While physics can seem*

challenging, its true
quality is the sheer
simplicity of fundamental
physical theories--theories
and concepts that can
enrich your view of the

world around you. COLLEGE PHYSICS, Tenth Edition, provides a clear strategy for connecting those theories to a consistent problem-solving approach, carefully reinforcing this methodology throughout the text and connecting it to real-world examples. For students planning to take the MCAT exam, the text includes exclusive test prep and review tools to help you prepare. Holt McDougal Physics Brooks Cole ESSENTIALS OF COLLEGE PHYSICS provides a clear and logical presentation of the basic concepts and principles of physics without sacrificing any of the problem-solving support or conceptual understanding you will need. The powerful and interactive PhysicsNow™ is an online resource that uses a series of chapter-specific diagnostics to gauge your unique study needs, then provides a

Personalized Learning Plan that maximizes your study time by focusing on the concepts you need to review most. PhysicsNow™ also allows you to access Personal Tutor with SMARTHINKING, a live web-based tutoring service. Personal Tutor with SMARTHINKING features two-way audio, an interactive whiteboard for displaying presentation materials, and instant messaging for easy communication with your personal tutor. **Physics for Scientists**

PHYSICS FOR SCIENTISTS

AND ENGINEERS reveals the beauty and simplicity of physics while highlighting its essential role in other disciplines, from engineering to medicine. This proven text features the Serway hallmarks of concise writing, carefully thought-out problem sets, world class worked examples, and leading-edge educational pedagogy. With the Seventh Edition, authors Raymond A. Serway and John W. Jewett, Jr. build upon this strong foundation by carrying that high

standard to the book's carefully integrated technology package, perfectly tailored to support any course design. All end-of-chapter problems, worked examples, and quick quizzes are available in Enhanced WebAssign (with hints and feedback formulated to foster student learning), allowing instructors to securely create and administer homework assignments in an interactive online environment. For instructors utilizing

classroom response technology, a complete suite of PowerPoint-formatted questions designed to support all levels of users, from amateur through advanced, is available to support the clicker software of your choosing. The result is the most complete course solution you will find; and one that is scalable to meet your and your students' unique needs. As a market leader, PHYSICS FOR SCIENTISTS AND ENGINEERS is one of the most powerful brands in the physics market. However, rather than

resting on that reputation, the new edition of this text marks a significant advance in the already excellent quality of the book. While preserving concise language, state of the art educational pedagogy, and top-notch worked examples, the Eighth Edition features a unified art design as well as streamlined and carefully reorganized problem sets that enhance the thoughtful instruction for which Raymond A. Serway and John W. Jewett, Jr. earned their reputations.

Likewise, PHYSICS FOR SCIENTISTS AND ENGINEERS, will continue to accompany Enhanced WebAssign in the most integrated text-technology offering available today. In an environment where new Physics texts have appeared with challenging and novel means to teach students, this book exceeds all modern standards of education from the most solid foundation in the Physics market today.
