This book outlines
features of
international business
transactions, and
discusses their various
associated risks. For

the successful
completion of an
international business
transaction, depending
on its terms, both
parties need access to
funds. This text deals
with financing
mechanisms mainly in
the international sale
of goods and in
overseas construction
projects. Concerning
financing international

sale of goods, it discusses export working capital financing, documentary credit, negotiation of bills of exchange, export factoring, and international forfaiting. Concerning financing an overseas construction project, this book discusses supplier and buyer credit, project finance, syndicated loans, and independent guarantees (or standby letters of credit). The book also covers export credit insurance (or export credit guarantee), which is very useful for the facilitation of financing in the international sale of goods and in overseas construction projects.

Leading & Collaborating in a Competitive World

Pearson

This second decade of the millennium finds the world changing at a once unimaginable pace. Businesses, tangled in the interwoven threads of galloping globalization, technological advances, cultural diversity, economic recession and deep-rooted human social evolution, struggle to keep up with incessant changes; consequently and inexorably experiencing severe difficulties and disorientation. Executives, much bewildered, habitually turn to conventional, time-honoured strategies and practices, which increasingly fail to offer the much-sought answers and means to survival, competitiveness and

growth. We are currently experiencing a business era of turbulence and dynamic change – an era that inherently rejects conventionality and orthodox business theory to reward businesses embracing agility, reflex-style adaptability, innovation and creativity. This turbulence is, however, not a parenthesis or even a pattern, but the new reality in which each business must reinvent and redefine itself. This is a new reality of stakeholders that shift focus from the external to the internal, from the tangible to the intangible, and from fact to perception. This book presents research and paradigms that transcend classical theory in order to examine how business

practice is positively affected by these conditions. Across a multitude of sectors and organisational types, scholars of different business specialisations set the theoretical foundations of contemporary thinking and present their practical implementations.

MARKETING: THE CORE, 2/e by Kerin, Berkowitz, Hartley, and Rudelius continues the tradition of cutting-edge content and student-friendliness set by Marketing 8/e, but in a shorter, more accessible package. The Core distills Marketing's 22 chapters down to 18, leaving instructors just the content they need to cover the essentials

of marketing in a single semester. Instructors using The Core also benefit from a full-sized supplements package. The Core is more than just a "baby Kerin"; it combines great writing style, currency, and supplements into the ideal package.

A classic resource in the modern study of the anthropology of law, this book is now widely available again in an updated and expanded edition. There are many societies that survive in a remarkably orderly fashion without the help of judges, law courts and policemen. They are small in scale

and have relatively simple technologies, lacking those centralized agencies which we associate with legal systems; yet early anthropologists did not hesitate to name "law," along with kinship, politics and religion, as one of the facets of their subject. Simon Roberts contends, however, that legal theory has become too closely identified with our own arrangements in western societies to be of much help in cross-cultural studies of order. But conversely, by looking at the ways in which other societies keep order and solve disputes, he sheds valuable light on the contemporary debates about order in our own society, in a straightforward text which will be

accessible to the general reader and anthropologist alike. Now in its Second Edition with a new Foreword and Afterword by the author, this renowned introduction to the anthropology of law is part of the Classics of Law & Society Series from Quid Pro Books. *A Guide to Financing Mechanisms in International Business Transactions* McGraw-Hill Education
Rapid improvements and constant advancements in information technology have inevitably lead to significant changes for businesses across the globe. As a result, some of these large shifts have unfortunately ended in major financial crises. Technology and Financial Crisis:

Economical and Analytical Views investigates financial crises from unique points of view. Not only does this publication consider the broader economical implications that a financial crisis can have on one business or on a whole country, but it also thoroughly discusses the smaller

areas which are affected or contribute to the downfall. This book is intended to be of use to the public sector, researchers, practitioners, and educators who are interested in the affects of a financial crises and possible ways to reduce such large scale problems in the future.
