Recasting French literary history in terms of the cultures and peoples that interacted within and outside of France's national boundaries, this volume offers a new way of looking at the history of a national literature, along with a truly global and contemporary understanding of language, literature, and culture. The relationship between France's national territory and other regions of the world where French is spoken and written (most of them former colonies) has long been central to discussions of "Francophonie." Boldly expanding such discussions to the whole range of French literature, the essays in this volume explore spaces, mobilities, and multiplicities from the Middle Ages to today. They rethink literary history not in terms of national boundaries, as traditional literary histories have done, but in terms of a global paradigm that emphasizes border crossings and encounters with "others." Contributors offer new ways of reading canonical texts and considering other texts that are not part of the traditional canon. By emphasizing diverse conceptions of language, text, space, and nation, these essays establish a model approach that remains sensitive to the specificities of time and

place and to the theoretical concerns informing the study of national literatures in the twenty-first century.

Designed for the general reader, this splendid introduction to French literature from 842 A.D.—the date of the earliest surviving document in any Romance language—to the present decade is the most compact and imaginative single-volume guide available in English to the French literary tradition. In fact, no comparable work exists in either language. It is not the customary inventory of authors and titles but rather a collection of wide-angled views of historical and cultural phenomena. It sets before us writers, public figures, criminals, saints, and monarchs, as well as religious, cultural, and social revolutions. It gives us books, paintings, public monuments, even TV shows. Written by 164 American and European specialists, the essays are introduced by date and arranged in chronological order, but here ends the book's resemblance to the usual history of literature. Each date is followed by a headline evoking an event that indicates the chronological point of departure. Usually the event is literary—the publication of an original work, a journal, a translation, the first performance of a play, the death of an author—but some events are literary only in terms of their repercussions and resonances. Essays devoted to a genre exist alongside essays devoted to one book, institutions are presented side by side with literary movements, and large surveys appear next to detailed discussions of specific landmarks. No article is limited to the "life and works" of a single author. Proust, for example, appears through various lenses: fleetingly, in 1701, apropos of Antoine Galland's translation of *The Thousand and One Nights*; in 1898, in connection with the Dreyfus Affair; in 1905, on the occasion of the law on the separation of church and state; in 1911, in relation to Gide and their different treatments of homosexuality; and at his death in 1922. Without attempting to cover every author, work, and cultural development since the Serments de Strasbourg in 842, this history succeeds in being both informative and critical about the more than 1,000 years it describes. The contributors

offer us a chance to appreciate not only French culture but also the major critical positions in literary studies today. *A New History of French Literature* will be essential reading for all engaged in the study of French culture and for all who are interested in it. It is an authoritative, lively, and readable volume.

What such a move meant, in society as well as literature, becomes clear in the astonishing range of fiction, poetry, conduct books, letters, and historical and sociological documents Spacks surveys. Here we see how the idea of boredom - as a point of reference or focus of opposition, as a means of characterization, repudiation, or definition, as social indictment or personal grievance - condenses a wide range of crucial meanings and attitudes. From the gendering of boredom (how women's lives came to embody both the threat of boredom and its overthrow) to

canon issues (how "boring" becomes "interesting" with a sympathetic reader), the implications of the subject steadily enlarge.

Why is historicism a problem? Why do we need a new historicism? This text considers these questions and aims to show that the problem of historicism, and new historicism, is more than just a problem of knowledge-validity and that new historicism is not so much an answer to the difficulties of history writing but the opening of new questions.

Begun in 2010 as part of the "Histories of Literatures in European Languages" series sponsored by the International Comparative Literature Association, the current project on New Literary Hybrids in the Age of Multimedia Expression recognizes the global shift toward the visual and the virtual in all areas of textuality: the printed, verbal text is increasingly joined with the visual, often electronic, text. This shift has opened up new domains of human achievement in art and culture. The international roster of 24 contributors to this volume pursue a broad range of issues under four sets of questions that allow a larger conversation to emerge, both inside the volume's sections and between them. The four sections cover, 1) Multimedia Productions in Theoretical and Historical Perspective; 2) Regional and Intercultural Projects; 3) Forms and Genres; and, 4) Readers and Rewriters in Multimedia Environments. The essays included in this volume are examples of the kinds of projects and inquiries that have become possible at the interface between literature and other media, new and old. They emphasize the extent to which hypertextual, multimedia, and virtual reality technologies have enhanced the sociality of reading and writing, enabling more people to interact than ever before. At the same time, however, they warn that, as long as

these technologies are used to reinforce old habits of reading/writing, they will deliver modest results. One of the major tasks pursued by the contributors to this volume is to integrate literature in the global informational environment where it can function as an imaginative partner, teaching its interpretive competencies to other components of the cultural landscape.

Mediterranean Slavery and World Literature is a collection of selected essays about the transformations of captivity experiences in major early modern texts of world literature and popular media, including works by Cervantes, de Vega, Defoe, Rousseau, and Mozart. Where most studies of Mediterranean slavery, until now, have been limited to historical and autobiographical accounts, this volume looks specifically at literary adaptations from a multicultural perspective.

English Translation and Classical Reception is the first genuine cross-disciplinary study bringing English literary history to bear on questions about the reception of classical literary texts, and vice versa. The text draws on the author's exhaustive knowledge of the subject from the early Renaissance to the present. The first book-length study of English translation as a topic in classical reception. Draws on the author's exhaustive knowledge of English literary translation from the early Renaissance to the present. Argues for a remapping of English literary history which would take proper account of the currently neglected history of classical translation, from Chaucer to the present. Offers a widely ranging chronological analysis of English translation from ancient literatures. Previously little-known, unknown, and sometimes suppressed translated texts are recovered from manuscripts and explored in terms of their implications for English literary history and for the interpretation of classical literature.

Most readers and critics view Mexican American writing as a subset of American literature. Nor at best as a stream running parallel to the main literary current. JosŽ Aranda now reexamines American literary history from the perspective of Chicano/a studies to show that Mexican Americans have had a key role in

the literary output of the United States for one hundred fifty years. In this bold new look at the American canon, Aranda weaves the threads of Mexican American literature into the broader tapestry of Anglo American writing, especially its Puritan origins, by pointing out common ties that bind the two traditions: narratives of persecution, of immigration, and of communal crises, alongside chronicles of the promise of America. Examining texts ranging from Mar'a Amparo Ruiz de Burton's 1872 critique of the Civil War, *Who Would Have Thought It?*, through the contemporary autobiographies of Richard Rodriguez and Cherr'e Moraga, he surveys Mexican American history, politics, and literature, locating his analyses within the context of Chicano/a cultural criticism of the last four decades. *When We Arrive* integrates Early American Studies and Chicano/a Studies into a comparative cultural framework by using the Puritan connection to shed new light on dominant images of Chicano/a narrative, such as Aztlan and the borderlands. Aranda explores the influence of a nationalized Puritan ethos on nineteenth- and twentieth-century writers of Mexican descent, particularly upon constructions of ethnic identity and aesthetic values. He then frames the rise of contemporary Chicano/a literature within a critical body of work produced from the 1930s through the 1950s, one that combines a Puritan myth of origins with a literary history in which American literature is heralded as the product and producer of social and political dissent. Aranda's work is a virtual sourcebook of historical figures, texts, and ideas that revitalizes both Chicano/a studies and American literary history. By showing how a comparative study of two genres can produce a more integrated literary history for the United States, *When We Arrive* enables critics and readers alike to see Mexican American literature as part of a broader tradition and establishes for its writers a more deserving place in the American literary imagination.

A transporting and illuminating voyage around the globe, through classic and modern literary works that are in conversation with one another and with the world around them. *Featured in the Chicago Tribune's Great 2021 Fall Book Preview * One of Smithsonian Magazine's Ten Best Books About Travel of 2021* Inspired by Jules Verne's hero Phileas Fogg, David Damrosch, chair of Harvard University's department of comparative literature

and founder of Harvard's Institute for World Literature, set out to counter a pandemic's restrictions on travel by exploring eighty exceptional books from around the globe. Following a literary itinerary from London to Venice, Tehran and points beyond, and via authors from Woolf and Dante to Nobel Prize-winners Orhan Pamuk, Wole Soyinka, Mo Yan, and Olga Tokarczuk, he explores how these works have shaped our idea of the world, and the ways in which the world bleeds into literature. To chart the expansive landscape of world literature today, Damrosch explores how writers live in two very different worlds: the world of their personal experience and the world of books that have enabled great writers to give shape and meaning to their lives. In his literary cartography, Damrosch includes compelling contemporary works as well as perennial classics, hard-bitten crime fiction as well as haunting works of fantasy, and the formative tales that introduce us as children to the world we're entering. Taken together, these eighty titles offer us fresh perspective on enduring problems, from the social consequences of epidemics to the rising inequality that Thomas More designed Utopia to combat, as well as the patriarchal structures within and against which many of these books' heroines have to struggle—from the work of Murasaki Shikibu a millennium ago to Margaret Atwood

today. *Around the World in 80 Books* is a global invitation to look beyond ourselves and our surroundings, and to see our world and its literature in new ways.

A THE Book of the Week. Did you know that Aristotle thought the best tragedies were those which ended happily? Or that the first mention of the motor car in literature may have been in 1791 in James Boswell's *Life of Johnson*? Or that it was not unknown in the nineteenth century for book reviews to be 30,000 words long? These are just a few of the fascinating facts to be found in this absorbing history of literary criticism. From the Ancient Greek period to the present day, we learn about critics' lives, the times in which they lived and how the same problems of interpretation and valuation persist through the ages. In this lively and engaging book, Gary Day questions whether the 'theory wars' of recent years have lost sight of the actual literature, and makes surprising connections between criticism and a range of subjects, including the rise of money. General readers will appreciate this informative, intriguing and often provocative

The aim of this book is to orchestrate "a generic reconstitution of literary studies" based on a comprehensive theory of genre and

generic transformation. Taking "An Excellent Ballad of George Barnwel," a seventeenth-century broadside of sex and greed, Ralph Cohen analyzes the generic transformations—including Addison's ballad criticism in *The Spectator*, *The London Merchant*, Percy's ballad editing in *Reliques*, and *Barnwell. A Novel*—in which this particular ballad exhibits remarkable continuity over the next four centuries, culminating with his personal re-formation; what was considered non-literary criticism becomes literary. This unique literary history reconceives narrative as a component of genre rather than a genre itself, demonstrates the ineluctably mixed nature of genres and the literary nature of our humanness, and analyzes the shifting generic contexts for interpretation and gender relations. Incorporating theory consciousness into the literary genre he is regenerating, Cohen offers a brilliant example of how future literary histories might be written.

Exiled to the margins of society and surviving by his wits in the course of his wanderings, the picaresque marks a sharp contrast to the high-born characters on whom previous Spanish literature had focused. In this illuminating book, Peter N. Dunn offers a fresh view of the gamut of sixteenth- and seventeenth-century Spanish picaresque fiction.
