The Making of Asian America e-artnow

From celebrated historian John Ferling, the underexplored history of the second half of the Revolutionary War, when, after years of fighting, American independence often seemed beyond reach. It was 1778, and the recent American victory at Saratoga had netted the U.S a powerful ally in France. Many, including General George Washington, presumed France's entrance into the war meant independence was just around the corner. Meanwhile, having lost an entire army at Saratoga, Great Britain pivoted to a "southern strategy." The army would henceforth seek to regain its southern colonies, Virginia, North Carolina, South Carolina, and Georgia, a highly profitable segment of its pre-war American empire. Deep into 1780 Britain's new approach seemed headed for success as the U.S. economy collapsed and morale on the home front waned. By early 1781, Washington, and others, feared that France would drop out of the war if the Allies failed to score a decisive victory that year. Sir Henry Clinton, commander of Britain's army, thought "the rebellion is near its end." Washington, who had been so optimistic in 1778, despaired: "I have almost ceased to hope." Winning Independence is the dramatic story of how and why Great Britain--so close to regaining several southern colonies and rendering the postwar United States a fatally weak nation ultimately failed to win the war. The book explores the choices and decisions made by Clinton and Washington, and others, that ultimately led the French and American allies to clinch the pivotal victory at Yorktown that at long last secured American independence.

How I Escaped the 9-5 Rat Race e-artnow

After the Humiliating Defeat at Yorktown in 1781, George III Vowed to Keep Fighting the Rebels and Their Allies Around the World, Holding a New Nation in the Balance Although most people think the American Revolution ended with the British surrender at Yorktown, Virginia, on

October 19, 1781, it did not. The war spread around the world, and exhausted men kept fighting--from the Arctic to Arkansas, from India and Ceylon to Schenectady and South America--while others labored to achieve a final diplomatic resolution. After Cornwallis's unexpected loss, George III vowed revenge, while Washington planned his next campaign. Spain, which France had lured into the war, insisted there would be no peace without seizing British-held Gibraltar. Yet the war had spun out of control long before Yorktown. Native Americans and Loyalists continued joint operations against land-hungry rebel settlers from New York to the Mississippi Valley. African American slaves sought freedom with the British. Soon, Britain seized the initiative again with a decisive naval victory in the Caribbean against the Comte de Grasse, the French hero of Yorktown. In *After Yorktown: The Final Struggle for American Independence*, Don Glickstein tells the engrossing story of this uncertain and violent time, from the remarkable American and French success in Virginia to the conclusion of the fighting--in India--and then to the last British soldiers leaving America more than two years after Yorktown. Readers will learn about the people--their humor, frustration, fatigue, incredulity, worries; their shock at the savage terrorism each side inflicted; and their surprise at unexpected grace and generosity. Based on an extraordinary range of primary sources, the story encompasses a fascinating cast of characters: a French captain who destroyed a British trading post, but left supplies for Indians to help them through a harsh winter, an American Loyalist releasing a captured Spanish woman in hopes that his act of kindness will result in a prisoner exchange, a Native American leader caught "between two hells" of a fickle ally and a greedy enemy, and the only general to surrender to both George Washington and Napoleon Bonaparte. Finally, the author asks the question we face today: How do you end a war that doesn't want to end?

'Honour' BRILL

This volume brings together the practical insights and experiences of individuals and organisations working in diverse regions and contexts to combat 'crimes of honour'. Authors examine strategies of response to such manifestations of violence against women, focusing largely on 'honour killings' and interference with the right to choice in marriage, and the related use and legal treatment of the defence of 'honour' and 'provocation' in different countries of Europe, the Middle East, Latin America and South Asia. This timely volume is distinctive in approach and

content, highlighting activist and practice-orientated academic perspectives from both the South and the North. The authors give voice to the struggle to locate 'crimes of honour' firmly within the international framework of violence against women and human rights, rather than positioning these abuses as specific to particular cultures or communities. The first of its kind, this book serves as a resource in addressing 'honour crimes' and, more broadly, violence against women, and will be of interest to a multi-disciplinary academic audience as well as to lawyers, policy-makers and activists.

An outcast even among her fellow Africans, she is on the cusp of womanhood--where greater pain awaits. And so when Caesar, a slave who has recently arrived from Virginia, urges her to join him on the Underground Railroad, she seizes the opportunity and escapes with him. In Colson Whitehead's ingenious conception, the Underground Railroad is no mere metaphor: engineers and conductors operate a secret network of actual tracks and tunnels beneath the Southern soil. Cora embarks on a harrowing flight from

one state to the next, encountering, like Gulliver, strange yet familiar iterations of her own world at each stop. As Whitehead brilliantly re-creates the terrors of the antebellum era, he weaves in the saga of our nation, from the brutal abduction of Africans to the unfulfilled promises of the present day. The Underground Railroad is both the gripping tale of one woman's will to escape the horrors of bondage--and a powerful meditation on the history we all share.

Neighboring small towns, Coon Creek and Golden Springs, Ohio, enter their own little war, and may never be the same after the coming Fourth of July celebration. Coon Creek, a conservative, industrial, blue-collar town, has seen better days. Golden Springs is home to Antaeus College, a private institution with a tradition of liberal politics. No love lost between those two. Mazie Tuttle, a professional dog walker, knows both towns well. Born and raised in Coon Creek, she enrolls in the Antaeus College summer literary program being taught by the famous radical novelist and pie lover, Roscoe Alolo. As tensions flare between the two towns over a statue of Coon Creek's founding father standing in the town's square, one act of vandalism follows another, and Mazie increasingly feels caught in the middle of the hostilities. Groups in both towns plot to disrupt the other's Fourth of July celebration. On one side, the schemers include Mazie's brother, her ex-boyfriend turned drug dealer, and a Methodist minister who's running for mayor. On the other, Professor Alolo urges his class to take action to "liberate" Coon Creekers. Sooner or later, Mazie will have to take a side. She just doesn't know which she'll choose. The September 2014 Scottish independence referendum was an event of profound constitutional and political significance, not only for Scotland, but for the UK as a whole. Although Scottish

voters chose to remain in the UK, the experience of the referendum and the subsequent political reaction to the 'No' vote that triggered significant reforms to the devolution settlement have fundamentally altered Scotland's position within the Union. The extraordinary success of the Scottish National Party at the 2015 General Election also indicates that the territorial dimension to UK constitutional politics is more prominent than ever, destabilising key assumptions about the location and exercise of constitutional authority within the UK. The political and constitutional implications of the referendum are still unfolding, and it is by no means certain that the Union will survive. Providing a systematic and academic analysis of the referendum and its aftermath, this interdisciplinary edited collection brings together public lawyers, political scientists, economists, and historians in an effort to look both backwards to, and forwards from, the referendum. The chapters evaluate the historical events leading up to the referendum, the referendum process, and the key issues arising from the referendum debate. They also explore the implications of the referendum both for the future governance of Scotland and for the UK's territorial constitution, drawing on comparative experience in order to understand how the constitution may evolve, and how the independence debate may play out in future.

"Bill Bowen's powerful insights into the principles and practices of institutional governance make his new book 'must reading' for all board members." —H. B. Atwater, Jr. Chairman of the Board and CEO General Mills, Inc. "The 'old boys' club' of the boardroom no longer works as companies and organizations re-engineer for the global challenge. Dr. Bowen's thoughtful and incisive analysis of issues and his prescriptions for good governance are must reading for all responsible board members." —W. Michael Blumenthal Former Secretary of the Treasury and Limited Partner, Lazard Freres & Co. "This thoughtful, lively, and well-written comparison of the many similarities and striking differences in the governance of not-for-profit and for-profit corporations is a unique resource from which both sectors will benefit.... This valuable book, and in particular its twenty 'presumptive norms' to govern how boards function, will certainly establish a new and important agenda for management and directors." —Helene L. Kaplan Skadden Arps Slate

Meagher & Flom "Dr. Bowen brings to Inside the Boardroom unusual qualifications: a distinguished economist who has served as university president, foundation executive, and [as a member of] several for-profit and nonprofit boards of directors. From this varied experience he combines scholarship with corporate reality in ways which provide wisdom, insight, and guidance as to how boards should work and how in fact they do work, and what they can and cannot contribute to management. Best of all, he does so in a thoroughly readable way." —Nicholas Katzenbach, Partner Riker, Danzig, Scherer, Hyland and Perretti Former United States Attorney General Former Senior Vice President and General Counsel, IBM Corporation "This superb study rests on Bowen's extensive experience of both corporate and nonprofit boards and his personal qualities of lucidity, perceptiveness, intellectual acuity, and fair-mindedness. Readable, fresh, jargon-free, and thoughtful, the book is a gem." —Richard W. Lyman President Emeritus, The Rockefeller Foundation President Emeritus, Stanford University "William Bowen is the finest example of America's meritocracy. He rose, by ability and wisdom, from Main Street to the highest counsel of business and philanthropy while gaining along the way admiration for scholarly innovations as an economist and leadership as President of Princeton University. In this short book he addresses—from experience and with analytical precision—the vital problem of how outside directors might help improve governance of business corporations and non-profit institutions. Read. Ponder." —Paul A. Samuelson Nobel Laureate in Economics Department of Economics, M.I.T.

The Constraints of Desire Hachette UK War is an armed conflict between states or nations. The causes of war may be ideological, political, racial, economic, or religious. War has been a feature of history. The use of fighting forces requires strategy and tactics. Efforts to end war have all failed, including the League of Nations and the United Nations. The laws of war are not recognized. There has been no success in leaving out the civilian population in any war. The biblical concept of war required that God declare the war. The LORD hath sworn that the LORD will have war from generation to generation (Exod. 17:16). The book of the wars of the LORD (Num. 21:14). Our fight against radical Islam is a fight for LORDS battles (1 Sam. 18:7). Our holy war is against murder, terrorists, the rise of ISIS and forty-four known terrorist groups, and a

vanishing freedom. It is now fight or die! *Governance by Directors and Trustees* Yale University Press
