Human cloning raises the most profound questions about human nature, our faith in ourselves, and our ability to make decisions that could significantly alter the character of humanity. In this exciting and accessible book, Gregory Pence offers a candid and sometimes humorous look at the arguments for and against human cloning. Originating a human being by cloning, Pence boldly argues, should not strike fear in our hearts but should be examined as a reasonable reproductive option for couples. Pence considers how popular culture has influenced the way we think about cloning, and he presents a lucid and non-technical examination of the scientific research and relevant moral

issues in the cloning debate. This book is a must-read for anyone who is concerned about the impact of technology on human life and for those with interests in medical ethics, sociology, and public policy.

His Excellency Benjamin Mkapa was Tanzania's third president, elected under the first multi-party general election in Tanzania. His memoirs range from his childhood, time as president, and his continuing post-retirement involvement on the international stage of development and peace mediation. This book will appeal to readers interested in: an African's personal experiences of colonialism in East Africa; the struggle for independence by the liberation movements of several African countries; how war helped unify the diverse citizens of a young nation; fostering nationalism and addressing ethnic and religious differences; the economic and social aspects of transition to socialism and then

to a free market environment; the political transition from a single party state to multi-partyism; and relations with international organisations and development partners. During the ten years of his presidency he undertook substantial reforms, such as the privatisation of national assets, securing international debt relief and restructuring the public service. His Excellency writes of his childhood, his political maturation, the evolution of the State and politics in Tanzania, as well as some political upheavals in neighbouring countries. These memoirs are enriched by his views on leadership and advice for aspiring leaders. After Julius Nyerere, few books have been written by senior Tanzanian leaders on the evolution of Tanzania; in fact more literature has been produced by foreigners than Tanzanians, thus H.E. Mkapa's memoirs are a milestone. This book will appeal to aspiring leaders; students of development, international politics and diplomacy; those working for development partners; historians and those who want to know more about their Tanzanian heritage.

 "MAISHA YANGU: KHAINI AU MUHANGA WA MAPINDUZI YA ZANZIBAR?" ni kitabu kinachoeleza historia ya Zanzibar ya hivi karibuni na vipi Muungano baina ya Zanzibar na Tanganyika ulivyoanzishwa hadi kuwepo taifa jipya la TANZANIA. Khamis Abdulla Ameir amejaribu kwa kadri ya uwezo wake kuweka sawa historia ya Muungano wa Tanzania katika njia iliokuwa sahihi kabisa, ili Watanzania wa leo na wa vizazi vijavyo, waweze kuelewa chanzo na malengo halisi ya Muungano huu. Kitabu hiki kinasimulia historia mpya ya kileo kuhusu vipi vyama vya siasa vilivyoanzishwa Zanzibar tokea mwanzoni mwa miaka ya 1950 na vipi vyama hivyo na vyama vya wafanyakazi vilivyodai uhuru wa Zanzibar kutoka kwa Balozi Mkaazi wa Uingereza na sio kutoka kwa Mfalme Mwarabu ambaye alikuwa hana sauti mbele ya Balozi wa Uingereza. Zanzibar ilipata uhuru wake tarehe 10 Disemba, 1963 na serikali ya mseto ya ZNP/ZPPP ikakabidhiwa madaraka baada ya kushinda katika uchaguzi. Mwandishi anaeleza vipi Mapinduzi ya Zanzibar yalivyotekwa nyara na Mabeberu wa Uingereza na Marekani kwa kushirikiana na Viongozi wakuu wa Kenya, Uganda na Tanganyika ili Zanzibar isiweze kutekeleza siasa ya Kisoshalisti, ambayo nchi hiyo ilishaanza kutekeleza kivitendo. Frank Carlucci, jasusi maarufu wa CIA, alipelekwa Zanzibar na serikali yake kwa kazi moja tu, nayo ni kuizuia Zanzibar isijekuwa CUBA YA AFRIKA na

kuziambukiza siasa ya Usoshalisti nchi jirani za Afrika Mashariki na Afrika kwa jumla. Kitabu kilichapishwa na DL2A Buluu Publishing, jijini Paris, Ufaransa.

 .Kate must break one. Kate Hopper can list a million reasons why she doesn't have kids. TV moms always make it look so easy, but Kate knows better. When Kate's sister refuses a lupus treatment, Kate is willing to say anything to save her sister's life-even promising to have a baby. Kate decides to keep her rash words a secret from her husband until she can figure out whether she really wants to be a mother. Especially since they agreed their marriage would remain childless. Over the last two years, Worldwatch's Nourishing the Planet team has travelled to 25 sub-Saharan African nations - the places where hunger is greatest - and uncovered a treasure trove of innovations from farmers groups, private voluntary organizations, universities, and even agribusiness companies. These innovations offer global benefits - from the continent's role in preventing disastrous climate change to the way urban farmers are feeding people in cities and why even determined locavores are sustained by the

crop diversity preserved by farmers thousands of miles away. This book assesses the state of agricultural innovations from cropping methods to irrigation technology to agricultural policy with an emphasis on sustainability, diversity, and ecosystem health in the hope of guiding governments, foundations, and concerned citizens in their efforts to eradicate hunger and poverty. Published annually in 28 languages, State of the World is long established as the most authoritative and accessible annual guide to our progress towards a sustainable future. It is relied upon by national governments, UN agencies, development

workers and law-makers for its up-to-the-minute analysis and information.
