THE WARNING! In the early days of the world lived the patriarch Noah, a good and venerable man whose years already numbered six hundred. Now Noah was warned that a great flood was to come, which would pour down from the clouds and drown the whole earth. He straightway told his neighbors what was to happen, but they refused to believe, and scoffed at him, and said: "Let it rain." BUILDING THE ARK: Then Noah went his way, and set to work to build him a great ship, to be ready for the day of deluge. And he laid the keel in the pasture fields, among the daisies; while the idlers came to look on and laugh at such folly—a ship for a rainy day!

So He destroyed all living things which were on the face of the ground: both man and cattle, creeping thing and bird of the air. They were destroyed from the earth. Only Noah and those who were with him in the ark remained alive. Genesis 7:22-24 Could a ship be constructed that would be able to survive the global flood described in biblical book of Genesis? Could it be built without the modern techniques of today being available to Noah? This groundbreaking book answers both of these questions with a resounding "yes"! Join naval expert and mechanical engineer Tim Lovett in "thinking outside the box" as you consider groundbreaking research in this innovative new study on Noah's ark. Lovett builds on traditional research into this historic event using the latest techniques in computer modeling and testing. Includes insight and context by pioneering creationist researcher, Dr. John Whitcomb. Unveils a new ark design based on biblical information and shipbuilding principles Beautiful illustrations and photos reveal facets of design and construction techniques Remaining faithful to the biblical dimensions, Lovett's updated design, similar to that of ancient sailing vessels, is based on established principles in ship design and cutting-edge research. A timeless, little-known literary classic to engage a new generation of readers As the Black Death ravaged London in 1608, in the midst of societal chaos and tragedy, playwright Thomas Dekker wrote Four Birds of Noah's Ark, a book containing fifty-six prayers for the people of London and all of England. The prayers in this book bear witness to Dekker's deep faith with a power and poignancy that few written prayers in English literature achieve. Bringing Dekker's devotional classic back into print for the first time since 1924, editor Robert Hudson has annotated the prayers and modernized their language without sacrificing their enchanting beauty and simplicity. Hudson's substantive and illuminating introduction is a gem in itself.
