Leon Hooten, Bill Parsons, Gaylen Pitts, Champ Summers, Claudell Washington, Herb Washington, Bob Winkles, and Monte Moore (broadcaster).

exploration of the history and science

behind measuring time." —Foreword

Reviews It's all a matter of time—literally.

From the movements of the spheres to the slipperiness of relativity, the story of science unfolds through the fascinating history of humanity's efforts to keep time. Our modern lives are ruled by clocks and watches, smartphone apps and calendar programs. While our gadgets may be new, however, the drive to measure and master time is anything but—and in *A Brief History of Timekeeping*, Chad Orzel traces

the path from Stonehenge to your smartphone. Predating written language and marching on through human history, the desire for ever-better timekeeping has spurred technological innovation and sparked theories that radically reshaped our understanding of the universe and our place in it. Orzel, a physicist and the bestselling author of *Breakfast with Einstein* and *How to Teach Quantum Physics to Your Dog* continues his tradition of demystifying thorny scientific concepts by using the clocks and calendars central to our everyday activities as a jumping-off point to explore the science underlying the ways we keep track of our time. Ancient solstice markers (which still work perfectly 5,000 years later) depend on the basic astrophysics of our solar system; mechanical clocks owe their development to Newtonian physics; and the ultra-precise atomic timekeeping that enables GPS hinges on the predictable oddities of quantum mechanics. Along the way, Orzel visits the delicate negotiations involved in Gregorian calendar reform, the intricate and entirely unique system employed by the Maya, and how the problem of synchronizing clocks at different locations ultimately required us to abandon the idea of time as an absolute and universal quantity. Sharp and engaging, *A Brief History of Timekeeping* is a story not just about the science of sundials, sandglasses, and mechanical clocks, but also the politics of calendars and time zones, the philosophy of measurement, and the nature of space and time itself. For those interested in science, technology, or history, or anyone who's ever wondered about the instruments that divide our days into moments: the time you spend reading this book may fly, and it is certain to be well spent.

This book evaluates strategies for managing ethical conflict. Macro-approaches that attribute select values to entire peoples and claim supremacy for these values are suspect. A micro-approach, focusing on the ethics of individual thinkers, is better. The study uses the ethics of Confucius and Tetsuro Watsuji to derive a process-based universal ethic that respects local differences yet is not relativistic.

From the creator of the popular website Ask a Manager and New York's work-advice columnist comes a witty, practical guide to 200 difficult professional conversations—featuring all-new advice! There's a reason Alison Green has been called "the Dear Abby of the work world." Ten years as a workplace-advice columnist have taught her that people avoid awkward conversations in the office because they simply don't know what to say. Thankfully, Green does—and in this incredibly helpful book, she tackles the tough discussions you may need to have during your career. You'll learn what to say when • coworkers push their work on you—then take credit for it • you accidentally trash-talk someone in an email then hit "reply all" • you're being micromanaged—or not being managed at all • you catch a colleague in a lie • your boss seems unhappy with your work • your cubemate's loud speakerphone is making you homicidal • you got drunk at the holiday party Praise for Ask a Manager "A must-read for anyone who works . . . [Alison Green's] advice boils down to the idea that you should be professional (even when others are not) and that communicating in a straightforward manner with candor and kindness will get you far, no matter where you work."—Booklist (starred review) "The

author's friendly, warm, no-nonsense writing is a pleasure to read, and her advice can be widely applied to relationships in all areas of readers' lives. Ideal for anyone new to the job market or new to management, or anyone hoping to improve their work experience."—Library Journal (starred review) "I am a huge fan of Alison Green's Ask a Manager column. This book is even better. It teaches us how to deal with many of the most vexing big and little problems in our workplaces—and to do so with grace, confidence, and a sense of humor."—Robert Sutton, Stanford professor and author of *The No Asshole Rule* and *The Asshole Survival Guide* "Ask a Manager is the ultimate playbook for navigating the traditional workforce in a diplomatic but firm way."—Erin Lowry, author of *Broke Millennial: Stop Scraping By and Get Your Financial Life Together*

Time

This first comprehensive, scholarly history of timekeeping in America studies the transition from local to national timekeeping, a process that led to Standard Time—the worldwide system of timekeeping by which we all live. The book describes the contributions of the railroad industry, university astronomers, clockmakers, and civil and electrical engineers.
