LANE LANEY

Multimodal Approaches and Perspectives Farrar, Straus and Giroux (BYR)

Build strong writers with 180 activities and 36 popular early childhood themes. Each thematic unit offers a full-color poster to prompt prior knowledge and initiate student conversation, word cards to facilitate word association and spelling, and writing prompts to spark personal student response. 112 pages. Kindergarten-Grade 1. This book is designed to enhance circle time and center time. Demonstrates the relationship between oral and written language. Helps develop age-appropriate writing skills. Promotes concepts of print such as capitalization, punctuation, and spelling. Provides reproducible word cards and writing prompts.

Learning and Teaching Early Math Ministry of Education

In this groundbreaking book, co-editors Pedro Noguera and Jean Yonemura Wing, and their collaborators investigated the dynamics of race and achievement at Berkeley High School—a large public high school that the New York Times called "the most integrated high school in America." Berkeley's diverse student population clearly illustrates the "achievement gap" phenomenon in our schools. *Unfinished Business* brings to light the hidden inequities of schools—where cultural attitudes, academic tracking, curricular access, and after-school activities serve as sorting mechanisms that set students on paths of success or failure.

Final Report of the Truth and Reconciliation Commission of Canada, Volume One: Summary Lerner Digital™

This new resource about digital citizenship consists of a print curriculum document and a USB flash drive containing reproducible lesson materials in English and French. This resource provides ETFO members with lessons to use with students from ELKP to Grade 8 that will assist in teaching digital citizenship skills.—Publisher's website.

Be a Maker Mailbox Books

The second edition of *Natural Curiosity* supports a stronger basic awareness of Indigenous perspectives and their importance to environmental education. The driving motivation for a second edition was the burning need, in the wake of strong and unequivocal recommendations by the Truth and Reconciliation Commission, to situate Indigenous perspectives into the heart of Canadian educational settings and curricula, most notably in connection with environmental issues. The second edition of *Natural Curiosity* supports a stronger basic awareness of Indigenous perspectives and their importance to environmental education. The driving motivation for a second edition was the burning need, in the wake of strong and unequivocal recommendations by the Truth and Reconciliation Commission, to situate Indigenous perspectives into the heart of Canadian educational settings and curricula, most notably in connection with environmental issues. The Indigenous lens in this edition represents a cross-cultural encounter supporting what can become an ongoing dialogue and evolution of practice in environmental inquiry. Some important questions are raised that challenge us to think in very different ways about things as fundamental as the meaning of knowledge. New in the Second Edition: Revision of the four branches of environmental inquiry (Lorraine Chiarotto), by Julie Comay; Indigenous lenses on each of the branches by Doug Anderson; 16 new educator stories; uses.

Honouring the Truth, Reconciling for the Future Portage & Main Press

Sometimes happy, sometimes innocent, this book features poetry that encourages the reader to look at life from a different angle, free from the rigid shackles of grown up life.

Peacemaking Circles Corwin Press

The Big Six Historical Thinking Concepts Orca Book Publishers

Action research places a powerful tool for school improvement in the hands of teachers. By

highlighting the outcomes that are possible and presenting clear steps in the research process, this book is one to encourage anyone who is seeking to implement evidence-based school improvement. Eileen Piggot-Irvine uses her Problem Resolving Action Research (PRAR) model to demonstrate the effectiveness of this structured but flexible approach to action research. Its strength is a clear sequence of stages or cycles which give the structure. Within this, flexibility is also possible if the potential for "spin-offs" occurs from the findings. The theory section describes the features which characterise the PRAR model. It is iterative, experiential, context specific and developmental. It emphasises change and transformation along with evidence- or data-based decision making; encourages reflection and narrows the theory/practice gap. The teacher-written case studies report on action research as a process which incorporates these features. These real-life studies are valuable not only for the way in which they illustrate action research methodology but also for their content, which includes little-researched areas such as listening skills; supporting teacher aides; facilitating dialogue; and working with children with severe learning disorders. The studies indicate the adaptability of the approach across primary, secondary and tertiary sectors. A 'must' for all schools undertaking their own research.

Media and Information Literacy Curriculum for Educators and Learners Living Justice Press

Appealing, rhyming story that celebrates making in many forms.

The Fourth Way HarperCollins Children's Books

This well-researched resource draws on the collaborative work between researchers and school practitioners to offer teaching strategies that promote deep understanding and higher-order thinking in students.

Innovate with iPad Routledge

The story of a transgender child based on the real-life experience of Jazz Jennings, who has become a spokesperson for transkids everywhere "This is an essential tool for parents and teachers to share with children whether those kids identify as trans or not. I wish I had had a book like this when I was a kid struggling with gender identity questions. I found it deeply moving in its simplicity and honesty."—Laverne Cox (who plays Sophia in "Orange Is the New Black") From the time she was two years old, Jazz knew that she had a girl's brain in a boy's body. She loved pink and dressing up as a mermaid and didn't feel like herself in boys' clothing. This confused her family, until they took her to a doctor who said that Jazz was transgender and that she was born that way. Jazz's story is based on her real-life experience and she tells it in a simple, clear way that will be appreciated by picture book readers, their parents, and teachers.

A compelling approach to lasting educational change informed by lessons learned and new successes worldwide! Andy Hargreaves and Dennis Shirley present a concise framework for successful and sustainable reform that integrates teacher professionalism, community engagement, government policy, and accountability. Drawing from research on traditional methods and new findings from around the globe, the authors offer an absorbing and insightful analysis of three major efforts of the past 25 years, outline the strengths and limitations of each model, and offer a fourth way for achieving dramatic improvement built on: Six Pillars of Purpose that support change Three Principles of Professionalism that drive change Four Catalysts of Coherence that sustain change

Halfbreed John Wiley & Sons

This book is an outstanding account of the current state of using writing in service of learning. It presents psychological and educational foundations of writing across the curriculum movement and describes writing-to-learn practices implemented at different levels of education. It provides concrete applications and ideas about how to enhance student learning by means of writing. It is useful for educators, curriculum developers, psychologists, cognitive scientists, writing researchers, and teachers.

You Hold Me Up / Gimanaadenim Corwin Press

Peacemaking Circles, often referred to as the "bible" of Circles, lays out the inner and outer dynamics of the peacemaking Circle process. Circles are now being used in schools, families, workplaces, organizations, as well as in the justice system. The use of Circles shifts the focus from blame and punishment to finding out what happened and exploring as a group or community how to put things right.

The Colour of My Dreams John Wiley & Sons

In November 2008, John Hattie's ground-breaking book *Visible Learning* synthesised the results of more than fifteen years research involving millions of students and represented the biggest ever collection of evidence-based research into what actually works in schools to improve learning. *Visible Learning for Teachers* takes the next step and brings those ground breaking concepts to a completely new audience. Written for students, pre-service and in-service teachers, it explains how to apply the principles of *Visible Learning* to any classroom anywhere in the world. The author offers concise and user-friendly summaries of the most successful interventions and offers practical step-by-step guidance to the successful implementation of visible learning and visible teaching in the classroom. This book: links the biggest ever research project on teaching strategies to practical classroom implementation champions both teacher and student perspectives and contains step by step guidance including lesson preparation, interpreting learning and feedback during the lesson and post lesson follow up offers checklists, exercises, case studies and best practice scenarios to assist in raising achievement includes whole school checklists and advice for school leaders on facilitating visible learning in their institution now includes additional meta-analyses bringing the total cited within the research to over 900 comprehensively covers numerous areas of learning activity including pupil motivation, curriculum, meta-cognitive strategies, behaviour, teaching strategies, and classroom management. *Visible Learning for Teachers* is a must read for any student or teacher who wants an evidence based answer to the question: 'how do we maximise achievement in our schools?'

Teaching from the Thinking Heart FriesenPress

This book documents a collaborative action research project in one school where researchers and practitioners worked together to develop multimodal literacies and pedagogies for diverse,

multilingual elementary classrooms. Following chronologically from Lotherington's *Pedagogy of Multiliteracies* (2011), this volume picks up after teachers and researchers have learned how to work efficiently as a learning community to offer project-based learning approaches. This edited collection relates how teachers and students of different grade levels, language backgrounds, and abilities developed a shared agenda and created a framework for effective and inclusive practices. Contributors demonstrate that collaboration, creative pedagogical solutions and innovative project-based learning are all essential parts of learning and teaching socially appropriate and responsive literacies in a multimodal, superdiverse world.

The Report of the Expert Panel on Early Reading in Ontario Taylor & Francis

This is the Final Report of Canada's Truth and Reconciliation Commission and its six-year investigation of the residential school system for Aboriginal youth and the legacy of these schools. This report, the summary volume, includes the history of residential schools, the legacy of that school system, and the full text of the Commission's 94 recommendations for action to address that legacy. This report lays bare a part of Canada's history that until recently was little-known to most non-Aboriginal Canadians. The Commission discusses the logic of the colonization of Canada's territories, and why and how policy and practice developed to end the existence of distinct societies of Aboriginal peoples. Using brief excerpts from the powerful testimony heard from Survivors, this report documents the residential school system which forced children into institutions where they were forbidden to speak their language, required to discard their clothing in favour of institutional wear, given inadequate food, housed in inferior and fire-prone buildings, required to work when they should have been studying, and subjected to emotional, psychological and often physical abuse. In this setting, cruel punishments were all too common, as was sexual abuse. More than 30,000 Survivors have been compensated financially by the Government of Canada for their experiences in residential schools, but the legacy of this experience is ongoing today. This report explains the links to high rates of Aboriginal children being taken from their families, abuse of drugs and alcohol, and high rates of suicide. The report documents the drastic decline in the presence of Aboriginal languages, even as Survivors and others work to maintain their distinctive cultures, traditions, and governance. The report offers 94 calls to action on the part of governments, churches, public institutions and non-Aboriginal Canadians as a path to meaningful reconciliation of Canada today with Aboriginal citizens. Even though the historical experience of residential schools constituted an act of cultural genocide by Canadian government authorities, the United Nation's declaration of the rights of aboriginal peoples and the specific recommendations of the Commission offer a path to move from apology for these events to true reconciliation that can be embraced by all Canadians. *Maximizing Impact on Learning* UNESCO Publishing

This book equips teachers of young children with research-based practical strategies, assessment tools, and motivating writing activities that are easily applicable to all learning environments.
