The Governance Core José M. Herrou Aragón
 Working together for excellence for all children As our society faces daunting and evolving challenges, education might well be the social institution that offers the most hope and opportunity for change. Overloaded with multiple, diverse issues, however, where do educational leaders even begin? Davis Campbell and Michael Fullan believe efficacy must be achieved with a systems focus. The Governance Core provides strategies and tools for board members, superintendents and school leaders to unify and face the complex challenges of school governance together. Practical and authentic, the Governance Core is based upon: A governance mindset A shared moral imperative A unified, cohesive governance system A commitment to system-wide coherence A focus on continuous improvement in the district Essential for local education governance – school boards in collaboration with district and school leadership – this guide will help you operate at the highest levels of effectiveness.

In the twenty-first century, religion has come under determined attack from secular progressives in documentaries, opinion pieces and international bestsellers. Combative atheists have denounced faiths of every stripe, resulting in a crude intellectual polarization in which religious convictions and heritage must be rejected or accepted wholesale. In the long unavailable *Atheism in Christianity*, Ernst Bloch provides a way out from this either/or debate. He examines the origins of Christianity in an attempt to find its social roots, pursuing a detailed study of the Bible and its fascination for 'ordinary and unimportant' people. In the biblical promise of utopia and the scriptures' antagonism to authority, Bloch locates Christianity's appeal to the oppressed. Through a lyrical yet close and nuanced analysis, he explores the tensions within the Bible that promote atheism as a counter to the authoritarian metaphysical theism imposed by clerical exegesis. At the Bible's heart he finds a heretical core and the concealed message that, paradoxically, a good Christian must necessarily be a good atheist. This new edition includes an introduction by Peter Thompson, the Director of the

Centre for Ernst Bloch Studies at the University of Sheffield.

Gnosis means knowledge. But we are not referring to just any knowledge. Gnosis is knowledge which produces a great transformation in those who receive it. Knowledge capable of nothing less than waking up man and helping him to escape from the prison in which he finds himself. That is why Gnosis has been so persecuted throughout the course of history, because it is knowledge considered dangerous for the religious and political authorities who govern mankind from the shadows. Every time this religion, absolutely different from the rest, appears before man, the other religions unite to try to destroy or hide it again. Primordial Gnosis is the original Gnosis, true Gnosis, eternal Gnosis, Gnostic knowledge in its pure form. Due to multiple persecutions, Primordial Gnosis has been fragmented, distorted and hidden.

The *Treatise on Paint* by Gianni Maimeri (1884-1951) is an unpublished manuscript in the author's own hand by one of the most unusual Italian artists of the early twentieth century. Founder of one of the country's most successful manufacturers of paints for the fine arts, still in operation and well-known the world over, the author managed to continue a very active career as a painter

without interruption while running a business and accumulating a degree of technical know-how that was uncommon in his day. The Treatise on Paint, which Gianni Maineri wrote as a mature man, occupies a unique position in the context of early twentieth century trends in technical and artistic publications in Italy and Europe. Difficulties linked with World War II and problems in the business, followed by the author's death, made it impossible to publish the manuscript until its recent rediscovery. This edition of the text, edited by Sandro Baroni, preserves the author's changes to illustrate his thought processes as he wrote the text, and is accompanied by a number of useful tools: a technical glossary by Luigi Brusati and a bibliography by Paola Travaglio on the orientation of Italian publications in the sector. The appendix includes biographical notes on the author by Carlo Migliavacca and notes on his artistic career and exhibitions of his works by Paola Travaglio and Maite Rossi. Gianni Maineri, born in 1884 in Varano (Varese), trained in Milano and Venezia. He held his first exhibition in 1918, followed by many others solo and group exhibitions. Painter and businessman he founded a firm that is still a worldwide leader in producing pigments for artists from all over the world. Maineri died in 1951 in Milan. AUTHOR: Sandro Baroni is a restorer and expert in the history of artistic techniques. He taught in Fine Arts Academies at the University of Bologna and now holds seminars at the Politecnico of Milano. Baroni is the author of numerous publications on literary sources of information on Medieval and Renaissance artistic techniques. ILLUSTRATIONS 16 colour illustrations *

Color Me a Season Rm

From Egyptian wall paintings to the Venetian Renaissance, impressionism to digital images, Philip Ball tells the fascinating story of how art, chemistry, and technology have interacted throughout the ages to render the gorgeous hues we admire on our walls and in our museums. Finalist for the 2002 National Book Critics Circle Award.

The Races of Europe Corwin Press

Mujer con estilo no es un libro más de imagen personal. Es un verdadero viaje de transformación, que nos da las herramientas para que nos decidamos a mostrarle al mundo quiénes somos y a sentirnos orgullosas de nosotras mismas. ¿Quiénes están invitadas? Mujeres de todas las edades, tallas y estilos. Porque como explica David Navarro, no es cuestión de tener el cuerpo perfecto, o el peso ideal. O de intentar transformarnos en otras personas a través de la ropa o el maquillaje. El secreto de la imagen personal está en aprender a conocerte por dentro (en tu autoestima y la seguridad de ser tú misma) y conocerte por fuera (identificando la forma de tu cuerpo y cara), para descubrir un estilo propio. Y así acercarte a ser tu mejor versión todos los días, no solo para acudir a un evento o un día especial. Descubrirás los grandiosos consejos de imagen que nos comparte el autor, con un estilo cálido y divertido. Todos ellos podrás aplicarlos de inmediato para pasar del "No me gusta" al "¡Me encanta cómo soy!".

"You'll finish [Greenfield's] book with new respect for color, especially for red. With *A Perfect Red*, she does for it what Mark Kurlansky in *Salt* did for that common commodity."—Houston Chronicle Interweaving mystery, empire, and adventure, Amy Butler Greenfield's masterful popular history offers a window onto a world far different from our own: a world in which the color red was rare and precious—a source of wealth and power for those who could unlock its secrets. And in this world nothing was more prized than cochineal, a red dye that produced the brightest, strongest red the Old World had ever seen. *A Perfect Red* recounts the story of this legendary red dye, from its cultivation by the ancient Mexicans and discovery by 16th-century Spanish conquistadors to the European pirates, explorers, alchemists, scientists, and spies who joined in the chase to unlock its

secrets, a chase that lasted more than three centuries. It evokes with style and verve this history of a grand obsession, of intrigue, empire, and adventure in pursuit of the most desirable color on earth.

What started as a break from Australian artist Tess Guinery's rapidly growing design business turned into an instinctive, playful experiment with words, colors, and sounds—and eventually into a tangible book, *The Apricot Memoirs*. This collection of poetry and prose, thoughtfully illustrated and printed on colored paper, is infused with grace and playfulness. It explores love, personal growth, creativity, spirituality, vulnerability, and motherhood in the art medium of words, all the while creating a rich portrait of a deeply empathetic, talented, and whimsical artist. Esoteric, mysterious, and unfailingly beautiful, *The Apricot Memoirs* is an invitation to dig deep, embrace the uncomfortable, and free your creativity, unbound.

Black CRC Press

The story of the color black in art, fashion, and culture—from the beginning of history to the twenty-first century Black—favorite color of priests and penitents, artists and ascetics, fashion designers and fascists—has always stood for powerfully opposed ideas: authority and humility, sin and holiness, rebellion and conformity, wealth and poverty, good and bad. In this beautiful and richly illustrated book, the acclaimed author of *Blue* now tells the fascinating social history of the color black in Europe. In the beginning was black, Michel Pastoureau tells us. The archetypal color of darkness and death, black was associated in the early Christian period with hell and the devil but also with monastic virtue. In the medieval era, black became the habit of courtiers and a hallmark of royal luxury. Black took on new meanings for early modern Europeans as they began to print words and images in black and white, and to absorb Isaac Newton's announcement that black was no color after all. During the romantic period, black was melancholy's friend, while in the twentieth century black (and white) came to dominate art, print, photography, and film, and was finally restored to the status of a true color. For Pastoureau, the history of any color must be a social history first because it is societies that give colors everything from their changing names to their changing meanings—and black is exemplary in this regard. In dyes, fabrics, and clothing, and in painting and other art works, black has always been a forceful—and ambivalent—shaper of social, symbolic, and ideological meaning in European societies. With its striking design and compelling text, *Black* will delight anyone who is interested in the history of fashion, art, media, or design.

"Kings of Tort chronicles a tale of judicial bribery and political intrigue in Mississippi It features the story of Dickie Scruggs, who was largely credited with bringing down Big Tobacco in the early 1990s. From his ascent to a net worth of nearly a billion dollars to his downfall stemming from his role in improperly influencing two local judges to influence cases involving fee disputes with other lawyers, the book documents how those in Scruggs's own trusted circle of tort barons turned on him and cooperated with federal authorities. It also shows the political influence he wielded with judges, attorneys general, and even his own brother-in-law, former US Senator Trent Lott" --*Dyes* Allemandi

The I, Claudius author's "lightning sharp interpretations and insights . . . are here brought to bear with equal effectiveness on the Book of Genesis" (Kirkus Reviews). This is a comprehensive look at the stories that make up the Old Testament and the Jewish religion, including the folk tales,

apocryphal texts, midrashes, and other little-known documents that the Old Testament and the Torah do not include. In this exhaustive study, Robert Graves provides a fascinating account of pre-Biblical texts that have been censored, suppressed, and hidden for centuries, and which now emerge to give us a clearer view of Hebrew myth and religion than ever. Venerable classicist and historian Robert Graves recounts the ancient Hebrew stories, both obscure and familiar, with a rich sense of storytelling, culture, and spirituality. This book is sure to be riveting to students of Jewish or Judeo-Christian history, culture, and religion.

Treatise on Paint Cambridge University Press

Reviews and use of the first edition as the textbook for a senior-division university course indicated the need for a number of corrections and clarifications. Although no new topics have been introduced, the new edition should be more clear and useful. A novelty in the Notes and Sources Appendix should facilitate reference from the notes back to the text. For that purpose, the page number of the text to which each note refers is indicated in square brackets following the serial number of the note. The FMC1 color-difference formula has been substituted everywhere for the Friele-MacAdam formula, including the reference to the sources in Note 52. The FMC1 formula was actually used in the investigations reviewed in Sects. 8.3 and 8.4. The Friele-MacAdam formula given on page 151 of the first edition, which I thought was equivalent to the FMC1, was erroneous and should not be used. The formulas for the geodesic chromaticity diagram, on p. 153 of the first edition, were based on observations by 14 normal observers (last reference in Note 51). They have been replaced by the formulas based on the observations of PON, for consistency with all other formulas and discussions in the book. Figure 8.29 in the first edition was based on the PON data and on the formulas printed below it in the new edition. Therefore, Fig. 8.29 is unchanged.
