When the Facts Change Knopf

A revised and updated edition of the most comprehensive survey published of Mapplethorpe's photography Robert Mapplethorpe was one of the twentieth century's most important and influential artists, known for his groundbreaking and provocative work. He studied painting,

drawing, and sculpture in Brooklyn in the 1960s and started taking photographs when he acquired a Polaroid camera in 1970. This comprehensive monograph is an overview of the artist's black-and-white photography of floral still lifes, nudes, selfportraits, and portraits, among other subjects-and also includes a selection of his color images.

Bibliotheca Smithiana Phaidon Press

A lavishly illustrated volume, arranged by color in a rainbow of beauty, presents short, inspiring essays that explore the

qualities, meaning and symbolism of each color, giving readers a new way to look at color in the world around them.

Sur les lieux du tournage avec Inarritu : la réalisation de Babel. Le cinéaste mexicain Alejandro González Inarritu et les grands photographes qui l'accompagnent, Mary Ellen Mark, Patrick Bard, Graciela Iturbide et Miguel Rio Branco, mettent en commun leurs visions infiniment sensibles de la diversité culturelle dans un livre qui associe images passionnantes et commentaires de première main du réalisateur sur l'expérience unique du tournage de Babel. Prix de la meilleure mise en scène au 59e Festival de Cannes 2006, Babel est le troisième volet de la trilogie du metteur en scène, dont les premiers sont Amours chiennes et 21 Grammes. Le présent ouvrage est un recueil visuel des histoires parallèles et des personnages de la vie réelle qui ont jalonné le tournage du film. Tourné au Maroc, au Mexique et au Japon, Babel a bénéficié d'une distribution incluant notamment Brad Pitt, Cate Blanchett, Gael Garcia Bernal et Koji Yakusho, ainsi que des acteurs non professionnels de ces trois pays. Préfacé par l'écrivain Eliseo Alberta et accompagné d'une interview

d'Inarritu par le cinéaste Rodrigo Garcia, le résultat est un livre attachant qui vient compléter le puissant message de Babel sur les barrières culturelles et émotionnelles que tout être humain construit en lui-même, tout en révélant la fascinante réalité des hommes et des lieux qui ont inspiré le film.

French painter Yves Klein (1928-1962) stands as one of the most exciting artists of the 20th century. A founding member of the New Realism movement, he was also a

pioneer in performance art and installations, and a forerunner of body art, land art, and conceptual art. During his meteoric eight-year career, Klein expressed his vision through a wide range of media, including pure color (notably a deep, bright blue now known as Yves Klein Blue), architecture, sculpture, literature, and music. This book looks afresh at Klein's works, and especially those that involve fire. Klein used fire to represent the mysterious and intangible elements of the world: He believed that an artist's transfiguration of reality could change a viewer's personal values, and his aim was to usher in an age of happy and fulfilled humankind. Here, images of his spectacular mur de feu or "wall of fire," along with his monochromes, monogolds, drawings, letters, and articles, as well as pictures of Klein producing his works, are testament to the artist's belief in the spiritual power of art. This magnificent volume includes a fascinating DVD of archival footage of Klein creating art with fire. The 12-minute DVD shows Klein creating the Mur de feu (Wall of Fire) and the Fontaine de feu (Fountain of Fire) for an exhibition in Germany in 1961, filmed

by Yvan Butler, and the Peintures de feu (Fire Paintings) in France in 1962, filmed by Albert Weill. Newly composed music by Daniel Humair accompanies the films.

“In an era of growing anti-intellectualism, [Judt's] essays remind us of what we gain when we stick fast to high ethical and intellectual standards, and what is lost when we let them slip.” —Mark Mazower, Financial Times “Scintillating journalism . . . This collection is a reminder of Judt’s clear mind and prose and, as Homans says in her lovely introduction, his fidelity to hard facts and to honest appraisal of the modern scene.” —Samuel Moyn, The New York Times Book Review In an age in which the lack of independent public intellectuals has often been sorely lamented, the historian Tony Judt played a rare and valuable role, bringing together history and current events, Europe and America, what was and what is with what should be. In *When the Facts Change*, Tony Judt’s widow and fellow historian

Jennifer Homans has assembled an essential collection of the most important and influential pieces written in the last fifteen years of Judt’s life, the years in which he found his voice in the public sphere. Included are seminal essays on the full range of Judt’s concerns, including Europe as an idea and in reality, before 1989 and thereafter; Israel, the Holocaust and the Jews; American hyperpower and the world after 9/11; and issues of social inclusion and social justice in an age of increasing inequality. Judt was at once most at home and in a state of what he called internal exile from his native England, from Europe, and from America, and he finally settled in New York—between them all. He was a historian of the twentieth century acutely aware of the dangers of ethnic exceptionalism, and if he was shaped by anything, it was the Jewish past and his own secularism. His essays on Israel ignited a firestorm debate for their forthright criticisms of Israeli government policies relating to the Palestinians and the occupied territories. Those crucial pieces are published here in book form for the first time, including an essay, never

previously published, called “What Is to Be Done?” These pieces are suffused with a deep compassion for the Israeli dilemma, a compassion that instilled in Judt a sense of responsibility to speak out and try to find a better path, away from what he saw as a road to ruin. *When the Facts Change* also contains Judt’s homages to the culture heroes who were some of his greatest inspirations: Amos Elon, François Furet, Leszek Kolakowski, and perhaps above all Albert Camus, who never accepted the complacent view that the problem of evil couldn't lie within us as well as outside us. Included here too is a magnificent two-part essay on the social and political importance of railway travel to our modern conception of a good society; as well as the urgent text of “What Is Living and What Is Dead in Social Democracy,” the final public speech of his life, delivered from a wheelchair after he had been stricken with a terrible illness; and a tender and wise dialogue with his then-teenage son, Daniel, about the different outlooks and burdens of their two generations. To read *When the Facts Change* is to miss Tony Judt’s voice terribly, but to cherish it for what it was,

and still is: a wise, human, deeply informed view on our most pressing concerns, delivered in good faith. *1920 Diary* National Geographic Books S,M,L,XL presents a selection of the remarkable visionary design work produced by the Dutch firm Office for Metropolitan Architecture (O.M.A.) and its acclaimed founder, Rem Koolhaas, in its first twenty years, along with a variety of insightful, often poetic writings. The inventive collaboration between Koolhaas and designer Bruce Mau is a graphic overture that weaves together architectural projects, photos and sketches, diary excerpts, personal travelogues, fairy tales, and fables, as well as critical essays on contemporary architecture and society. The book's title is also its framework: projects and essays are arranged according to scale. While Small and Medium address issues ranging from the domestic to the public, Large focuses on what Koolhaas calls "the architecture of Bigness." Extra-Large features projects at the urban scale, along with the important essay "What Ever Happened to Urbanism?" and other studies of the contemporary city. Running

throughout the book is a "dictionary" of an adventurous new Koolhaasian language -- definitions, commentaries, and quotes from hundreds of literary, cultural, artistic, and architectural sources.

The Elgin Marbles Basic Books

We are living in an open sea, caught up in a continuous wave, with no fixed point and no instrument to measure distance and the direction of travel. Nothing appears to be in its place any more, and a great deal appears to have no place at all. The principles that have given substance to the democratic ethos, the system of rules that has guided the relationships of authority and the ways in which they are legitimized, the shared values and their hierarchy, our behaviour and our life styles, must be radically revised because they no longer seem suited to our experience and understanding of a world in flux, a world that has become both increasingly interconnected and prone to severe and persistent crises. We are living in the interregnum between what is no longer and what is not yet. None of the political movements that helped undermine the old world are ready to inherit it, and there is no new ideology, no

consistent vision, promising to give shape to new institutions for the new world. It is like the Babylon referred to by Borges, the country of randomness and uncertainty in which 'no decision is final; all branch into others'. Out of the world that had promised us modernity, what Jean Paul Sartre had summarized with sublime formula 'le choix que je suis' ('the choice that I am'), we inhabit that flattened, mobile and dematerialized space, where as never before the principle of the heterogenesis of purposes is sovereign. This is Babel.

Delle prose e poesie liriche di Dante Alighieri prima edizione, illustrata con note di diversi. [Edited by A. Torri. With Italian translations of the Latin works.] vol. 1, 3-5 Manilla Press

The church of San Carlo alle Quattro Fontane, also called San Carlino, is an architectural artefact that continues to attract numerous hypotheses and geometric analyses attempting to explain

its form and meaning. Numerous investigations have attempted to reveal its underlying geometrical principles, without, however, reaching a consensus. Finding San Carlino presents an edited collection of perspectives on Borromini's famous Baroque church from a range of established and emerging scholars in architectural history and theory, including Werner Oechslin, Karsten Harries, Michael Hill and Lauren Jacobi amongst others. This book offers the reader different means of engaging with, enjoying and articulating San Carlino's complexity, non-consensus and ambiguity. It is precisely such a unique disposition that motivates this book to explore multiple modes of architectural enquiry and delve into a series of theoretical and historiographical questions such as: why was Borromini not able to post-rationalize his architecture with his drawings? What is San Carlino's exemplary value, and why does it continually engender exegetical and hermeneutic desire? What is the role of geometry in architecture, in history and today? Written for researchers, scholars and postgraduate students in architectural history and theory, the book uses San

Carlino as an enigmatic centering point for a set of significant contemporary voices to explore new modes of confrontation and comparison.

After fifty years and fifteen editions and reprints in Italy, this classic, groundbreaking work in the field of historical urban studies is now published in English. A masterful, fluent narrative leads the reader through the last two centuries in the history of the Eternal City, capital of the Papal State, then of the united Italy, first under the monarchy and subsequently the republic. Rome's chaotic growth and often ineffective urban planning, almost invariably overpowered by building speculation, can find an opportunity for future redemption in a vibrant multicultural society and the enhancement of an unequalled archaeological heritage with the ancient Appian Way as its spine. With respect to the last Italian edition of 2011, the volume is updated, enriched in text, indexes, maps and photographs. Historians, urban planners, architects, decision makers,

university students, and anyone who is interested in one of the world's most intriguing cities will enjoy this book.

From New York Times bestselling author Lauren Oliver comes a captivating, thrilling novel of fear, friendship, courage, and hope that will leave readers gasping for air. Now a television series on Prime Video, starring Olivia Welch, Mike Faist, Jessica Sula, Enrique Murciano, Camron Jones, and Ray Nicholson! E. Lockhart, author of *We Were Liars*, calls *Panic* "a thrill a minute." Kirkus says: "Will have readers up until the wee hours," *School Library Journal* raves: "Fast-paced and captivating." *Panic* began as so many things do in Carp, a poor town of twelve thousand people in the middle of nowhere: because it was summer, and there was nothing else to do. Heather never thought she would compete in *panic*, a legendary game played by graduating seniors. She'd never thought of herself as fearless, the

kind of person who would fight to stand out. But when she finds something, and someone, to fight for, she will discover that she is braver than she ever thought. Dodge has never been afraid of panic. His secret will fuel him, and get him all the way through the game; he's sure of it. But what he doesn't know is that he's not the only one with a secret. Everyone has something to play for. For Heather and Dodge, the game will bring new alliances, unexpected revelations, and the possibility of first love for each of them—and the knowledge that sometimes the very things we fear are those we need the most. Read the book that inspired the series, which the New York Times described as “Reminiscent of ‘The Hunger Games’ but grounded in the real world.”

The Elgin Marbles, designed and executed by Phidias to adorn the Parthenon, are some of the most beautiful sculptures of ancient Greece. In 1801 Lord Elgin, then British ambassador to the Turkish government in Athens, had pieces of the frieze sawn off and removed to Britain, where they remain, igniting a storm of controversy which has continued to the present day. In the first full-length work on this fiercely debated issue, Christopher Hitchens recounts the history of these precious sculptures and forcefully makes the case for their return to Greece.

Drawing out the artistic, moral, legal and political perspectives of the argument, Hitchens's eloquent prose makes The Elgin Marbles an invaluable contribution to one of the most important cultural controversies of our times.

In 1848, a violent storm of revolutions ripped through Europe. The torrent all but swept away the conservative order that had kept peace on the continent since Napoleon's defeat at Waterloo in 1815—but which in many countries had also suppressed dreams of national freedom. Political events so dramatic had not been seen in Europe since the French Revolution, and they would not be witnessed again until 1989, with the revolutions in Eastern and Central Europe. In 1848, historian Mike Rapport examines the roots of the ferment and then, with breathtaking pace, chronicles the explosive spread of violence across Europe. A vivid narrative of a complex chain of interconnected revolutions, 1848 tells the exhilarating story of Europe's violent “Spring of Nations” and traces its reverberations to the present day.

The 1920 Diary is the most significant contemporary account of the tragedy of Eastern European Jewry during this period. The Diary also yields important insights into Babel's personal evolution, showing his youthful curiosity and his anguish as, frequently concealing his own Jewish

identity, he mingled with the victimized Jews of the region's shtetls and with his Cossack comrades. Finally, the Diary

sheds light on Babel's artistic development, revealing the path from

observations recorded in excitement and despair to the painstakingly crafted narratives of the Red Cavalry cycle.
