Molecules, Macromolecules and Particles ...Separation of dietary macromolecules (i.e. proteins, dietary fibers) from micromolecules (i.e. antioxidants, sugars). • Referred ultrafiltration studies were conducted with membranes between 100 and 1 kDa. • Polysulphone membranes (20–25 kDa) were very efficient for several separations. • Separation of functional macromolecules and micromolecules ...Providing chemical engineering undergraduate and graduate students with a basic understanding of how separation of a mixture of molecules, macromolecules or particles is achieved, this textbook is a comprehensive introduction to the engineering science of separation. Separation of Molecules, Macromolecules and Particles ...Electrophoresis in biology uses porous gels as the media. The sample mixture is loaded into a gel, the electric field is applied, and the molecules migrate through the gel matrix. Thus, separation is based on both the molecular sieve effect and on the electrophoretic mobility of the molecules. This method determines the size of biomolecules. Separation and Purification of Biomolecules - Biology ...Providing chemical engineering undergraduate and graduate students with a basic understanding of how separation of a mixture of molecules, macromolecules or particles is achieved, this textbook is a comprehensive introduction to the engineering science of separation. • Students learn how to apply their knowledge to determine the separation achieved in a given device or process.
