Grammar by Diagram, second edition is a book designed for anyone who wishes to improve grammatical understanding and skill. Using traditional sentence diagramming as a visual tool, the book explains how to expand simple sentences into compound, complex, and compound-complex sentences, and how to employ verbals (infinitives, gerunds, and participles) and other structures for additional variety. The text addresses the most frequent usage errors by explaining how to distinguish between adjectives and adverbs; how to avoid problems of pronoun case, agreement, and consistency; how to ensure that verbs will agree with their subjects and will be appropriate in terms of tense, aspect, voice, and mood; and how to phrase sentences to avoid errors in parallelism or placement of modifiers. Six appendices incorporate further exercises, a summary of key basics from the text, and supplemental material not included in the body of the text but useful for quick reference. This new edition includes additional exercises and has been revised and updated throughout.

Here's the one-minute description of TQW: You have a Big Question of some kind. You know it's a Big Question because it's keeping you up at night, the outcome is important, and you don't have a ready answer. There are four stages you need to go through to answer a Big Question. I don't know where you are in the process; so let me describe the four stages. The first stage involves fully understanding your situation and your motives for wanting to resolve the question that comes from being in that situation. The second stage involves separating yourself from the situation you are in. You cannot resolve a situation if you see yourself as part of it. You have to gain perspective by separating yourself from your situation in as many ways as possible. The third stage involves letting go of something that keeps you attached to, and subject to, the situation you are in. Something is holding you back. Some fear, some projection of implications, some belief about what is possible and what is not possible. Something. As long as you hold onto these things they will hold you back. Fourth, you need to perceive new possibilities for resolving your Big Question. For various reasons, you are not able to see alternative resolutions today. You need to reframe your question in a way that will enable you to apply the substantial resources you have to address each and every part of

the question. If you have a Big Question, you are stuck at one of those four stages. At which stage are you stuck? McClellan provides a complete roadmap for getting from the question you have to the question you need to answer. Dither no longer. Commit to the Total Question Workout. Address the Big Question you need to answer to take charge of running your business or your life. You can move forward. But first, you have to take the next step.
