First, there's a crime scene, but no body. Next, there's a body, but no crime scene. Police start to suspect the two overly-curious women who discovered the scenes are serial killers, but they can't prove it. Travel nurses are disappearing at an alarming rate from Oak Island Hospital along the coast of North Carolina, but no one knows why. These two super-sleuth nurses are determined to find out. They aren't experts. They've never solved a crime. They just know they can't sit on the sidelines while other nurses are being killed. They're going to help whether the police like it or not. They're nurses. They can handle just about anything. Except for the impending hurricane pressing up the coast that will wash away any evidence before the case is solved. Follow Piper Quinn

and Jeannie Hatcher with their quirky, unconventional style and have a look into the fascinating lives of travel nurses as they take their work contracts across the country.

The Serial Killer Files AuthorHouse

Far too many poor Black communities struggle with gun violence and homicide. The result has been the unnatural contortion of Black families and the inter-generational perpetuation of social chaos and untimely death. Young people are repeatedly ripped away from life by violence, while many men are locked away in prisons. In neighborhoods like those of Wilmington, Delaware, residents routinely face the pressures of violence, death, and incarceration. Murder Town, USA is thus a timely ethnography with an innovative structure: the authors helped organize fifteen residents formerly involved with the streets and/or the criminal

justice system to document the relationship between structural opportunity and experiences with violence in Wilmington's Eastside and Southbridge neighborhoods. Earlier scholars offered rich cultural analysis of violence in low-income Black communities, and yet this literature has mostly conceptualized violence through frameworks of personal responsibility or individual accountability. And even if acknowledging the pressure of structural inequality, most earlier researchers describe violence as the ultimate result of some moral failing, a propensity for crime, and the notion of helplessness. Instead, in *Murder Town USA*, Payne, Hitchens, and Chamber, along with their collaborative team of street ethnographers, instead offer a radical re-conceptualization of violence in low-income Black communities by describing the penchant for violence and involvement in crime overall to be a logical, "resilient" response to the perverse context of structural inequality.

Mass Murders Ballantine Books

Vivid and intriguing, *Murder Maps* plots the nineteenth century's most dramatic murders from around the world onto meticulous diagrams and period maps, and recounts the brilliant detective work that solved the cases. Elegant period maps and compelling crime analysis illuminate this disquieting volume, which reexamines the most captivating and intriguing homicides of the nineteenth century. Organized geographically, the elements of each murder—from the prior movements of both killer and victim to the eventual location of the body—are meticulously replotted using archival maps and bespoke plans, taking readers on a perilous journey around the murder hot spots of the world. From the "French Ripper," Joseph Vacher, who roamed the French countryside brutally mutilating and murdering at least eleven people, to H. H. Holmes and his "Murder Castle" in Chicago, crime expert Dr. Drew Gray recounts the details of each case. His forensic examination uncovers both the horrifying details of the crimes themselves and the ingenious detective work that led to the capture of the murderers. Throughout the book, Gray highlights the development of police methods and technology, from the introduction of the police whistle to the standardization of the mug shot to the use of fingerprinting and radiotelegraphy in apprehending criminals. Vividly recreating over one hundred individual murder cases through historic maps, photographs, newspaper excerpts, court papers, and police reports, *Murder Maps* is perfect for everyone interested in criminal history, forensics, or the macabre.

Death of Meriwether Lewis River Junction Press LLC

Bestselling author of *Broken Ground* "offers fascinating glimpses" into the real world of criminal forensics from its beginnings to the modern day (*The Boston Globe*). The dead can tell us all about themselves: where they came from, how they lived, how they died, and, of course, who killed them. Using the messages left by a corpse, a crime scene, or the faintest of human traces, forensic scientists unlock the mysteries of the past and serve justice. In *Forensics*, international bestselling crime author Val McDermid guides readers through this field, drawing on interviews with top-level professionals, ground-breaking research, and her own experiences on the scene. Along the way, McDermid discovers how maggots collected from a corpse can help determine one's time of death; how a DNA trace a millionth the size of a grain of salt can be used to convict a killer; and how a team of young

Argentine scientists led by a maverick American anthropologist were able to uncover the victims of a genocide. Prepare to travel to war zones, fire scenes, and autopsy suites as McDermid comes into contact with both extraordinary bravery and wickedness, tracing the history of forensics from its earliest beginnings to the cutting-edge science of the modern day.

The Publishers Weekly Cambridge Scholars Publishing Scores of talented and dedicated people serve the forensic science community, performing vitally important work. However, they are often constrained by lack of adequate resources, sound policies, and national support. It is clear that change and advancements, both systematic and scientific, are needed in a number of forensic science disciplines to ensure the reliability of work, establish enforceable standards, and promote best practices with consistent application. *Strengthening Forensic Science in the United States: A Path Forward* provides a detailed plan for addressing these needs and suggests the creation of a new government entity, the National Institute of Forensic Science, to establish and enforce standards within the forensic science community. The benefits of improving and regulating the forensic science disciplines are clear: assisting law enforcement officials, enhancing homeland security, and reducing the risk of wrongful conviction and exoneration. *Strengthening Forensic Science in the United States* gives a full account of what is needed to advance the forensic science disciplines, including upgrading of systems and organizational structures, better training, widespread adoption of uniform and enforceable best practices, and mandatory certification and accreditation programs. While this book provides an essential call-to-action for congress and policy makers, it also serves as a vital tool for law enforcement agencies, criminal prosecutors and attorneys, and forensic science educators.

DK Eyewitness Travel Guide: Southwest USA & National Parks will lead you straight to the best attractions the region has to offer. Whether you're taking in the views at the Grand Canyon, gambling in Las Vegas, or enjoying the hot pools at Jemez Springs, this in-depth guidebook provides all the travel information you need. It covers the major areas from Utah, Santa Fe, and Albuquerque to Phoenix, Las Vegas, and Arizona, and explores the region's culture, history, architecture, entertainment, shopping, tours, and scenic walks. Discover DK Eyewitness Travel Guide: Southwest USA & National Parks. + Detailed itineraries and "don't-miss" destination highlights at a glance. + Illustrated cutaway 3-D drawings of important sights. + Floor plans and guided visitor information for major museums. + Guided walking tours, local drink and dining specialties to try,

things to do, and places to eat, drink, and shop by area. + Area maps marked with sights and restaurants. + Insights into history and culture to help you understand the stories behind the sights. + Suggested day trips and itineraries to explore beyond the cities and towns. + Hotel and restaurant listings highlight DK Choice special recommendations. With hundreds of full-color photographs, hand-drawn illustrations, and custom maps that illuminate every page, DK Eyewitness Travel Guide: Southwest USA & National Parks truly shows you this region as no one else can.

The Nutshell Studies of Unexplained Death CRC Press

When a young nurse, SARA DAUTRY, hears about the murder of her Catholic priest, FATHER JACOBS, she wonders who would want to harm such a kind, generous person. Stricken with grief, she lost more than just her priest that day; she lost her father. When her biological father died before she was born, he stepped in and assumed the role as her father, a surrogate father. She knew she could always depend on him to be there for her-and he was. After rushing to the crime scene, she discovers that her foster brother, VINCE ROBERTS, has been arrested for the murder. Given his mental condition, Asperger's, and his incapability to even harm a bug, she refuses to believe he committed the crime. What does she do to help him get exonerated? She implores her friends from nursing school to help her identify the true killer by traveling back, via hypnosis, to the time and place of the murder. However, she will soon regret it. When three of her friends end up dead, she thinks the deaths are related to their hypnotic experiences. But she doesn't let that stop her. Determined to free Vince, she continues her search for the killer. When she finds a miniature replica of Vincent van Gogh's painting *The Diggers* in Father Jacobs's hand, she thinks it's a clue. This, along with a secret she discovers about the Shroud of Turin, causes her to think that the Vatican had something to do with the murder. To pursue their involvement further, she goes to Italy. The trip will soon prove to be more than what she expects when it jeopardizes her life. To make matters worse, the FBI wants her dead. When FBI Director FRANK JOHNSON finds out about her plan to use hypnosis to reveal the murderer's identity, her life-as well as the lives of her friends and family-is again in danger. To prevent the truth about the murder from reaching the public, causing mass hysteria, Johnson devises a plan to stop her by using weather manipulation. To help him with his plan, he recruits Special Agent CARTWRIGHT KILKENNY. But his plan goes awry when the CIA gets involved. CIA Director LARRY PRICE doesn't like weather manipulation to be used on innocent civilians. When the Vatican learns that weather manipulation was used to hide evidence at the crime scene, they think the U.S. government was behind the murder. To prevent another civil war and a possible war with the Vatican, Price conducts his own investigation into the murder. With the help of his agent JASON LUNSFORD, Price discovers the extent of the FBI's involvement-and it's not ethical.

Immersion Travel USA Rowman & Littlefield

All too often, the weakest link in the chain of criminal justice is the crime scene investigation. Improper collection of evidence blocks the finding of truth. Now in its second edition, *Practical Crime Scene Processing and Investigation* presents practical, proven methods to be used at any crime scene to ensure that evidence is admissible and persuasive. Accompanied by more than 300 color photographs, topics discussed include: Understanding the nature of physical evidence, including fingerprint, biological, trace, hair and fiber, and other forms of evidence Actions of the responding officer, from documenting and securing the initial information to providing emergency care Assessing the scene, including search considerations and dealing

with chemical and bioterror hazards Crime scene photography, sketching, mapping, and notes and reports Light technology and preserving fingerprint and impression evidence Shooting scene documentation and reconstruction Bloodstain pattern analysis and the body as a crime scene Special scene considerations, including fire, buried bodies, and entomological evidence The role of crime scene analysis and reconstruction, with step-by-step procedures Two appendices provide additional information on crime scene equipment and risk management, and each chapter is enhanced by a succinct summary, suggested readings, and a series of questions to test assimilation of the material. Using this book in your investigations will help you find out what happened and who is responsible.

The Scene of the Crime National Geographic Books

The Nutshell Studies of Unexplained Death offers readers an extraordinary glimpse into the mind of a master criminal investigator. Frances Glessner Lee, a wealthy grandmother, founded the Department of Legal Medicine at Harvard in 1936 and was later appointed captain in the New Hampshire police. In the 1940s and 1950s she built dollhouse crime scenes based on real cases in order to train detectives to assess visual evidence. Still used in forensic training today, the eighteen Nutshell dioramas, on a scale of 1:12, display an astounding level of detail: pencils write, window shades move, whistles blow, and clues to the crimes are revealed to those who study the scenes carefully. Corinne May Botz's lush color photographs lure viewers into every crevice of Frances Lee's models and breathe life into these deadly miniatures, which present the dark side of domestic life, unveiling tales of prostitution, alcoholism, and adultery. The accompanying line drawings, specially prepared for this volume, highlight the noteworthy forensic evidence in each case. Botz's introductory essay, which draws on archival research and interviews with Lee's family and police colleagues, presents a captivating portrait of Lee.

DK Eyewitness Travel Guide Southwest USA and National Parks Rutgers University Press

Russia Business and Investment Opportunities Yearbook Volume 2 Leading Export-Import, Business, Investment Opportunities and Projects

Adolescents, Crime, and the Media Penguin

A campus shooting. A gang assault. A school bus ambush. With each successive event, fingers are pointed at the usual suspects: violent films, bloody video games, explicit web sites. But to what extent can—or should—the media be implicated in youth crime? And are today's sophisticated young people really that susceptible to their influence? *Adolescents, Crime, and the Media* critically examines perceptions of these phenomena through the lens of the ongoing relationship between generations of adults and youth. A wealth of research findings transcends the standard nature/nurture debate, analyzing media effects on young people's behavior, brain development in adolescence, ways adults can be misled about youth's participation in criminal acts, and how science can be manipulated by prevailing attitudes toward youth. The author strikes a necessary balance between the viewpoints of media providers and those seeking to restrict media or young people's access to them. And the book brings scientific and intellectual rigor to culturally and politically charged issues as it covers: Violence in the media. Media portrayals of crime and youth. Research on violent television programs, video games, and other media as causes of crime. Effects of pornography on behavior. Public policy, censorship, and First Amendment issues. *Adolescents, Crime, and the Media* is an

essential resource for researchers, graduate students, professionals, and clinicians across such interrelated disciplines as developmental psychology, sociology, educational policy, criminology/criminal justice, child and school psychology, and media law.

Murder In The Marsh Lulu.com

The second edition of "Murder in California: The Topography of Evil" is Marques Vickers' visual return to 108 infamous crime scenes detailing the shocking and often searing narratives behind each tragedy. Over 225 images amplify insight by escorting the reader to the crime location, offering a critical context and perspective for understanding. The captured snapshots portray visual testimonies of extinguished lives removed by acts of violence. Crime scenes often revert back into unremarkable landscape or unassuming buildings over the ensuing years and decades. Several have altered little since their moment of infamy. Many are passed daily by pedestrian and vehicular traffic unaware of a location's unique significance. California has been the residence for many notorious profiled individual and serial killers including the Zodiac, Ted Unabomber Kaczynski, Charles Manson, Sirhan Sirhan, Jim Jones, Richard Allen Davis, David Carpenter, The Menendez Brothers, Juan Corona, Rodney Alcala, Phil Spector, Dan White, Juan Corona, Richard Ramirez and Scott Peterson. The media has christened some monikers including the Trailside Killer, Children of Thunder, Co-ed Killer, Vampire of Sacramento, Zebra Killers and the Death House Landlady. The state has been the death site of notable victims including Senator Robert Kennedy, San Francisco Mayor George Moscone, Supervisor Harvey Milk, Mobster Bugsy Siegel, Black Panther Huey P. Newton, Journalist Chauncey Bailey, Nicole Simpson-Brown, Rapper Notorious B.I.G., Polly Klaas, Lacy Peterson, the Heaven's Gate cult, singers Marvin Gaye, Sam Cooke and actors Haing Ngor, Ramon Novarro and Sal Mineo. The Murder in California edition profiles are segmented into nine categories including assassinations, abductions, historical legacies, reckless homicides, chance encounters and manslaughters, law enforcement fatalities and controversies, unsolved murders, rampage and serial killers. Within the context of examining each profile, many important issues and questions are raised without necessarily culminating in resolution. These include capital punishment, racial perceptions, contributing parental influences, media reporting, public opinion, juvenile sentencing, self-incrimination protections and the impartiality of our judicial system. An extensive and updated listing of fatality victims is included along with convicted and deceased killers. Each living convict still registered within the United States penal systems is identified by their current penitentiary residence. Vickers' own introduction to the consequences of murder began with the 1968 killings of David Faraday and Betty Lou Jensen by the Zodiac killer in the author's hometown. Faraday was an acquaintance of Vickers through Boy Scouts and his older sister knew both victims. His reflections on the trauma inflicted on his intimate suburban community correspond with the realization that a single homicide affects far more individuals than simply the victim. Hundreds and often thousands may be touched by the arbitrariness and unfairness of life being terminated abruptly and prematurely. Cases Profiled (By Sequential Order and Category): Assassinations: Oakland School Superintendent Dr. Marcus Foster, Mobster Bugsy Siegel, Journalist Chauncey Bailey, Mickey and Trudy Thompson, San Francisco Mayor George Moscone and Supervisor Harvey Milk, Rapper Christopher Wallace (Notorious B.I.G.), The Marin County Courthouse Shootout Massacre, Senator Robert F. Kennedy, Hitman Joseph The Animal Barboza, Vic Weiss and the Wonderland Gang. Abductions: Patty Hearst, Nicholas Markowitz, Brooke Hart, The Onion Field Killings, Polly Klaas,

Ramona Irene Price, Cal Poly Student Kristin Smart, Kevin Collins, Rachel Newhouse, Aundria Crawford and Karen Mitchell. Historical Legacies: Fung Little Pete Jing Toy, Charles Crawford, US President Warren Harding, Ned Doheny and Hugh Plunkett, Mary Ellen Pleasant, Orcutt Freeway Sniper, Miles Archer and Eastside Salinas Gang Killings. Chance Encounters and Manslaughter Killings Ennis Cosby, Diane Whipple, Haing Ngor, Huey P. Newton, Johnny Stompanato, Barbara Graham, Marvin Gaye, Phil Hartman, Phil Spector, Ramon Novarro, Ronni Chasen, Sal Mineo, Sam Cooke and Father Eric Freed. Unsolved Murders: The Black Dahlia, Lindsay Cutshall and Jason Allen, Bob Domingos and Linda Edwards, Santa Rosa Hitchhiker Murders, Crips Gang Founder Raymond Washington, David Nadel, Geneva Ellroy, Virginia Rapp, Kym Morgan, William Desmond Taylor, Ted Healy and the Visalia Ransacker. Rampage Mass Murders: Elliot Rodger, The Helzer Brothers, Bruce Pardo, The 101 California Building Rampage, John Linley Frazier, Edward Charles Allaway, Golden Dragon Restaurant, Meritage Salon, John Kenney, Frederick Martin Davidson, Lynwood Jim Drake, High School student Andy Williams, Oikos University Shootings, Nicolas Holzer, the Cleveland Elementary Schools in San Diego and Stockton and Marcus Wesson. Premeditated Murders: Playboy Playmate Dorothy Stratten, Laci Peterson, John Morency, Artie Mitchell, Nicole Brown-Simpson, Menendez Brothers, Bonnie Lee Bakley, Vincent Brothers, Marin County Barbeque Killings and Ewell Family Executions. Law Enforcement Fatalities and Controversies Captain Walter Auble. Oscar Grant III, Newhall CHP Massacre, Office Thomas Guerry, Oakland Macarthur Boulevard Shooting, Demetrius DeBose, Policeman Matthew Pavelka and the North Hollywood Bank of America Shootout. Serial Killings: Zodiac Killer, Charles Manson, Dorothea Puente, Efren Saldivar, Ted Unabomber Kaczynski, The Two Night Stalkers, The Zebra Killings, Heaven's Gate Suicide, Edmund Kemper III, Lawrence Bittaker and Roy Norris, Juan Corona, Richard Trenton Chase, Speedfreak Killers, Herbert Mullin, David Carpenter, Reverend Jim Jones and the People's Temple Massacre, Hillside Strangler and Rodney Alcala.

GIS and Crime Mapping Springer Science & Business Media

An annotated guide to atmospheric mysteries organized by country allows the traveling reader total immersion in the culture, people, and attractions of a place.

Murder Maps St Martins Press

Come aboard as the author takes you from his early childhood living in Miami before and during WWII to his years hopping among several grammar schools in the eastern United States. He served almost eight years in the US Navy Submarine Service. His description of life on long isolated sixty- to seventy-two-day deterrent Fleet Ballistic Missile (FBM) submarine patrols will give you an appreciation for the sacrifices still being made today by our US Navy Silent Service warriors. This autobiographical journey concludes with the author's transition to civilian life and a successful career living in the Washington, DC, area raising a family. The book is filled with over a hundred images illustrating the narrative. This is a must read for any military veteran or history buff.

Murder on the Mountain White Sage Press

Even after more than two centuries, mystery continues to surround Meriwether Lewis's death—did the famous explorer commit suicide or was he murdered? Recently revealed truths and deconstructed myths are woven together in this fascinating account to form an unforgettable tale of political corruption, assassins, forged documents, and skeletal remains. New research implicating General James Wilkinson—commanding general of the U.S. Army and coconspirator of Aaron Burr—as the assassin is thoroughly discussed, while riveting testimony from 13 leading

experts in wound ballistics, forensic anthropology, suicide psychology, grave-site exhumation, and handwriting analysis offers new insight into what Lewis's exhumed remains might reveal. The new evidence not only destroys the foundation of suicide arguments by proving the primary evidence is a forgery, it also proves the Indian Agent escorting Lewis lied about his activities on the day of Lewis's death. The book also contains

evidence of a previously unknown plot by Aaron Burr to seize New Orleans and invade Mexico in 1809, a repeat of his 1806 plot. It explains why Lewis suddenly changed his plans to travel to Washington, DC, by boat, and instead chose to go overland on the Natchez Trace, where he met his untimely death on October 11, 1809, at age 35.
