This book
deals with the

rebellion that occurred in Aceh, a province in the northern tip of the Indonesian island of Sumatra, in 1953-62. It traces the political stance of the Acehnese, a people who are well known for their centuries-old independence and heroism, in relation to their Central Government in Jakarta. Although the main theme of this book is about rebellion, it implicitly reveals the

political life and behaviour of the Acehnese.

 This book is one of the many Islamic publications distributed by Talee throughout the world in different languages with the aim of conveying the message of Islam to the people of the world. Talee (www.talee.org) is a registered Organization that operates and is sustained through collaborative

efforts of volunteers in many countries around the world, and it welcomes your involvement and support. Its objectives are numerous, yet its main goal is to spread the truth about the Islamic faith in general and the Shia School of Thought in particular due to the latter being misrepresented, misunderstood and its tenets often assaulted by many ignorant

folks, Muslims and non-Muslims. Organization's purpose is to facilitate the dissemination of knowledge through a global medium, the Internet, to locations where such resources are not commonly or easily accessible or are resented, resisted and fought! In addition, Talee aims at encouraging scholarship, research and enquiry through the use of technological facilitates. For a complete list

He passed his childhood days searching for fallen durian fruit in the jungle, playing soccer on rice paddies, and swimming in the blue waters of Lake Maninjau. His mother wants him to attend an Islamic

boarding school, a pesantren, while he dreams of public high school. Halfheartedly, he follows his mother's wishes. He finds himself on a grueling three-day bus ride from Sumatra to Madani Pesantren (MP) in a remote village on Java. On his first day at MP, Alif is captivated by the powerful phrase *man jadda wajada*. He who gives his all will surely succeed. United by

punishment, he quickly becomes friends with five boys from across the archipelago, and together they become known as the Fellowship of the Manara. Beneath the mosque's minaret, the boys gaze at the clouds on the horizon, seeing in them their individual dreams of far-away lands, like America and Europe. Where would these dreams take them? They didn't know. What they did know was: never

underestimate dreams, no matter how high they may be. God truly is The Listener. The Land of Five Towers is the first book in a trilogy written by A. Fuadi—a former TEMPO & VOA reporter, photography buff, and a social entrepreneur. He went to George Washington University and Royal Holloway, University of London for his masters. A portion of the royalties from the trilogy are intended to

comprehensive account of political Islam in the contemporary world. Providing a broad introduction to all major aspects of the interface of Islam and politics it combines an accessible style with sufficient depth for the academic classroom. Drawing on insights from comparative politics and Islamic studies, this book explains the complex interaction between Islam, society, the state, and processes of globalization. Preserving the previous editions' strong focus on key concepts from Islamic history as they relate to contemporary political Islam, this new edition includes coverage of important developments and updated country overviews from the Middle East, Central and South Asia, Southeast Asia, Europe and North America. Features include: Two new case studies on Southeast Asia and Europe. Exploration of the origins and development of ISIS, Al-Qaeda and various regional affiliates of the global Salafi-Jihadi movement. Coverage of contemporary debates about radicalization and violent extremism. Examination of questions of Islam's compatibility with democracy; the role of women; and

Islamic perspectives on violence and conflict. Discussion of major theoretical debates in the literature on political Islam, the debate on Islamic exceptionalism and whether Islamist politics can be understood using the conventional tools of comparative political science and International Relations. These updates ensure the book remains the single best introduction to the topic of

political Islam for students and scholars, foreign policy professionals and the general reader. *Blogosphere* Institute of Southeast Asian Studies Religious broadcasting in the Middle East has benefited tremendously from new transnational media networks and the widespread availability of satellite broadcasting technology. Dozens of Muslim, Christian, and Jewish

religious channels are now on air, advocating different forms of religiosity and shaping public perceptions through dialogue and debate. Mainstream news channels, such as Al-Jazeera and Al-Arabiya, broadcast popular religious programming, in some cases filled with highly politicized content. Others feature more apolitical commentary and are

concerned only with preaching God's word. The Middle East's highly-charged religious and political ferment has certainly been propitious for such broadcasters as they seek to convey their message. This has, in turn, reinforced the link between the dominant "religious atmosphere" and religious broadcasting. Monitoring the content-analysis of some of the region's most influential

religious channels and programs, the contributors to this volume provide pioneering insights into the Middle East's burgeoning religious media market. They explore the themes, discourses, appearances, and "celebrities" of this rapidly expanding phenomenon and how its complex dynamics have transformed the region and the world. This book analyzes Islam as a form of 'travelling theory' in the context of contemporary global transformations such as diasporic communities, transnational social movements, global cities and information technologies. Peter Mandaville examines how 'globalization' is manifested as lived experience through a discussion of debates over the meaning of Muslim

identity, political community and the emergence of a 'critical Islam'. This radical book argues that translocal forces are leading the emergence of a wider Muslim public sphere. Now available in paperback, it contains a new preface setting the debates in the context of September 11th.

Even before 9/11, radical

Islamic fundamentalist groups were using the Internet to reinforce their identities and ideologies, expand their networks, and disseminate information about their activities and their worldviews. Using two case studies from Indonesia-one examining the radical Islamic group Laskar Jihad, and the other looking at the anti-Americanism of post-9/11 Islamic radicalism in the country-this study

details how such groups have used the Internet to define themselves, refine and disseminate their messages, and reach new audiences. It also shows how these groups can use the Internet to connect local grievances and narratives of marginalization and oppression with global meta-narratives of conspiracy against Islam to create a wide base of support.

However, the two cases also show that these conspiracy meta-narratives-even when spread through the Internet, and even when repeated by traditional media outlets-were not enough to persuade a wide number of Indonesians to mobilize for an actual jihad in the form of a physical war on the conflict-ridden Maluku Islands or elsewhere. Comparative Education, Terrorism and Human

Security SAGE This concise book explores the wide range of topics at the intersection of politics and the Internet. Recognizing the changes in the Internet over time, Klotz provides an innovative analysis of online access, activities, advocacy, government, journalism, and social capital. The politics of the Internet is considered along with politics on the Internet. A highlight is the in-depth discussion of

cyberlaw that provides an accessible framework for understanding the legal treatment of key issues such as music file-sharing, privacy, terrorism, spam, pornography, and domain names. Examples from the 2002 midterm elections and the early 2004 campaign fundraising success of Howard Dean add currency to the debate about the impact of the Internet on democratic politics. The

author conveys the vitality and humor of Internet politics in a way that readers will enjoy. From impassioned debate about imaginary legislation to the animal rights group PETA's lawsuit taking peta.org from 'People Eating Tasty Animals,' Klotz brings the colorful history of the Internet to life. Written from an interdisciplinary perspective, the book is infused with original longitudinal

data, examples, online resources and landmark events that reveal how the Internet is enriching both public and private life.

Vol 1 Kazi Publications Examining the web logs, or blogs, of individuals from a variety of continents and cultures, this book highlights the nature of 'blogosphere,' the virtual public arena of the early

21st century, which alters the traditional world of media and politics. It characterizes this new arena by the unique combination of a fresh voice of emancipation and a deep sense of melancholy and isolationism. This journey through blogosphere highlights major forces operating in today's politics: apathy toward political affairs, resistance to globalization, a quest for

redemption through religious fundamentalism and terrorism. Michael Keren compares bloggers to terrorists, arguing that while the methods advocated by the two groups are obviously very different, they both represent a similar trend, one of diversion by respected but disenchanting citizens from the norms of civil society to a fantasy world in which the excessive use of words_or

The series Religion and Society (RS) contributes to the exploration of religions as social systems- both in Western and non-Western societies; in particular, it examines religions in their differentiation from, and intersection with, other cultural systems, such

as art, economy, law and politics. Due attention is given to paradigmatic case or comparative studies that exhibit a clear theoretical orientation with the empirical and historical data of religion and such aspects of religion as ritual, the religious imagination, constructions of tradition, iconography, or media. In addition, the formation of religious communities, their construction of identity,

and their relation to society and the wider public are key issues of this series.

Policy decisions in education have changed drastically as a result of the recent threats to our international and national security. In this timely and compelling collection, authors discuss the significance of

policy decisions on education systems, and argue that all forms of violence, including terrorism, are often reproduced through education. Authors incorporate case studies from a broad spectrum of countries to make a case for peace-building alternatives and non-military security cooperation. Comparative Education, Terrorism and Human Security will

highlight education systems around the globe that sustain violence, will bring together human security and preventive diplomacy research to predict future trends, will explore foreign policy implications that could lead to non-violent interventions abroad, and will provide teachers and policymakers with relevant reflections on reform. This book arrives at a time when many of

us are wondering what education systems can do to eliminate/perpetuate violence and will be the only one of its kind to address these questions on a global scale. *The Journeys of a Taymiyyan Sufi* Routledge This book is an accessible and comprehensive account of political Islam in the twenty-first century. Drawing on insights from comparative politics and Islamic

studies, it explains the complex interaction between Islam, society, the state, and processes of globalization. The book demonstrates that political Islam, far from being a monolithic phenomenon, varies considerably from country to country depending on its position in relation to society, the state, and the broader political environment. The book provides a portrait of Islam and

politics through a combination of detailed case studies and country overviews that span the globe from the Middle East to Central and South Asia, Southeast Asia and Europe and North America—as well as a detailed account of the global jihadist movement. Engaging the debate on "post-Islamism" and the aftermath of Arab Uprisings, the book also provides a roadmap of

possible futures for Islam and politics. Subjects covered include: • history of Islam and politics and an overview of key concepts • how political Islam interacts with the nation-state and the global economy • a wide variety of global case studies • profiles of key movements

and individuals Fully illustrated throughout, featuring maps, a glossary and suggestions for further reading, this is the ideal introduction to the crucial role of political Islam in the contemporary world. **Islam and Politics** Palgrave Macmillan Dolan has
