### The Cultural Life of Intellectual Properties

Humanity Books  
 Disability Rights in Real Life is the mantra  
 by which disability rights activist Natalie  
 Wade pursues her life and career as a  
 lawyer. Thanks to funding from the Law  
 Society of South Australia Natalie Wade,  
 and her collaborator Anna Bulman (who  
 edited and illustrated the work), have  
 rewritten what was the out-of-print,

disability rights handbook Justice for  
 All. This handbook is packed with important  
 legal concepts that Natalie and Anna hope  
 will help you protect and promote your  
 disability rights in Australia. "Justice for all  
 cannot be achieved without the  
 recognition that impairment can no longer  
 be the basis for denying the rights of  
 people with disability. It is only this social  
 transformation that will achieve  
 equality." Rosemary Kayess, Chair UN  
 Committee on Rights of Persons with  
 Disabilities, Sydney NSW  
**Final Judgement** The New Press  
 REPRESENTING PEOPLE AGAINST POWER  
 Internationally known legal ethics

professor Richard Zittrich's work as a trial  
 lawyer placed him on the front lines of  
 fighting systemic racism, pervasive  
 elitism, and injustice against individuals in  
 the legal system. In Trial Lawyer, he  
 shares details of the most compelling  
 cases he's encountered and exposes the  
 dilemmas he faced throughout his one-of-  
 a-kind career. The profound, the  
 consequential, the shocking, the bizarre,  
 and even the humorous, Trial Lawyer  
 brings to life what it means to represent  
 people against power. From his first case  
 as a young law student on the famous and  
 highly politicized San Quentin Six case and  
 throughout his forty-year career, Zittrich has

worked on dozens of cases that underscore the inherent biases of the legal system - towards people of color, the poor, the less educated, and those who just don't appear to fit the mold of whatever society considers "normal". His personal stories bring the reader inside the courtroom to experience a unique cast of characters, strange-but-true facts, brilliant trial tricks and tactics--and not-so-brilliant ones that failed miserably. Each had its own lessons: about social justice, fairness, strategy, ethics, morality, and more.

**Attorney on Call** Hachette UK

In *Strong Advocate*, Thomas Strong, one of the most successful trial lawyers in Missouri's history, chronicles his adventures as a contemporary personal injury attorney. Though the profession is held in low esteem by the general public, Strong entered the field with the right motives: to help victims who have been injured by defective products or through the negligence of others. As a twelve-year-old in rural southwest Missouri during the Great Depression, Strong bought a cow, then purchased others as he could afford them, and eventually financed his education with the milk he sold. After graduating law school and serving in the Army's Counter Intelligence Corps, he rejected offers to practice in New York and San Francisco and returned to his hometown of Springfield. Strong exhibited his lifelong passion to represent the underdog early in his practice, the "trial by ambush" days when neither side was required to disclose witnesses or exhibits. He quickly became known for his audacious approach to trying cases. Tactics included asking a friend to ride on top of a moving car and hiring a local character called "Crazy Max" to recreate an automobile accident. One fraud case ended with Strong owning a bank and his opponent going to prison. When he sued a labor union for the wrongful death of his client's spouse, he found his own life threatened. With changes in the law that allowed discovery of information from an opponent's files as well as the exhibits and witnesses to be used at trial, Strong and fellow personal injury attorneys forced a wide array of manufacturers to produce safer products. When witnesses of a terrible collision claimed both roadways had green lights simultaneously, Strong purchased the traffic light controller. After three months of continuous testing at a university, the controller failed, showing four green lights, and Strong learned that fail-safe devices were available but had not been implemented. These fail-safe devices are now standard on traffic lights throughout the country. In his last venture,

Strong represented the state of Missouri in its case against the tobacco industry, culminating in a settlement totaling billions of dollars. He reflects on the changes—not always for the better—in his oft-maligned profession since he entered the field in the 1950s. Thomas Strong's story of tenacity, quick wits, and humor demonstrates what made him such a creative and effective attorney. Lawyers and law students can learn much from this giant of the bar, and all readers will be entertained and heartened by his victories for the everyman.

*The People's Advocate* is the autobiography of American Constitutional Trial Attorney Daniel Sheehan. Sheehan traces his personal journey from his working-class roots through Harvard Law School and his initial career in private practice. His early disenchantment led to his return for further study at Harvard Divinity School, and rethinking the nature of his career. Eventually his role as President and Chief Trial Counselor for the famous Washington, D.C.-based Christic Institute would help define his role as America's preeminent cause lawyer. In *The People's Advocate*, Sheehan details "the inside story" of over a dozen historically significant American legal cases of the 20th Century, all of which he litigated. The remarkable cases covered in the book include both The Pentagon Papers Case in 1971 and The Watergate Burglary Case in 1973. In addition, Sheehan served as the Chief Attorney on The Karen Silkwood Case in 1976, which additionally revealed the C.I.A.'s Israeli Desk had been smuggling 98% bomb-grade plutonium to the State of Israel and to Iran. In 1984, he was the Chief Trial Counsel on The American Sanctuary Movement Case, establishing the right of American church workers to provide assistance to Central American political refugees fleeing Guatemalan and Salvadorian "death squads." His involvement with the sanctuary movement ultimately led to Sheehan's famous Iran/Contra Federal Civil Racketeering Case against the Reagan/Bush Administration, which he investigated, initiated, filed, and then litigated. The resulting "Iran/Contra Scandal" nearly brought down that Administration, leading Congress to consider the impeachment over a dozen of the top-ranking officials of the Reagan/Bush Administration. *The People's Advocate* is the "real story" of these and many other historic American cases, told from the unique point of view of a central lawyer.

A much-praised memoir of living and surviving mental illness as well as "a stereotype-shattering look at a tenacious woman whose brain is her best friend and her worst enemy" (Time). Elyn R. Saks is an esteemed professor, lawyer, and psychiatrist and is the Orrin B. Evans Professor of Law, Psychology, Psychiatry, and the Behavioral Sciences at the University of Southern California Law School, yet she has suffered from schizophrenia for most of her life, and still has ongoing major episodes of the illness. *The Center Cannot Hold* is the eloquent, moving story of Elyn's life, from the first time that she heard voices speaking to her as a young teenager, to attempted suicides in college, through learning to live on her own as an adult in an often terrifying world. Saks discusses frankly the paranoia, the inability to tell imaginary fears from real ones, the voices in her head telling her to kill herself (and to harm others), as well as the incredibly difficult obstacles she overcame to become a highly respected professional. This beautifully written memoir is destined to become a classic in its genre.

**The Life of the Law** Oxford University Press, USA

You get good grades in college, pay a small fortune to put yourself through law school, study hard to pass the bar exam, and finally land a high-paying job in a prestigious firm. You're happy, right? Not really. Oh, it beats laying asphalt, but after all your hard work, you expected more from your job. What gives? *The Happy Lawyer* examines the causes of dissatisfaction among lawyers, and then charts possible paths to happier and more fulfilling careers in law. Eschewing a one-size-fits-all approach, it shows how maximizing our chances for achieving happiness depends on understanding our own personality types, values, strengths, and interests. Covering everything from brain chemistry and the science of happiness to the workings of the modern law firm, Nancy Levit and Doug Linder provide invaluable insights for both aspiring and working lawyers. For law students, they offer surprising suggestions for selecting a law school that maximizes your long-term happiness prospects. For those about to embark on a legal career, they tell you what happiness research says about which potential jobs hold the most promise. For working lawyers, they offer a handy toolbox--a set of easily understandable steps--that can boost career happiness. Finally, for firm managers, they offer a range of approaches for remaking a firm into a

more satisfying workplace. Read this book and you will know whether you are more likely to be a happy lawyer at age 30 or age 60, why you can tell a lot about a firm from looking at its walls and windows, whether a 10 percent raise or a new office with a view does more for your happiness, and whether the happiness prospects are better in large or small firms. No book can guarantee a happier career, but for lawyers of all ages and stripes, *The Happy Lawyer* may give you your best shot.

Privacy in Context Lindhardt og Ringhof Nobody's Law shows how people – who are disappointed, disenchanting, and outraged about the justice system – gradually move away from law. Using detailed case studies and combining different theoretical perspectives, this book explores the legal consciousness of ordinary people, businessmen, and street-level bureaucrats in the Netherlands. The empirical research in this study tells an original and alternative narrative about the role of law in everyday life. While previous studies emphasize the law's hegemony and argue that it's 'all over', Hertogh shows that legal proliferation makes it harder for people to know, and subsequently identify with, the law. As a result, official law has become increasingly remote and irrelevant to many people. The central finding presented in this highly topical text is that these developments signal a process of 'legal alienation'— a gradual and mundane process with potentially serious consequences for the legitimacy of law. A timely and original study, this book will be of particular interest to scholars in the fields of law and society, socio-legal studies and legal theory.

*Fair Labor Lawyer* Vintage

*The Lawyer's Guide to Balancing Life and Work, Second Edition* is about how the law fits inside you, not how you fit inside the law. Making space for creativity and passion within your current workplace and at home can yield enormous emotional rewards. In the end, this book will support you whether you stay in the law, shift your law practice, or move on to other work. This book is the tool you need to make healthy decisions and welcome the passion back into your life!

**Normal Life** Columbia University Press Real Life Financial Planning for Young Lawyers should be required reading for every young lawyer. Practicing law today brings many challenges that prevent lawyers from adequately addressing their own finances. This book will give you a blueprint to help you get your financial house in order. Practical steps are presented on how to build a solid long-term financial plan that addresses every

level of your finances from budgeting and insuring to investing and taxes. You will be motivated and encouraged on how to meet your financial goals by making your money work as hard as you do. This is the financial information you wish they taught in law school. There is an amazing amount of practical advice packed into this book based on the wisdom gained from over 17,000 individual meetings that the authors have had with their clients.....people just like you. You will learn how to: ? organize your financial affairs to meet YOUR needs; ? prioritize decisions so that you know WHAT to do WHEN; ? maximize financial security with CORRECT insurance and asset protection strategies; ? get CONTROL of your financial life; ? begin a path toward FINANCIAL INDEPENDENCE; ...and much, much MORE!

The People's Constitution Routledge

When hopelessness seems to be the only option, how do you find the strength to persevere through unimaginable circumstances? When the possibility of death looms in every corner of your mind, how can you emerge more resilient than before? What if you are mercilessly abused nearly to death by the very individual who has sworn to love you until "death do us part?" What do you do when you feel the darkness around you as if it is consuming you and inescapable? Unintentional Hero answers these questions in an extraordinary story of strength, faith, and resilience. After years of surviving in the shadows, bound by the chains of physical, mental, and emotional abuse, an oppressed woman found the courage not only to escape her oppressor, but also the courage to build a life focused on helping those like her. While this book explores one particular woman's harrowing journey, its message runs through the veins of every person who has been, or continues to be, a survivor of domestic violence. From the foreword notes, Rania explains "You are about to read about a time of my life, the circumstances of which are exceedingly difficult for most people to comprehend. At times, they're difficult for me to understand, and I lived through them. If you are, or have been, a victim of domestic violence, you already understand all too well. I offer you my unending support and hope for the life you deserve. If you are not (or have never been) a victim, as you read my story, you may wonder why I didn't "just" leave. People ask this question of victims all the time. And the answer is complex and dark, just as the abuse itself. The reason is it is based on a victim's state of mind -- a state

of mind that is as bloody and bruised as any visible injuries. There is no simple comparison to a healthy, clear mindset with the capacity to make rational decisions. Abuse, in any form, is anything but rational. Victims are often brainwashed to believe that there are no options or ways out. And, even if we allowed ourselves the freedom of thought to realize there may be, we live in constant fear and under constant threats of what will happen if we try to leave. We know, better than anyone, what our abusers are capable of. Unintentional Hero is about finding light after years of being shrouded in darkness. Yet, as with all journeys, a survivor's path is not easy. A survivor of domestic violence must emerge from a seemingly bottomless abyss and search the very depths of their soul to begin the healing process and regain a sense of self. But like all survivor stories, there are heroes along the way who help navigate bumpy roads fraught with obstacles. Unintentional Hero explores the obstacles survivors face. Visible obstacles can heal quickly and easily with time, but it is the invisible roadblocks that stubbornly bury themselves in a survivor's mind that can wreak havoc for years. But sometimes, a person will cross our path in our darkest hour and chip away at the roadblock, eroding it until we can once again walk our path. That person is one of the remarkable people who doesn't necessarily intend to make an impact, yet often makes the biggest one. Unintentional Hero helps survivors of domestic violence understand that even when all feels lost, a hero may be just around the corner, if only they have the courage to look. Above all, this book offers love and support. Unintentional Hero embodies what the human spirit is capable of when we possess the will not only to change our circumstances, but to acknowledge the efforts of the unintentional heroes who may have helped save our lives. "This book is dedicated to victims of domestic abuse. May your bruises heal, your scars fade, and your minds clear. May the darkness fade into shadows and the shadows disappear into light. May you find the life that you deserve."

**Trial Lawyer** American Bar Association "Michael Ratner (1943-2016) was one of America's leading human rights lawyers. He worked for more than four decades at the Center for Constitutional Rights (CCR) becoming first the Director of Litigation and then the President of what Alexander Cockburn called "a small band of tigerish people." He was also the President of the National Lawyers Guild. Ratner handled

some of the most significant cases in American history. This book tells why and how he did it. His last case, which he worked on until he died, was representing truth-telling whistleblower and now political prisoner Julian Assange, the editor of WikiLeaks. Ratner "moved the bar" by organizing some 600 lawyers to successfully defend habeas corpus, that is, the ancient right of someone accused of a crime to have a lawyer and to be brought before a judge. Michael had a piece of paper taped on the wall next to his desk at the CCR. It read: 4 key principles of being a radical lawyer: 1. Do not refuse to take a case just because it is long odds of winning in court. 2. Use cases to publicize a radical critique of US policy and to promote revolutionary transformation. 3. Combine legal work with political advocacy. 4. Love people. Compelling and instructive, *Moving the Bar* is an indispensable manual for the next generation of activists and their lawyers"-- Publisher's description.

**The Law of Life and Death** Oxford University Press

The author "describes the unique stresses lawyers face, the increasing demands of the legal marketplace, the "moral neutering" imposed by a lawyers' ethical duty of advocacy, some blunt truths about clients, and the deep tensions between lawyers' professional and personal lives."

*A Little Life* Political Animal Press

The most famous lawyer in America talks about the law, his life, and how he has won. Johnnie Cochran has been a lawyer for almost forty years. In that time, he has taken on dozens of groundbreaking cases and emerged as a pivotal figure in race relations in America. Cochran gained international recognition as one of America's best - and most controversial lawyers - for leading 'the Dream Team' defense of accused killer O.J. Simpson in the Trial of the Century. Many people formed their perception of Cochran based on his work in that trial. But long before the Simpson trial and since then Johnnie Cochran has been a leader in the fight for justice for all Americans. This is his story. Cochran emerged from the trial as one of the nation's leading African-American spokespersons - and he has done most of his talking through the courtroom. Abner Louima. Amadou Diallo. The racially-profiled New Jersey Turnpike Four. Sean "P. Diddy" Combs. Patrick Dorismond. Cynthia Wiggins. These are the names that have dominated legal headlines - and Cochran was involved with each of them. No one who first encountered him during the Simpson trial can appreciate his impact on our world until they've read his

whole story. Drawing on Cochran's most intriguing and difficult cases, *A Lawyer's Life* shows how he's fought his critics, won for his clients, and affected real change within the system. This is an intimate and compelling memoir of one lawyer's attempt to make us all truly equal in the eyes of the law.

**The People's Lawyer** Univ of California Press

Supreme Court advocate Bessie Margolin (1909–1996) molded modern American labor policy while creating a space for female lawyers in the nation's high courts. In this comprehensive biography, Marlene Trestman reveals the forces that shaped Margolin's remarkable journey—beginning in a New Orleans Jewish orphanage—and illuminates the public and private life of this trailblazing woman. Margolin launched her career in the early 1930s, when only 2 percent of America's attorneys were female and far fewer were Jewish or from the South. Among other numerous accomplishments, she defended the constitutionality of the New Deal's Tennessee Valley Authority, drafted rules establishing American military tribunals for Nazi war crimes, and shepherded through the courts the Fair Labor Standards Act of 1938. Margolin culminated her government service as a champion of the Equal Pay Act of 1963. Her passion for her work and meticulous preparation resulted in an outstanding record in appellate advocacy: she prevailed in cases associated with twenty-one of her twenty-four Supreme Court arguments. Margolin shares an elite company of individuals who attained such high standing as Supreme Court advocates, and she did so when the legal world was almost entirely male.

**The Lawyer's Guide to Balancing Life & Work** NYU Press

Privacy is one of the most urgent issues associated with information technology and digital media. This book claims that what people really care about when they complain and protest that privacy has been violated is not the act of sharing information itself—most people understand that this is crucial to social life—but the inappropriate, improper sharing of information. Arguing that privacy concerns should not be limited solely to concern about control over personal information, Helen Nissenbaum counters that information ought to be distributed and protected according to norms

governing distinct social contexts—whether it be workplace, health care, schools, or among family and friends. She warns that basic distinctions between public and private, informing many current privacy policies, in fact obscure more than they clarify. In truth, contemporary information systems should alarm us only when they function without regard for social norms and values, and thereby weaken the fabric of social life.

**Haben** University of Virginia Press

The short story "The Law of Life" by Jack London is a study on the human psyche, as one faces the familiar cycle of life and death. Old Koskoosh, who is the father of his Native American tribe's chief, is dying. As his people leave him and he lays on the ground in his final hours to wait for his end, he looks back on his life. Memorable events fill his thoughts until the very end - even until the wolves arrive. The short story is one of London's stories inspired by the period the writer spent at the Klondike Gold Rush in the late 19th century and was published in the early 20th century. Jack London (1876–1916) was an American writer and social activist. He grew up in the working class, but became a worldwide celebrity and one of the highest paid authors of his time. He wrote several novels, which are considered classics today, among these 'Call of the Wild', 'Sea Wolf' and 'White Fang'.

*The Life of the Law* Stanford University Press

Why do some people call the police to quiet a barking dog in the middle of the night, while others accept devastating loss or actions without complaint? Sociologists Patricia Ewick and Susan Silbey examine more than 400 case studies to explore the various ways the law is perceived and utilized, or not, by a broad spectrum of citizens.

*The New Lawyer Companion* University of Chicago Press

Novelist Carroll Dale Short turned his hand to creative non-fiction with this profile of Alabama lawyer Julian McPhillips, issued in hardcover in 2000 and now out of print. The new paperback edition has been revised with a 2005 update written by the subject of the book, who had a lot to talk about. Over the past five years, McPhillips was Bill Bradley's state campaign coordinator, ran himself for the U.S. Senate (he lost), and continued to build his reputation as an advocate for the underdog in cases ranging from police brutality to corporate malfeasance, from employment discrimination to product liability, and more.

*Strong Advocate* Macmillan

*The New Lawyer Companion* is a volume of

essays for law students and people with your mind and mental health, career law degrees on topics covering law school,

design, your first year working, and culture change and the future of law.
