Vincent and Eve Simon and Schuster
 Now a 6-part mini-series called *Why the Rest of Us Die* airing on VICE TV! The shocking truth about the government's

secret plans to survive a catastrophic attack on US soil—even if the rest of us die—is “a frightening eye-opener” (Kirkus Reviews) that spans the dawn of the nuclear age to today, and “contains everything one could possibly want to know” (The Wall Street Journal). Every day in Washington, DC, the blue-and-gold first Helicopter Squadron, codenamed “MUSSEL,” flies over the Potomac River. As obvious as the

Presidential motorcade, most people assume the squadron is a travel perk for VIPs. They're only half right: while the helicopters do provide transport, the unit exists to evacuate high-ranking officials in the event of a terrorist or nuclear attack on the capital. In the event of an attack, select officials would be whisked by helicopters to a ring of secret bunkers around Washington, even as

ordinary citizens were left to fend for themselves. "In exploring the incredible lengths (and depths) that successive administrations have gone to in planning for the aftermath of a nuclear assault, Graff deftly weaves a tale of secrecy and paranoia" (The New York Times Book Review) with details "that read like they've been ripped from the pages of a pulp spy novel" (Vice). For more than sixty years, the US

government has been developing secret Doomsday strategies to protect itself, and the multibillion-dollar Continuity of Government (COG) program takes numerous forms—from its potential to evacuate the Liberty Bell from Philadelphia to the plans to launch nuclear missiles from a Boeing-747 jet flying high over Nebraska. Garrett M. Graff sheds light on the inner workings

of the 650-acre compound, called Raven Rock, just miles from Camp David, as well as dozens of other bunkers the government built for its top leaders during the Cold War, from the White House lawn to Cheyenne Mountain in Colorado to Palm Beach, Florida, and the secret plans that would have kicked in after a Cold War nuclear attack to round up foreigners and dissidents and

nationalize industries. Equal parts a presidential, military, and cultural history, Raven Rock tracks the evolution of the government plan and the threats of global war from the dawn of the nuclear era through the War on Terror. *The Iron Codex* Macmillan More toys, more pressure, and more mystery in this exciting sequel to Vincent Shadow: Toy Inventor! After winning the

annual Whizzer Toys Invention Contest, twelve-year-old Vincent Shadow can't wait to start his once-in-a-lifetime internship with the renowned Mr. Whiz. Vincent wants to come up with an idea that will make toy history-but he can't even think of one that will impress his little sister! In this sequel to Vincent Shadow: Toy Inventor, toys and trouble go hand in hand as Vincent faces the

ultimate test: Save Whizzer Toys or disappoint kids everywhere. The Shadow of the Wind Next Chapter Vincent Shadow isn't particularly good at sports and is constantly being picked on by his classmates at Central Middle School. But it is Vincent's unusually creative mind that truly separates him from other kids his age. Vincent's top secret attic lab is crammed with toy prototypes --from Liquid Superballs to Bullz-I Basketballs and Sonic Snorkelz--and he has a sketch book filled with drawings of toys he still wants to build. So when a chance encounter with an eccentric toy inventor offers him the opportunity to go from unknown weird kid to toy inventor extraordinaire, Vincent realizes that playtime is over: it's time to get serious about toys. * Now retitled as Vincent Shadow: Toy Inventor in paperback! *Natural Histories of Discourse* Picador Rising All I want is to leave my crime-ridden shadow of a home in New York City. I've done everything I can to keep my head down and focus on my studies. College is my only goal; love has never been on the map...That is, until my sister brings me to an underground fight, where I meet a

gorgeous and mysterious man: Vincent. He is the ghost in my shadows, showing up to feed me pieces of his upper-crust life, then evaporating into darkness until his next visit. I'm falling hard and fast. How can I trust him amidst the depth of his secrets? Vincent may be even more dangerous than the dark world I'm trying to escape. Reckoning Vincent: Forgetting about Eve was

the plan. Finding her at a party on my college campus was the last thing I expected. My world has turned into a house of cards, where one wrong move can send it all crashing down...and us with it. Eve: Finally at a prestigious university-and on the path to living my dreams-I've left the darkness of the Blue Houses behind. Still, a whole new host of problems await

me. Vincent is the king of the school. I thought I wanted to know what he was hiding, but unlocking his biggest secret leads me into entirely new territory laced with danger and lust...one I'm not sure I'll survive. Redemption Vincent Through every drop of blood I spilled, I lost a piece of my soul. I've sacrificed seven long years and the woman of my life for the Family. But I'm not done fighting-not

yet. Eve is still out there. I will stop at nothing to get her back. Eve After having my heart torn out by the son of the biggest crime family in New York, I was forced to start over in California. With three thousand miles between me and my past, life is finally set on cruise control. As for love? It's not worth the fight.

The Greatest Secret in the World W. W. Norton & Company The tenth-anniversary edition of the

book that changed lives in profound ways, now with a new foreword and afterword. In 2006, a groundbreaking feature-length film revealed the great mystery of the universe—The Secret—and, later that year, Rhonda Byrne followed with a book that became a worldwide bestseller. Fragments of a Great Secret have been found in the oral traditions, in literature, in religions and philosophies

throughout the centuries. For the first time, all the pieces of The Secret come together in an incredible revelation that will be life-transforming for all who experience it. In this book, you'll learn how to use The Secret in every aspect of your life—money, health, relationships, happiness, and in every interaction you have in the world. You'll begin to understand the hidden, untapped power that's

within you, and this revelation can bring joy to every aspect of your life. The Secret contains wisdom from modern-day teachers—men and women who have used it to achieve health, wealth, and happiness. By applying the knowledge of The Secret, they bring to light compelling stories of eradicating disease, acquiring massive wealth, overcoming obstacles, and

achieving what many would regard as impossible. *Black Chalk* Independently Published In Blade of Secrets, a romantic YA fantasy adventure from the author of *Daughter of the Pirate King*, a teenage blacksmith with social anxiety is forced to go on the run to protect the world from the most powerful magical sword she's ever made. Eighteen-year-old Ziva prefers metal

to people. She spends her days tucked away in her forge, safe from society and the anxiety it causes her, using her magical gift to craft unique weapons imbued with power. Then Ziva receives a commission from a powerful warlord, and the result is a sword capable of stealing its victims' secrets. A sword that can cut far deeper than the length of its blade. A sword with the strength to

topple kingdoms. When Ziva learns of the warlord's intentions to use the weapon to enslave all the world under her rule, she takes her sister and flees. Joined by a distractingly handsome mercenary and a young scholar with extensive knowledge of the world's known magics, Ziva and her sister set out on a quest to keep the sword safe until they can find a worthy wielder or a

way to destroy it entirely. Praise for the Bladesmith Duology: "An addictive page-turner. Loaded with action, betrayal, slow-burn romance—honestly, that is the best first kiss scene ever... Be prepared to laugh, cry, and gasp." — Mary E. Pearson, the New York Times bestselling author of The Remnant Chronicles "Levenseller elevates her already intriguing fantasy world

through her depiction of Ziva, whose anxiety will ring true for anyone who's ever had a panic attack. Grab this and devour it." — Booklist, starred review "Blade of Secrets is an impactful, eye-opening journey of social anxiety that is flawlessly blended with Levenseller's signature flair for adventure and romance." —Bookstagram sensation Bridget Howard, @darkfaerietales_ [Above Top](#)

<p>intervention in Iraq, Afghanistan, Pakistan, Syria, Mali, Somalia and elsewhere has made things worse? Why do some conflicts never end? And how is it that practices like beheadings, extra-judicial killings, the bombing of hospitals and schools and sexual slavery are becoming increasingly common? In this book, renowned scholar of war and human security Mary Kaldor introduces the concept of</p>	<p>global security cultures in order to explain why we get stuck in particular pathways to security. A global security culture, she explains, involves different combinations of ideas, narratives, rules, people, tools, practices and infrastructure embedded in a specific form of political authority, a set of power relations, that come together to address or engage in large-scale violence. In contrast to the</p>	<p>Cold War period, when there was one dominant culture based on military forces and nation-states, nowadays there are competing global security cultures. The Van Gogh Sisters
Lulu.com

This biography of Vincent van Gogh's sisters tells the fascinating story of the lives of these women whose history has largely been neglected. Many people are familiar with the life and art of Vincent van Gogh, and his extensive correspondence with his brother Theo. But their sisters—Ana,

Lies, and Wil van Gogh—have gone overlooked until now. In this compelling group biography based on extensive primary resources, art historian Willem-Jan Verlinden brings Vincent's three sisters into the spotlight. At a time when the feminist movement was beginning to take root and idealists were clamoring for revolution, the Van Gogh

sisters recorded their aspirations and dreams, their disappointments and grief. Based on little-known correspondence between the sisters, this fascinating account of these remarkable women captures a moment of profound social, economic, and artistic change. With great clarity and empathy, *The Van Gogh Sisters* relates the sisters' intimate discussions of art, poetry,

books, personal ambitions, and employment. Their story will resonate with readers and broaden understanding of Vincent van Gogh's childhood. Set against the backdrop of a turbulent period in nineteenth-century history this story sheds new light on these impressive women, deepening our understanding of this unique and often troubled family.

But all is not as it seems at Yellow Rock estate and as events unfold, Letitia begins to realise that solving the mystery of her family's past could offer as much peril as

redemption. *The Cartographer's Secret* Simon and Schuster Is culture simply a more or less set text we can learn to read? Since the early 1970s, the notion of culture-as-text has animated anthropologists and other analysts of culture. Michael Silverstein and Greg Urban present this stunning collection of cutting-edge ethnographies arguing that the divide between fleeting

discursive practice and formed text is a constructed one, and that the constructional process reveals "culture" to those who can interpret it. Eleven original essays of "natural history" range in focus from nuptial poetry of insult among Wolof griots to case-based teaching methods in first-year law-school classrooms. Stage by stage, they give an idea of the cultural processes of

"entextualization" and "contextualization" of discourse that they so richly illustrate. The contributors' varied backgrounds include anthropology, psychiatry, education, literary criticism, and law, making this collection invaluable not only to anthropologists and linguists, but to all analysts of culture.
