In an age of myriad computer fonts and instant communication, your handwriting style is increasingly a very personal creation. In this book, Margaret Shepherd, America's premier calligrapher, shows you that calligraphy is not simply a craft you can learn, but an elegant art form that you can make your own. Calligraphy remains perennially popular, often adorning wedding invitations, diplomas, and commercial signs. Whether it is Roman, Gothic, Celtic, Bookhand, or Italic style, calligraphy conveys class and elegance. Margaret Shepherd makes this ancient art form accessible in a completely hand-lettered technical guide that will: \* Provide context for calligraphy as an art, exploring the rich tradition of hand-lettering and mapping the evolution of the most popular styles. \* Give detailed technical advice on choosing pens, paper, and inks, setting up your workspace, mastering various pen angles, along with step-by-step illustrations to guide you as you practice. \* Explain which alphabets are appropriate for different forms of writing. For example, the Roman alphabet works well for short, unpunctuated passages, while the Italic alphabet is more suited to informal everyday communication. \* Encourage you to personalize your lettering by using variant strokes and interpreting how you would like the words to look on the page. \* Inspire you with carefully chosen illustrations and examples, which bring letters to life. In Margaret Shepherd's own words, "Calligraphy trains not only your eye and hand, but your mind as well." Learn Calligraphy is the authoritative primer for this age-old craft, and will help develop a new appreciation for lettering as you discover your creative personality.

Discover How to Make Amazing Calligraphy in Just One Day with This Easy to Use Guide\*\*\*\*  
Included: Beautiful Designs with Step by Step Instructions and Illustrations \*\*\*\* Calligraphy is one of the most fluid forms of art today. Typographers and iconographers as well as calligraphers use letters as a way of driving a point home more than just through the word itself, but through the way the word impacts you. Once you start looking at the way that words are made up, you'll begin

to see the many ways that you can change them to have a bigger effect on the viewer. This is true of everything from invitations you send out to art you create for display. Words have specific meanings, but the way that a word is viewed versus heard can affect how it's perceived. Calligraphy allows you to subtly enhance each letter, putting in different flourishes, curls, and lines. You can even add small pictures inside the words or letters to make each one a true type of art. Even when you perfect your calligraphy, it's still very difficult to get all your letters to look exactly the same each and every time. Small differences work their way in, which is part of what makes the finished effect so beautiful. To get the same effect out of a font, you'd have to go into each letter and warp it slightly, and even then you wouldn't quite achieve the beauty that comes from working with your hands. Of all the art forms that I've studied and used over the years, calligraphy is one of the most under appreciated. As I began looking at different fonts to

reproduce, I realized that what I was looking for was calligraphy. A beautiful, elegant way to express letters and words by hand on any media from cardstock to wood. It didn't take me long to realize that calligraphy allowed me to personalize things far more than using a computer font or a sticker ever could. I hope that you find similar uses for this art form once you begin as well.
