The travel industry has been through exceptional upheaval and change. Plunkett's Airline, Hotel & Travel Industry Almanac will be your complete guide to this fascinating industry. After reeling from the effects of the September 11, 2001 tragedies, the travel business is now emerging as a more streamlined, efficient and focused industry. Many of the biggest, most successful firms are becoming extremely global in nature. Meanwhile, most airlines are struggling to return to profitability, while low-cost providers Southwest Airlines and JetBlue continue to set the standard for air travel. Deregulation is opening up huge travel markets in India and China. On the hotel side, massive management firms, development companies and real estate investment trusts are gaining in scale and influence. The booking of travel online is perhaps the most successful niche of all of the world's e-commerce efforts. Consumers use the Internet to become better informed and to seek bargains. Online sites like Travelocity, Priceline and Orbitz steer millions of consumers toward specific airlines and hotels in a manner that lowers prices and improves satisfaction among consumers. The exciting new reference book (which includes a fully-featured database on CD-ROM) will give you access to the complete scope of the travel industry, including: Analysis of major trends; Market research; Statistics and historical tables; Airlines; Hotel operators; Entertainment destinations such as resorts and theme parks; Tour operators; The largest travel agencies; E-commerce firms; Cruise lines; Casino hotels; Car rental; and much, much more. You'll find a complete overview, industry analysis and market research report in one superb, value-priced package. It contains thousands of contacts for business and industry leaders, industry associations, Internet sites and other resources. This book also includes statistical tables, a travel industry glossary, industry contacts and thorough indexes. The corporate profile section of the book includes our proprietary, in-depth profiles of over 300 leading companies in all facets of the travel industry. Purchasers of either the book or PDF version can receive a free copy of the company profiles database on CD-ROM, enabling key word search and export of key information, addresses, phone numbers and executive names with titles for every company profiled.

The finance function can be regarded as the spider in the organizational web, as it has relations with every part of the organization and is also represented on the executive board. Therefore, it is of utmost importance that this function takes the lead by quickly transforming itself into a high-performance finance function (HPFF), serving as a role model for other functions in the organization. Building the High-Performance Finance Function describes the development of the high-performance finance function (HPFF) framework and explores the experiences, lessons learned, and results achieved by finance functions that have transformed themselves into "HPFFs," or high-performance finance functions, using the HPFF framework. Covering a range of topics such as excellence in finance and high-performance organizations, it is ideal for industry professionals, teachers, researchers, academicians, practitioners, and students.

In recent years, Cloud computing has been touted as the next great development in the information technology business. Cloud computing provides organizations around the world with the opportunity to focus on expanding their business and leave the concerns of IT infrastructure management to Cloud service providers. This project implements an N-Tier application for business

expense management named "Expense Manager." This application is designed to be compliant with the record keeping requirements established by the Internal Revenue Service (IRS). The Expense Manager application facilitates employees of any organization in recording travel and other business-related expenses. It also enables cost managers at company's headquarters to process expense claims made by employees. Expense Manager is a Web browser-based application. The application is developed on Microsoft's .NET 3.0 Framework. It is designed using the software engineering design patterns and best practices recommended by Microsoft. It is implemented using ASP.NET and the C# programming language. The back end of the application is Microsoft SQL Azure, a Cloud-based database service.

The Rise of the Project Workforce "Melik brings a difficult subject into focus by adding a detailed and feasible approach to managing complex projects in the digital age. Not only is The Rise of the Project Workforce a strong entry-level primer, but an extremely valuable reference guide for any seasoned project or program manager." —Jonathan W. Rider, Vice President and CIO, Gilbane Inc. "Project professionals remain challenged with business solutions that force-fit production and manufacturing discipline and tools to meet the needs of knowledge-based information workers. This book provides a comprehensive reference for enterprises that are making the shift to a service-based and project-based world." —Ray Wang, Analyst, Forrester Research "This is a must-read for anyone looking for a framework to manage complex projects where speed, quality, and managing diverse competencies are critical success components of the project." —Rich LaBarbera, President and CEO, Kintera Inc. and former president, Niku Corporation "The strength of The Rise of the Project Workforce is in the breadth of the topics covered-in both the realm of project management as well as human capital management. Lots of books do one well, but Melik manages to successfully educate readers on the importance of balancing and linking both areas." —John Colbert, CEO, Guidance Software Inc. "This book is a well-organized, college-level course for professionals preparing for the changes and challenges of the twenty-first century. It touches on current and future issues associated with risk mitigation and regulatory compliance that affect every company competing in the global marketplace today." —David Hofferberth, Analyst, SPI Research
