A Liberian academic and former government official accounts for and reflects upon half a century of work and experience. An important Liberian political memoir, the book is at once Dunn's critical exposition on his country and an attempt to explain how Liberia came to be what it is today. In 26 captivating chapters he recounts careers as academic, and services as aide to slain Liberian President Tolbert and consultant to former President Johnson Sirlleaf. Between government service in crisis times (late 1970s) and in hopeful times (early 2000s) is positioned more than three decades of University teaching and research.

Du Bois as the official publication of the NAACP, is a journal of civil rights, history, politics, and culture and seeks to educate and challenge its readers about issues that continue to plague African Americans and other communities of color. For nearly 100 years, The Crisis has been the magazine of opinion and thought leaders, decision makers, peacemakers and justice seekers. It has chronicled, informed, educated, entertained and, in many instances, set the economic, political and social agenda for our nation and its multi-ethnic citizens.

A young man arrives in England in the 1930s, knowing few words of the English language. Yet, two years later he writes a successful English book on Chinese art, and within the following decade publishes more than a dozen others. This is the true story of Chiang Yee, a renowned writer, artist, and worldwide traveler, best known for the Silent Traveller series--stories of England, the United States, Ireland, France, Japan, and Australia--all written in his humorous, delightfully refreshing, and enlightening literary style. This biography is more than a recounting of extraordinary accomplishments. It also embraces the transatlantic life experience of Yee who traveled from China to England and then on to the United States, where he taught at Columbia University, to his return to China in 1975, after a forty-two year absence. Interwoven is the history of the communist revolution in China; the battle to save England during World War II; the United States during the McCarthy red scare era; and, eventually, thawing Sino-American relations in the 1970s. Da Zheng uncovers Yee's encounters with racial exclusion and immigration laws, displacement, exile, and the pain and losses he endured hidden behind a popular public image.

The culture wars have as much to do with rhetorical style as moral substance. Cathleen Kaveny focuses on a powerful stream of religious discourse in American political speech: the Biblical rhetoric of prophetic indictment. It can be strong medicine against threats to the body politic, she shows, but used injudiciously it does more harm than good.

They all come from all walks of life seeking solutions to their problems . . . Seeking answers from the motivational speaker . . . SST, really I feel Im not worthy to be here, she spoke softly again, displaying a reluctance to speak out. I immediately got interested! From experience, such people have interesting stories that will make my day. My sister, dont worry, you have come where your problems will be attended to. I was cajoling her to speak out! And please, I didnt get your name, or you dont feel like telling me? I said. Its not like that, SST! Its just that I dont think I should say what I want to say. She was shying away. I was right. She didnt want her name to be mentioned, theres a story all right! She came back reluctantly. OK, SST, my name is Joan, she said. Joan like hell! No problem, I can use that name. Names are like ages. They really dont count on my show because you hardly get the true dose, all the same I just needed it for the reference. OK, Joan, whats the issue? Let me see your steps, the floor is all yours now. I decided to spur her. I havent got all day even if she was my only caller. Joan, lets hear you before our shot time is up, and we might just miss you for life. I was pushing her. That seemed to wake her, and from then, she started coming out like a canary. When something is bottled up for so long inside someone and it wants to spurt out, a small nod will collapse the whole balloon. SST, you see, I never knew my life will drain to this level. I was not brought up to be like this. I had a good family upbringing, nice parents that wanted the best for me. It was not meant to be like this for me. I bet I was left astray by the company I made in school. Thats it, she is talking now! You cant put it down once you start reading . . .

A Century of Contributions to Gifted Education traces the conceptual history of the field of gifted education. Bookended by Sir Francis Galton's Hereditary Genius published in 1869, and Sidney Marland's report to the United States Congress in 1972, each chapter represents the life and work of a key figure in the development of the field. While the historical record of gifted education has previously been limited, A Century of Contributions to Gifted Education explores the lives of individuals who made fundamental contributions in the areas of eminence, intelligence, creativity, advocacy, policy, and curriculum. Drawing heavily on archival research and primary source documentation, expert contributors highlight the major philosophical, theoretical, and pedagogical developments in gifted education over the course of a century, providing both lively biography and scholarly analysis.

Ralph Bunche An American Odyssey W. W. Norton & Company

How may we conceptualize Africa in the driver's seat of her own destiny in the twenty-first century? How practically may her cultures become the foundation and driving force of her innovation, development, and growth in the age of the global knowledge economy? How may the Africanist disciplines in the humanities, the social sciences, and the natural sciences be revamped to rise up to these challenges through new imaginaries of intersectional reflection? This book assembles lectures given by Pius Adesanmi that address these questions. Adesanmi sought to create an African world of signification in which verbal artistry interpellates performer and audience in a heuristic process of knowledge production. The narrative and delivery of his arguments, the antiphonal call and response, and the aspects of Yoruba oratory and verbal resources all combine with diction and borrowings from Nigerian popular culture to create a distinct African performative mode. This mode becomes a form of resistance, specifically against the pressure to conform to Western ideals of the packaging, standardization, and delivery of knowledge. Together, these short essays preserve the committed and passionate voice of an African writer lost far too soon. Adesanmi urges his readers to commit themselves to Africa's cultural agency.

I have traveled far and wide, far beyond the simple parish I envisioned as a young man. My obligation of service has led me into diverse yet interrelated roles: college teacher, theologian, president of a great university, counselor to four popes and six presidents. Excuse the list, but once called to public service, I have held fourteen presidential appointments over the years, dealing with the social issues of our times, including civil rights, peaceful uses of atomic energy, campus unrest, amnesty for Vietnam offenders, Third World development, and immigration reform. But deep beneath it all, wherever I have been, whatever I have done, I have always and everywhere considered myself essentially a priest. —from the Preface *Investigating Political Tolerance at Conservative Protestant Colleges and Universities* Harvard University Press

Anne Tyler wrote a novel called The Accidental Tourist about a man who is forced to travel but does not want to have any new experiences...My goal on my trips has been just the opposite: not to do anything too foolish, but to be open to an endless round of new experiences and possibilities." Father Edward Malloy never planned to share his trip diaries with readers throughout the world. Affectionately known as "Monk," the president of the University of Notre Dame just wanted to record where he went, what he saw, and whom he met along the way. But good reading attracts readers, and good travel writing takes those readers along on the journey. Both apply to Monk's Travels: People, Places, and Events. The book carries readers to destinations ranging from New York just after September 11, 2001, to Europe, the Mediterranean, Latin America, Africa, and the Far East. Monk meets and experiences the local residents and their customs. But he also comes in contact with some of the most notable personalities of our time: Presidents George H. W. and George W. Bush, Martin Luther King Jr., Pope John Paul II, and Taiwanese Premier Lien Chen and President Lee Teng-Hui. The author's reportage of these places and personages opens the world to readers of all faiths and interests. Monk's Travels shares its creator's personality, hopes, spirituality, and emotions. Wherever he goes, Monk sees who and what is going on around him. His eye for detail is sharp and his talent for recounting his visits reflects his long experience of speaking to wide and varied audiences. This is a book that will interest anyone who is curious about higher education, Catholicism, travel, and/or world events.

In (Not that You Asked), Steve Almond documents a life spent brawling with the idiot kings of modern culture. He squares off against Sean Hannity on national TV, takes on Oprah Winfrey, nearly gets kidnapped by a reality TV crew, and winds up in Boston, where he quickly enrages the entire population of Red Sox Nation. Amid the carnage, he finds time to celebrate his literary hero, the late Kurt Vonnegut. These are essays the Los Angeles

Times has called "rich, fearless [and] cutting." Praise for (Not that You Asked) "Refreshingly irreverent . . . absurdly funny." —The Boston Globe "[Almond] scores big in every chapter of this must-have collection. Biting humor, honesty, smarts and heart: Vonnegut himself would have been proud." —Kirkus Reviews (starred review) "Taunting, revealing, irreverent, and earnest." —The New York Times "Steve Almond has created a distinctive voice and literary persona. Pleasure-obsessed, self-deprecating, horny, hilarious and always dedicated to parsing the messy terrain of the human heart." —Forward.com

An invaluable resource that documents the Black Power Movement by its cultural representation and promotion of self-determination and self-defense, and showcases the movement's influence on Black communities in America from 1965 to the mid-1970s. Unlike the Civil Rights Movement's emphasis on the rhetoric and practice of nonviolence and social and political goal of integration, Black Power was defined by the promotion of Black self-determination, Black consciousness, independent Black politics, and the practice of armed self-defense. Black Power changed communities, curriculums, and culture in the United States and served as an inspiration for social justice internationally. This unique two-volume set provides readers with an understanding of Black Power's important role in the turbulence, social change, and politics of the 1960s and 1970s in America and how the concepts of the movement continue to influence contemporary Black politics, culture, and identity. Cross-disciplinary and broad in its approach, Black Power Encyclopedia: From "Black Is Beautiful" to Urban Uprisings explores the emergence and evolution of the Black Power Movement in the United States some 50 years ago. The entries examine the key players, organizations and institutions, trends, and events of the period, enabling readers to better understand the ways in which African Americans broke through racial barriers, developed a positive identity, and began to feel united through racial pride and the formation of important social change organizations. The encyclopedia also covers the important impact of the more militant segments of the movement, such as Malcolm X and the Nation of Islam and the Black Panthers.

This is the first biography of Stanley Mosk (1912-2001), iconic protector of civil rights and civil liberties during his 37 years as a justice of the Supreme Court of California (1964 to 2001). He had quickly risen as a well liked leader among Los Angeles reformers, as executive secretary to California governor Culbert Olson and then 16 years as a superior court judge. His 1958 election and service as state attorney general soon won national attention and the promise of likely election to the U.S. Senate, but an unexpected campaign twist augured a new course. This book frames Mosk's Supreme Court years and the landmark cases in which his opinions or biting dissents continue to resonate.

A Will and a Way Columbia University Press

Richard Nixon's election to the presidency in 1968 was an improbable vindication for a man branded as a loser after unsuccessful presidential and gubernatorial campaigns. Yet during the 1966 mid-term elections, he emerged as the critical figure who united the fractured Republican Party after the disastrous 1964 presidential election. Along the way, he sensed how large swaths of the American public were moving against the Democrats, and how a candidate could take advantage of this. Filling an important gap in the Nixon literature, this book explores his dynamic reinvention during the dark days of the mid-sixties--a period that mirrored his 1946-1952 rise from obscure congressman to Eisenhower's vice-president. Beginning with his 1962 press conference after losing the California governor's election and ending with his 1968 presidential victory, a far more human Nixon is revealed, unlike the familiar caricature of the shady politician and orchestrator of Watergate who would do anything to win.

Momentum changes the conversation from how others are holding higher education accountable to why colleges and universities need to embrace the need to demonstrate their own responsibility. The responsibility paradigm that emerges fundamentally shifts the dialogue from fixing to preventing, from reacting to creating, from surviving to thriving.

No one would have blamed Donald Seldin for running away. When he arrived at Southwestern Medical College in 1951, it was a collection of hastily repurposed military shacks creaking in the wind. On practically day one he became chair of the department of medicine—when the only other full-time professors departed. By the time he stepped down thirty-six years later, Seldin had transformed a sleepy medical college into the University of Texas Southwestern Medical Center—a powerhouse of research and patient care and an anchor of the city of Dallas. Raymond Greenberg, a physician-scholar, tells Seldin's story of perseverance and intellectual triumph. Drawing on interviews with Seldin's trainees and colleagues—and on Seldin's own words—Greenberg chronicles the life of the Brooklyn boy who became one of Texas's foremost citizens and taught decades of men and women to heal. A pioneering nephrologist, Seldin devoted his career to developing the specialty; educating students, residents, and fellows; caring for patients; and nurturing basic research. Seldin was a wildcatter in the best sense. He declined the comfortable prestige of Harvard and Yale and instead embraced a worthy challenge with an unflagging sense of mission. Graceful and richly detailed, The Maestro of Medicine captures an inspiring life of achievement and service.

Erich Fromm was a political activist, psychologist, psychoanalyst, philosopher, and one of the most important intellectuals of the twentieth century. Known for his theories of personality and political insight, Fromm dissected the sadomasochistic appeal of brutal dictators while also eloquently championing love—which, he insisted, was nothing if it did not involve joyful contact with others and humanity at large. Admired all over the world, Fromm continues to inspire with his message of universal brotherhood and quest for lasting peace. The first systematic study of Fromm’s influences and achievements, this biography revisits the thinker’s most important works, especially *Escape from Freedom* and *The Art of Loving*, which conveyed important and complex ideas to millions of readers. The volume recounts Fromm’s political activism as a founder and major funder of Amnesty International, the National Committee for a Sane Nuclear Policy, and other peace groups. Consulting rare archival materials across the globe,

Lawrence J. Friedman reveals Fromm’s support for anti-Stalinist democratic movements in Central and Eastern Europe and his efforts to revitalize American democracy. For the first time, readers learn about Fromm’s direct contact with high officials in the American government on matters of war and peace while accessing a deeper understanding of his conceptual differences with Freud, his rapport with Neo-Freudians like Karen Horney and Harry Stack Sullivan, and his association with innovative artists, public intellectuals, and world leaders. Friedman elucidates Fromm’s key intellectual contributions, especially his innovative concept of “social character,” in which social institutions and practices shape the inner psyche, and he clarifies Fromm’s conception of love as an acquired skill. Taking full stock of the thinker’s historical and global accomplishments, Friedman portrays a man of immense authenticity and spirituality who made life in the twentieth century more humane than it might have been.
