**NEW YORK TIMES BESTSELLER** • A searing, deeply moving memoir of illness and recovery that traces one young woman's journey from diagnosis to remission to re-entry into "normal" life—from the author of the Life, Interrupted column in The New York Times **ONE OF THE BEST BOOKS OF THE YEAR: The New York Times Book Review, The Washington Post, Bloomberg, The Rumpus, She Reads, Library Journal, Booklist** • "I was immersed for the whole ride and would follow Jaouad anywhere. . . . Her writing restores the moon, lights the way as we learn to endure the unknown."—Chanel Miller, The New York Times Book Review "Beautifully crafted . . . affecting . . . a transformative read . . . Jaouad's insights about the self, connectedness, uncertainty and time speak to all of us."—The Washington Post In the summer after graduating from college, Suleika Jaouad was preparing, as they say in commencement speeches, to enter "the real world." She had fallen in love and moved to Paris to pursue her dream of becoming a war correspondent. The real world she found, however, would take her into a very different kind of conflict zone. It started with an itch—first on her feet, then up her legs, like a thousand invisible mosquito bites. Next came the exhaustion, and the six-hour naps that only deepened her fatigue. Then a trip to the doctor and, a few weeks shy of her twenty-third birthday, a diagnosis: leukemia, with a 35 percent chance of survival. Just like that, the life she had imagined for herself had gone up in flames. By the time Jaouad flew home to New York, she had lost her job, her apartment, and her independence. She would spend much of the next four years in a hospital bed, fighting for her life and chronicling the saga in a column for The New York

Times. When Jaouad finally walked out of the cancer ward—after countless rounds of chemo, a clinical trial, and a bone marrow transplant—she was, according to the doctors, cured. But as she would soon learn, a cure is not where the work of healing ends; it's where it begins. She had spent the past 1,500 days in desperate pursuit of one goal—to survive. And now that she'd done so, she realized that she had no idea how to live. How would she reenter the world and live again? How could she reclaim what had been lost? Jaouad embarked—with her new best friend, Oscar, a scruffy terrier mutt—on a 100-day, 15,000-mile road trip across the country. She set out to meet some of the strangers who had written to her during her years in the hospital: a teenage girl in Florida also recovering from cancer; a teacher in California grieving the death of her son; a death-row inmate in Texas who'd spent his own years confined to a room. What she learned on this trip is that the divide between sick and well is porous, that the vast majority of us will travel back and forth between these realms throughout our lives. *Between Two Kingdoms* is a profound chronicle of survivorship and a fierce, tender, and inspiring exploration of what it means to begin again.

Lucille Ball, Hollywood's first true media mogul, stars in this "bold" (The Boston Globe), "boisterous novel" (The New Yorker) with a thrilling love story at its heart—from the award-winning, bestselling author of *Chang & Eng* and *Half a Life* A WASHINGTON POST BEST BOOK OF THE YEAR • "A gorgeous, Technicolor take on America in the middle of the twentieth century."—Colson Whitehead, Pulitzer Prize-winning author of *The Nickel Boys* This indelible romance begins with a daring conceit—that the author's grandfather may have had an affair with Lucille Ball. Strauss offers a fresh view of a celebrity America loved more than any other. Lucille Ball—the most powerful woman in the history of Hollywood—was part of America's first high-profile interracial marriage. She owned more movie sets than did any movie studio. She more or less single-handedly created the modern TV business. And yet Lucille's off-camera life was in disarray. While acting out a happy marriage for millions, she suffered in private. Her partner couldn't stay faithful. She struggled to balance her fame with the demands of being a mother, a creative genius, an entrepreneur, and, most of all, a symbol. *The Queen of Tuesday*—Strauss's follow-up to *Half a Life*, winner of the National Book Critics Circle Award—mixes fact and fiction, memoir and novel, to imagine the provocative story of a woman we thought we knew.

"Jane Austen at Home offers a fascinating look at Jane Austen's world through the lens of the homes in which she lived and worked throughout her life. The result is a refreshingly unique perspective on Austen and her work and a beautifully nuanced exploration of gender, creativity, and domesticity."—Amanda Foreman, bestselling author of *Georgianna, Duchess of Devonshire* Take a trip back to Jane Austen's world and the many places she lived as historian Lucy Worsley visits Austen's childhood home, her schools, her holiday accommodations, the houses--both grand and small--of the relations upon whom she was dependent, and the home she shared with her mother and sister towards the end of her life. In places like Steventon Parsonage, Godmersham Park, Chawton House and a small rented house in Winchester, Worsley discovers a Jane Austen very different from the one who

famously lived a 'life without incident'. Worsley examines the rooms, spaces and possessions which mattered to her, and the varying ways in which homes are used in her novels as both places of pleasure and as prisons. She shows readers a passionate Jane Austen who fought for her freedom, a woman who had at least five marriage prospects, but—in the end—a woman who refused to settle for anything less than Mr. Darcy. Illustrated with two sections of color plates, *Lucy Worsley's Jane Austen at Home* is a richly entertaining and illuminating new book about one of the world's favorite novelists and one of the subjects she returned to over and over in her unforgettable novels: home. *Robot Friends, Fusion Energy, Pet Dinosaurs, and More!* William Morrow & Company

A rousing, funny, straight-talking, inspirational and generally awesome book from social entrepreneur Lucy Bloom, part memoir, part life-lessons, which urges us all to find our courage, take joy in life and celebrate our extraordinary ordinariness... Stirring, straight-talking, incredibly inspiring, funny and full-on - Lucy Bloom is one of a kind, and so is her memoir. Lucy's openhearted interest in the world has taken her from jillarooing on a cattle farm to maternity hospitals in Ethiopia, from marshalling a cross-country carnival in northern Uganda to CEO briefings in the back of a tuk-tuk in Cambodia. Hers has been a life of fighting for the underdog only to find out that, sometimes, the underdog is actually her. Taking all dramatic life-turns, side-steps and face-plants in her stride, Lucy has rebuilt her life every time, with love and adventure at its heart, plus a side order of mischief. Rollicking, rude, brimful with joy, and written with a take-no-prisoners, bare-all honesty, this book is a call to arms - a book to make you laugh out loud, nod your head in recognition, re-charge your life and let loose. 'My deepest wish is that reading this book makes you want to do cool stuff, make plans, launch that business, pack your bags, shave your head, ride that horse, date that hottie, apply for that job, chuck that party - and, most of all, get your girls out, whatever that means for you.' 'This memoir is so full of life and its ups and downs, you will start reading it again as soon as you finish. We are all richer for knowing Lucy.' Wendy Whiteley OAM 'Lucy tells powerful stories of human tenacity and love; she inspires all with her insight into the human spirit.' Bernard Salt AM

From the national spokesperson for Everytown for Gun Safety and a mother who “turned her sorrow into a strategy and her mourning into a movement” (Hillary Clinton) comes the riveting memoir of a mother's loss and call to action for common-sense gun laws. Lucia Kay McBath knew deep down that a bullet could one day take her son. After all, she had watched the news of countless unarmed black men unjustly gunned down. Standing Our Ground is McBath's moving memoir of raising, loving, and losing her son to gun violence, and the story of how she transformed her pain into activism. After seventeen-year-old Jordan Davis was shot by a man who thought the music playing on his car stereo was too loud, the nation grieved yet again for the unnecessary loss of life. Here, McBath goes beyond the timeline and the assailant's defense—Stand Your Ground—to present an emotional account of her fervent fight for justice, and her awakening to a cause that will drive the rest of her days. But more than McBath's story or that of her son, Standing Our Ground keenly observes the social and political evolution of America's gun culture. A must-read for anyone concerned with gun safety in America, it is a powerful and heartfelt call to action for common-sense gun legislation.

#1 NEW YORK TIMES BESTSELLER • PULITZER PRIZE FINALIST • This inspiring, exquisitely observed memoir finds hope and beauty in the face of insurmountable odds as an idealistic young neurosurgeon attempts to answer the question What makes a life worth living? NAMED ONE OF PASTE'S BEST MEMOIRS OF THE DECADE • NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The New York Times Book Review • People • NPR • The Washington Post • Slate • Harper's Bazaar • Time Out New York • Publishers Weekly • BookPage Finalist for the PEN Center USA Literary Award in Creative Nonfiction and the Books for a Better Life Award in Inspirational Memoir At the age of thirty-six, on the verge of completing a decade's worth of training as a neurosurgeon, Paul Kalanithi was diagnosed with stage IV lung cancer. One day he was a doctor treating the dying, and the next he was a patient struggling to live. And just like that, the future he and his wife had imagined evaporated. When *Breath Becomes Air* chronicles Kalanithi's transformation from a naïve medical student “possessed,” as he wrote, “by the question of what, given that all organisms die, makes a virtuous and meaningful life” into a neurosurgeon at Stanford working in the brain, the most critical place for human identity, and finally into a patient and new father confronting his own mortality. What makes life worth living in the face of death? What do you do when the future, no longer a ladder toward your goals in life, flattens out into a perpetual present? What does it mean to have a child, to nurture a new life as another fades away? These are some of the questions Kalanithi wrestles with in this profoundly moving, exquisitely observed memoir. Paul Kalanithi died in March 2015, while working on this book, yet his words live on as a guide and a gift to us all. “I began to realize that coming face to face with my own mortality, in a sense, had changed nothing and everything,” he wrote. “Seven words from Samuel Beckett began to repeat in my head: ‘I can't go on. I'll go on.’” When *Breath Becomes Air* is an unforgettable, life-affirming reflection on the challenge of facing death and on the relationship between doctor and patient, from a brilliant writer who became both.

*Meet the Mertzes* Gregg Oppenheimer

I was dead for thirty seconds. That's what the cop in Fall River told me. When the EMTs found me, there was a needle in my arm and a packet of heroin in the front seat. At basketball-crazy Durfee High School in Fall River, Massachusetts, junior guard Chris Herren carried his family's and the city's dreams on his skinny frame. His grandfather, father, and older brother had created their own sports legends in a declining city; he was the last, best hope for a career beyond the shuttered mills and factories. Herren was heavily recruited by major universities, chosen as a McDonald's All-American, featured in a Sports Illustrated cover story, and at just seventeen years old became the central figure in Fall River Dreams, an acclaimed book about the 1994 Durfee team's quest for the state championship. Leaving Fall River for college, Herren starred on Jerry Tarkanian's Fresno State Bulldogs team of talented misfits, which included future NBA players as well as future convicted felons. His gritty, tattooed, hip-hop persona drew the ire of rival fans and more national attention: Rolling Stone profiled him, 60 Minutes interviewed him, and the Denver Nuggets drafted him. When the Boston Celtics acquired his contract, he lived the dream of every Massachusetts kid—but off the court Herren was secretly crumbling, as his alcohol and drug use escalated and his life spiraled out of control. Twenty years later, Chris Herren was married to his high-school sweetheart, the father of three young children, and a heroin junkie. His basketball career was over, consumed by addictions; he had no job, no skills, and was a sadly familiar figure to those in Fall River who remembered him as a boy, now prowling the streets he once ruled, looking for a fix. One day, for a time he cannot remember, he would die. In his own words, Chris Herren tells how he nearly lost everything and everyone he loved, and how he found a way back to life. Powerful, honest, and dramatic, Basketball

Emily Rapp was born with a congenital defect that required, at the age of four, that her left foot be amputated. By the time she was eight she'd had dozens of operations, had lost most of her leg, from just above the knee, and had become the smiling, indefatigable “poster child” for the March of Dimes. For years she made appearances at church suppers and rodeos, giving pep talks about how normal and happy she was. All the while she was learning to live with what she later described as “my grievous, irrevocable flaw,” and the paradox that being extraordinary was the only way to be ordinary. Praise for Poster Child: “Rapp's precise and forthright descriptions of her exhausting physical ordeals and complex psychic wounds are simultaneously harrowing and fascinating, and they foster a strong bond between writer and reader...Rapp approaches the memoir as a supple, revelatory, involving and generous genre....She offers a fresh perspective on our obsession with physical perfection, especially the crushing expectations for women, and she writes delicately about the fears that disability engenders regarding intimacy and sex. Rapp's insider's view of the history of prostheses deepens our empathy and admiration for those who depend on artificial limbs, a growing population, once again, in yet another time of war and horrific injuries. Memoir, the conduit from the personal to the universal, is the surest way into the kind of significant psychological, sociological and spiritual truth Rapp is engaged in articulating. And there isn't one false note here. Not one inauthentic moment. No cheap manipulation. No self-importance...Her cauterizing specificity is compelling, her candor incandescent and her intelligence, courage and spiritual diligence stupendous.”-Donna Seaman, Los Angeles Times “You can't put down this excellent memoir ...Poster Child beautifully illustrates every human being's sometimes overt, sometimes co
