Tracking the field as it is practiced by employment lawyers on both plaintiff and defense side, this book enables a one-semester treatment of the full range of employment discrimination laws as well as the core subjects of an employment law offering. It provides complete analysis of laws designed to protect individuals from employment decisions that affect them unfairly because of their race, color, sex, age, disability or other protected characteristic. Also considers the extent to which the law prevents employers from retaliating against employees for filing claims, reporting misdeeds or other activity that our society highly values or seeks to protect. Treats the common law of the employment relationship. Considers also the enactment of wage-hour, pension and other ?minimum terms? laws to establish regulatory floors for private negotiation of employment contracts. Takes up the procedural design of regulatory systems for employment relationships and questions of coordination of multiple systems, including in-depth consideration of class actions, collateral estoppel and arbitration issues.

Changes in the area of employment discrimination law, since publication of earlier editions of this book, have refined many of the substantive doctrines and continued to clarify procedural issues. A number of relevant decisions have explored the scope of protection provided by the ADA, while others have focused on the extent to which Title VII proscribes sexually harassing behavior. The new Seventh Edition of *Employment Discrimination Law: Cases and Materials* includes updated note material to include analyses and recent studies of labor market discrimination as well as cover recent judicial developments and the following main decisions issued since the Sixth Edition was published in 2006: Ricci v. DeStefano (Sup. Ct. 2009) concerning the right of an employer to postpone promotions based upon test results having a disparate impact and Lewis v. City of Chicago (Sup. Ct. 2010) dealing with the timeliness of challenges to the use of previously administered test scores which have a disparate impact on protected groups. Ledbetter v. Goodyear Tire & Rubber Co. (Sup. Ct. 2007) pertaining to the timeliness of challenges to gender-based pay differentials and the 2009 Lilly Ledbetter Fair Pay Act reversing the impact of the prior Supreme Court decision. [2010 Supplement to Cases and Materials on Employment Discrimination and Employment Law](#) West Academic Publishing

This casebook covers all major aspects of employment discrimination law, including benchmark legislative, administrative, and judicial developments. Due in part to frequent updates and revisions, it has received accolades as one of the most comprehensive and frequently updated texts on the market. The 13th Edition continues this tradition by seamlessly incorporating all major legislative and judicial developments through July 2020, including all relevant decisions rendered by the Supreme Court in its 2019-2020 term. In its most significant ruling, *Bostock v. Clayton County Georgia*, the Court brought closure and clarity to an issue that the federal courts had struggled with for decades; holding that Title VII's ban on sex-based discrimination extends to claims of discrimination on the basis of sexual orientation, transgender status, and all other forms of gender identity. It resolved another circuit conflict in *Comcast Corp. v. National Ass'n of African American-Owned Media*, by ruling that mixed motive analysis is not available in suits brought under §1981. In *Our Lady of Guadalupe School v. Morrissey-Berru*, the Court expanded upon its prior articulation of the standard to be applied in determining whether a religious entity's employee constituted a "minister" for purposes of invoking the "church-minister" exception. And in *Babb v. Wilkie*, the Court held that federal employees, unlike private sector and nonfederal public employees, could assert a mixed motive claim to establish liability under the ADEA, but were required to prove that age was the "but for" cause of the alleged discriminatory act in order to obtain affirmative relief. Finally, among the lower court decisions added in this edition is *Rizo v. Yovino*, an important Equal Pay Act opinion by the Ninth Circuit sitting en banc which examines whether the use of market forces as a basis for setting salaries is a nondiscriminatory factor other than sex.

[Employment Discrimination Law 2002](#) Aspen Publishers

Reflecting the dominate theme of workplace equality, the authors go beyond this general consensus to affirm that the fundamental purpose of laws prohibiting employment discrimination is to implement the national civil rights policy. Organized around an examination of the reach and limits of laws, the book scrutinizes the federal statutory protection against employment discrimination. Constitutional provisions and state laws are included where appropriate. In addition, this new edition extensively uses scholarship drawn from the work of critical race theorists and feminist legal scholars. It also has materials on the law and economics approach to employment discrimination.
