Strengthening readers' connection to geography through active, discovery-

based learning Trusted for its timeliness, readability, and sound pedagogy, The Cultural Landscape: An Introduction to Human Geography emphasises the relevance of geographic concepts to human challenges. The relationship between globalisation and diversity is woven throughout; Rubenstein addresses these themes with a clear organisation and presentation that engages students and appeals to instructors. The 12th Edition challenges readers to apply geography tools and techniques to their local environments, bridging the global and the local, and getting students to interact with their local geography. New applied activities and debate features as well as integration of BBC videos into eText 2.0, further strengthens readers' ties to the

geography all around them.

AP Human Geography 2020 and 2021 Study Guide Princeton Review

The rise of critical discourses in the discipline of geography has opened up new avenues for social justice. *Geography and Social Justice in the Classroom* brings together contemporary research in geography and fresh thinking about geography's place in the social studies curriculum. The book's main purposes are to introduce teachers and teacher educators to new research in geography, and to provide theoretical and practical examples of geography in the curriculum. The book begins with the premise that power and inequality often have spatial landscapes. With the tools and concepts of geography, students can develop a critical geographic literacy to explore the spatial expressions of power in their lives, communities, and the wider world. The first half of the book

introduces new research in the field of geography on diverse topics including the social construction of maps as instruments of power and authority. The second half of the book turns the readers' attention to geography in the P-12 classroom, and it highlights how geography can enable teachers and students to explore issues of power and social justice in the classroom. Through critical geographic literacy, educators can boldly position themselves and their students as advocates for a more just world.

Supplement your social studies curriculum with 180 days of daily geography practice! This essential classroom resource provides teachers with weekly geography units that build students' geography knowledge, and are easy to incorporate into the classroom.

In a world that is becoming more connected and globalized, 21st century students must have the skills necessary to understand their world and how geography affects them and others. Students will develop their map and spatial skills, learn how to answer text- and photo-dependent questions, and study the 5 themes of geography. Each week covers a particular topic and introduces students to a new place or type of map. The first two weeks consist of a mini-unit that focuses entirely on map skills. For additional units, students will study various places, and how culture and geography are related. With a focus on US states, students will explore various types of maps including physical maps, political maps, topographic maps, thematic maps,

climate maps, and various topics including scale, legends, cardinal directions, latitude and longitude, and more. Aligned to state standards and National Geography Standards, this resource includes digital materials.

Your map to human geography.

Contemporary Human Geography is a modular springboard into essential human and cultural geography concepts, designed for the modern geography reader. This brief, innovative text explores contemporary human geography with a bold, visual style, with topics organized into self-contained, two-page spreads. Rubenstein's efficient writing presents information clearly without sacrificing high-quality content. The 4th Edition offers new MapMaster 2.0, which is inspired by GIS and leverages recent data from the US

Census Bureau, UN, CIA, World Bank, PRB, NOAA, NASA, USGS, and more. It enables readers to analyze and critically think about data through the visualization of mapping. This can help individuals connect critical, global issues to their local geography, addressing key concepts. With thousands of maps to explore, and the ability to upload their own data, readers can fully engage with the content. For courses in human geography. Pearson eText allows educators to easily share their own notes with students so they see the connection between their reading and what they learn in class - motivating them to keep reading, and keep learning. Portable access lets students study on the go, even offline. And, student usage analytics offer insight into how students

use the eText, helping educators tailor their instruction. NOTE: This ISBN is for the Pearson eText access card. For students purchasing this product from an online retailer, Pearson eText is a fully digital delivery of Pearson content and

should only be purchased when required by your instructor. In addition to your purchase, you will need a course invite link, provided by your instructor, to register for and use Pearson eText.
