 Information in this resource is appropriate to be used with each Environment Rating Scale, including the SACERS-U. Language for learning: Schoolagers (video) This document provides a summary of the lowest scoring items and indicators for the FCCERS-R, as used for the assessment portion of the NC Star Rated License.
 North Carolina Rated License Assessment Project
 Market segmentation is a process of dividing a heterogeneous market into relatively more homogenous segments based on certain parameters like geographic, demographic, psychographic, and behavioural. It is the activity of dividing a broad consumer or business market, normally consisting of existing and potential customers, into sub-groups of consumers (known as segments) based on some type of ...
 Market segmentation - Wikipedia
 There are four Environment Rating Scales (ERS), each designed for a different segment of the early childhood field. Each one of the scales has items to evaluate: Physical Environment; Basic Care; Curriculum; Interaction; Schedule and Program Structure; and Provisions for Parent and Staff. The scales are suitable for use in evaluating inclusive and culturally diverse

programs.
 Introduction to the Environment Rating Scales - ERS Institute
 Millions of children worldwide live in nonfamilial institutions. We studied impact on adult brain structure of a particularly severe but time-limited form of institutional deprivation in early life experienced by children who were subsequently adopted into nurturing families. Institutional deprivation was associated with lower total brain volume in a dose-dependent way.
 Early childhood deprivation is associated with alterations ...
