THE MAN NOBODY KNOWS Research & Education Assn

Give Me Liberty! is the #1 book in the U.S. history survey course because it works in the classroom. A single-author text by a leader in the field, Give Me Liberty! delivers an authoritative, accessible, concise, and integrated American history. Updated with powerful new scholarship on borderlands and the West, the Fifth Edition brings new interactive History Skills Tutorials and Norton InQuizitive for History, the award-winning adaptive quizzing tool. The best-selling Seagull Edition is also available in full color for the first time.

The Grapes of Wrath Penguin Classics

Published by OpenStax College, U.S.

History covers the breadth of the chronological history of the United States and also provides the necessary depth to ensure the course is manageable for instructors and students alike. U.S. History is designed to meet the scope and sequence requirements of most courses. The authors introduce key forces and major developments that together form the American experience, with particular attention paid to considering issues of race, class and gender. The text provides a balanced approach to U.S. history, considering the people, events and ideas that have shaped the United States from both the top down (politics, economics, diplomacy) and bottom up (eyewitness accounts, lived experience).

John Cotton McGraw-Hill Education

Written by one of the founders of modern political philosophy, Thomas Hobbes, during the English civil war, *Leviathan* is an influential work of

nonfiction. Regarded as one of the earliest examples of the social contract theory, *Leviathan* has both historical and philosophical importance. Social contract theory prioritizes the state over the individual, claiming that individuals have consented to the surrender of some of their freedoms by participating in society. These surrendered freedoms help ensure that the government can be run easily. In exchange for their sacrifice, the individual is protected and given a place in a steady social order. Articulating this theory, Hobbes argues for a strong, undivided government ruled by an absolute sovereign. To support his argument, Hobbes includes topics of religion, human nature and taxation. Separated into four sections, Hobbes claims his theory to be the resolution of the civil war that raged on as he wrote, creating chaos and taking causalities. The first section, *Of Man* discusses the role human nature and instinct plays in the formation of government. The second section, *Of Commonwealth* explains the definition, implications, types, and rules of succession in a commonwealth government. *Of a Christian Commonwealth* imagines the religion's role government and societal moral standards. Finally, Hobbes closes his argument with *Of the Kingdom of Darkness*. Through the use of philosophical theory and historical study, Thomas Hobbes attempts to convince citizens to consider the cost and reward of being governed. Without an understanding of the sociopolitical theories that keep government bodies in power, subjects can easily become complicit or allow society to slip into anarchy. Created during a brutal civil war, Hobbes hoped to educate and persuade his peers. Though *Leviathan* was a work of controversy in its time,

Hobbes' theories and prose has survived centuries, shaping the ideas of modern philosophy. This edition of Leviathan by Thomas Hobbes is now presented with a stunning new cover design and is printed in an easy-to-read font. With these accommodations, Leviathan is accessible and applicable to contemporary readers.

AP U.S. History Crash Course Achieve a Higher AP Score in Less Time REA's Crash Course is perfect for the time-crunched student, last-minute studier, or anyone who wants a refresher on the subject! Are you crunched for time? Have you started studying for your AP U.S. History exam yet? How will you memorize all that history before the test? Do you wish there was a fast and easy way to study for the exam AND boost your score? If this sounds like you, don't panic. REA's AP U.S. History Crash Course is just what you need. Our Crash Course gives you: Targeted, Focused Review – Study Only What You Need to Know The Crash Course is based on an in-depth analysis of the AP U.S. History course description outline and actual AP test questions. It covers only the information tested on the exam, so you can make the most of your valuable study time. Broken down into major topics and themes, REA gives you two ways to study the material — chronologically or thematically. Expert Test-taking Strategies Written by an AP teacher who has studied the AP U.S. History Exam for 20 years, the author shares his detailed, question-level strategies and explains the best way to answer the multiple-choice and essay questions. By following his expert advice, you can boost your overall point score! Key Terms You Must Know Mastering AP vocabulary terms is an

easy way to boost your score. Our AP expert gives you the key terms all AP U.S. History students must know before test day. Take REA's FREE Practice Exam After studying the material in the Crash Course, go online and test what you've learned. Our full-length practice exam features timed testing, detailed explanations of answers, and automatic scoring. The exam is balanced to include every topic and type of question found on the actual AP exam, so you know you're studying the smart way! When it's crucial crunch time and your AP U.S. History exam is just around the corner, you need REA's AP U.S. History Crash Course!

How the Other Half Lives Random House

In this Very Short Introduction, Alan Taylor presents the current scholarly understanding of colonial America to a broader audience. He focuses on the transatlantic and a transcontinental perspective, examining the interplay of Europe, Africa, and the Americas through the flows of goods, people, plants, animals, capital, and ideas.

A Survey Princeton Review

A searing novel of social realism, Upton Sinclair's *The Jungle* follows the fortunes of Jurgis Rudkus, an immigrant who finds in the stockyards of turn-of-the-century Chicago a ruthless system that degrades and impoverishes him, and an industry whose filthy practices contaminate the meat it processes. From the stench of the killing-beds to the horrors of the fertilizer-works, the appalling conditions in which Jurgis works are described in intense detail by an author bent on social reform. So powerful was the book's message that it caught the eye of President Theodore Roosevelt and led to changes to the food hygiene laws. In his Introduction to this new edition, Russ

Castronovo highlights the aesthetic concerns that were central to Sinclair's aspirations, examining the relationship between history and historical fiction, and between the documentary impulse and literary narrative. As he examines the book's disputed status as novel (it is propaganda or literature?), he reveals why Sinclair's message-driven fiction has relevance to literary and historical matters today, now more than a hundred years after the novel first appeared in print.

American History: Connecting with the Past The American Pageant

"I too am not a bit tamed—I too am untranslatable / I sound my barbaric yawp over the roofs of the world."—Walt Whitman, "Song of Myself," *Leaves of Grass*

The American Yawp is a free, online, collaboratively built American history textbook. Over 300 historians joined together to create the book they wanted for their own students—an accessible, synthetic narrative that reflects the best of recent historical scholarship and provides a jumping-off point for discussions in the U.S. history classroom and beyond. Long before Whitman and long after, Americans have sung something collectively amid the deafening roar of their many individual voices. The Yawp highlights the dynamism and conflict inherent in the history of the United States, while also looking for the common threads that help us make sense of the past. Without losing sight of politics and power, The American Yawp incorporates

transnational perspectives, integrates diverse voices, recovers narratives of resistance, and explores the complex process of cultural creation. It looks for America in crowded slave cabins, bustling markets, congested tenements, and marbled halls. It navigates between maternity wards, prisons, streets, bars, and boardrooms. The fully peer-reviewed edition of *The American Yawp* will be available in two print volumes designed for the U.S. history survey. Volume I begins with the indigenous people who called the Americas home before chronicling the collision of Native Americans, Europeans, and Africans. The American Yawp traces the development of colonial society in the context of the larger Atlantic World and investigates the origins and ruptures of slavery, the American Revolution, and the new nation's development and rebirth through the Civil War and Reconstruction. Rather than asserting a fixed narrative of American progress, *The American Yawp* gives students a starting point for asking their own questions about how the past informs the problems and opportunities that we confront today.

His popular courses were renowned for their energetic presentations, commitment to scholarship, and helping students achieve high AP® exam scores. **From Columbus's Great Discovery to the War on Terror** W.W. Norton & Company

"My favorite historical novel . . . a superb re-creation of the Battle of Gettysburg, but its real importance is its insight into what the war was about, and what it meant."—James M. McPherson In the four most bloody and courageous days of our nation's history, two armies fought for two conflicting dreams. One dreamed of freedom, the other of a way of life. Far more than rifles and bullets were carried into battle. There were memories. There were promises. There was love. And far more than men fell on those Pennsylvania fields. Bright futures, untested innocence, and pristine beauty were also the casualties of war. Michael Shaara's Pulitzer Prize-winning masterpiece is unique, sweeping, unforgettable—the dramatic story of the battleground for America's destiny. **Red Badge of Courage** Princeton Review AP Biology Premium Prep, 2021, previously titled *Cracking the AP Biology Exam*, Premium Edition, will now include

a total of 6 full-length practice tests. The Premium edition continues to provide students with comprehensive topic reviews of all AP Biology subjects, from photosynthesis to genetics to evolution. It also includes strategies for all AP Biology question types, including grid-in and short free-response questions, and contains detailed guidance on how to write a topical, cohesive, point-winning essay. This Premium edition now includes 6 full-length practice tests (4 in the book and 2 online) for the most practice possible.

Give Me Liberty! An American History Interactive Media

When President George Washington ordered an army of 13,000 men to march west in 1794 to crush a tax rebellion among frontier farmers, he established a range of precedents that continues to define federal authority over localities today. The "Whiskey Rebellion" marked the first large-scale resistance to a law of the U.S. government under the Constitution. This classic confrontation between champions of liberty and defenders of order was long considered the most significant event in the first quarter-century of the new nation. Thomas P. Slaughter recaptures the historical drama and significance of this violent episode in which frontier West and cosmopolitan East battled over the meaning of the American Revolution. The book not only offers the broadest and most comprehensive account of the Whiskey Rebellion ever written, taking into account the political, social and intellectual contexts of the time, but also challenges conventional understandings of the Revolutionary era.

A Massively Collaborative Open U.S. History Textbook, Vol. 1: To 1877 W. W. Norton & Company

Selected by the Modern Library as one of the 100 best novels of all time Published in 1975, Ragtime changed our very concept of what a novel could be. An extraordinary tapestry, Ragtime captures the spirit of America in the era between the turn of the century and the First World War. The story opens in 1906 in New Rochelle, New York, at the home of an affluent American family. One lazy Sunday afternoon, the famous escape artist Harry Houdini swerves his car into a telephone pole outside their house. And almost magically, the line between fantasy and historical fact, between real and imaginary characters, disappears. Henry Ford, Emma Goldman, J. P. Morgan, Evelyn Nesbit, Sigmund Freud, and Emiliano Zapata slip in and out of the tale, crossing paths with Doctorow's imagined family and other fictional characters, including an immigrant peddler and a ragtime musician from Harlem whose insistence on a point of justice drives him to revolutionary violence.

A Novel Wadsworth Publishing Company America is the leading narrative history because students love to read it.

Additional coverage of immigration enhances the timeliness of the narrative. New Chapter Opener videos, History Skills Tutorials, and Norton's adaptive learning tool, InQuizitive, help students develop history skills, engage with the reading, and come to class prepared.

What hasn't changed? Our unmatched affordability. Choose from Full, Brief (15% shorter), or The Essential Learning Edition--featuring fewer chapters and additional pedagogy.

Part 1: Chapters 1-17 Princeton Review

The title of this book by Perry Miller, who is world-famous as an interpreter of the American past, comes close to posing the question it has been Mr. Miller's lifelong purpose to answer: What was the underlying aim of the first colonists in coming to America? In what light did they see themselves? As men and women undertaking a mission that was its own cause and justification? Or did they consider themselves errand boys for a higher power which might, as is frequently the habit of authority, change its mind about the importance of their job before they had completed it? These questions are by no means frivolous. They go to the roots of seventeenth-century thought and of the ever-widening and quickening flow of events since then. Disguised from twentieth-century readers first by the New Testament language and thought of the Puritans and later by the complacent transcendentalist belief in the oversoul, the related problems of purpose and reason-for-being have been central to the American experience from the very beginning. Mr. Miller makes this abundantly clear and real, and in doing so allows the reader to conclude that, whatever else America might have become, it could never have developed into a society that took itself for granted. The title, *Errand into the Wilderness*, is taken from the title of a Massachusetts election sermon of 1670. Like so many jeremiads of its time, this sermon appeared to be addressed to the sinful and unregenerate whom God was about to destroy. But the original speaker's

underlying concern was with the fateful ambiguity in the word errand. Whose errand? This crucial uncertainty of the age is the starting point of Mr. Miller's engrossing account of what happened to the European mind when, in spite of itself, it began to become something other than European. For the second generation in America discovered that their heroic parents had, in fact, been sent on a fool's errand, the bitterest kind of all; that the dream of a model society to be built in purity by the elect in the new continent was now a dream that meant nothing more to Europe. The emigrants were on their own. Thus left alone with America, who were they? And what were they to do? In this book, as in all his work, the author of *The New England Mind: The Seventeenth Century*; *The New England Mind: From Colony to Province*, and *The Transcendentalists*, emphasizes the need for understanding the human sources from which the American mainstream has risen. In this integrated series of brilliant and witty essays which he describes as pieces, Perry Miller invites and stimulates in the reader a new conception of his own inheritance.

Princeton Review AP Biology Premium Prep 2021 Perfection Learning

For the past three decades, many history professors have allowed their biases to distort the way America's past is taught. These intellectuals have searched for instances of racism, sexism, and bigotry in our history while downplaying the greatness of America's patriots and the achievements of "dead white men." As a result, more emphasis is placed on Harriet Tubman than on George Washington; more about the internment of Japanese Americans during World War II than about D-Day or Iwo Jima; more on the dangers we faced from Joseph

McCarthy than those we faced from Josef Stalin. A Patriot's History of the United States corrects those doctrinaire biases. In this groundbreaking book, America's discovery, founding, and development are reexamined with an appreciation for the elements of public virtue, personal liberty, and private property that make this nation uniquely successful. This book offers a long-overdue acknowledgment of America's true and proud history.
